<p>EDO will assist eligible projects in accessing the "Build American Bonds and Recovery Zone Bonds." The 2009 stimulus act provides a unique opportunity for local governments, including community redevelopment agencies, cities and counties, to receive a rebate from the federal government on the interest paid for capital projects. The most familiar Build America Bonds allows a rebate of 35 percent of interest paid. "Recovery Zone Economic Development Bonds" and "Recovery Zone Facility Bonds" are intended to provide tax incentives in the form of lower borrowing costs to promote job creation and economic recovery that is targeted to areas particularly affected by employment declines and must be issued before January 1, 2011. These are two new types of debt where the U.S. Treasury will rebate 35 percent or 45 percent of interest paid on eligible projects located in economically depressed areas. Although not limited to Tax Increment Financing (TIF), the Recovery Zone Bonds are tailor-made for a TIF structure. These opportunities expire in less than 18 months.</p>
