I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve:

- (A) A contract with ThyssenKrupp Airport Systems, Inc. in the amount of \$ 15,360,608 for the replacement of Passenger Loading Bridges at Palm Beach International Airport (PBIA); and
- (B) A Budget Amendment of \$3,695,000 in the Airports Improvement and Development Fund to authorize additional funding for the project and recognize additional transfers from the Passenger Facility Charge Fund; and
- (C) A Budget Transfer of \$3,695,000 in the Airports Passenger Facility Charge Fund to authorize additional transfers to the Airports Improvement and Development Fund, including a transfer from reserves.

Summary: This project was advertised utilizing the Request for Proposals (RFP) process. On March 28, 2006 three (3) proposals were received to replace existing passenger loading bridges at PBIA. Following the County's RFP process, the Selection Committee selected ThyssenKrupp Airport Systems, Inc. as the best qualified firm to perform these services in the amount of \$15,360,608. Total funding for the project is \$16,320,000 which includes staff time, other contractors, and contingency. The Small Business Enterprise (SBE) Goal is 15%. ThyssenKrupp Airport Systems, Inc. proposal met 7.2% SBE participation.
Countywide (JCM)

Background and Justification: As part of the BCC approved airport master plan for PBIA, the Department of Airports requested proposals from passenger loading bridge manufacturers for the removal of 25 existing passenger loading bridges and the purchase of 28 new passenger loading bridges and related equipment for PBIA over a scheduled period of time. The existing loading bridges are 19 years old and Mitsubishi, the manufacturer, no longer supports the product line, which makes it very difficult to locate and purchase the parts required to maintain the bridges. ThyssenKrupp Airport Systems, Inc. has provided a proposal in the amount of \$15,360,608 for the removal and replacement of said passenger loading bridges. Funding for this project is provided by the Florida Department of Transportation (FDOT) and Passenger Facility Charges (PFC's).

- Addendum No. 2, dated March 17, 2006.
- Approved Installation Schedule, dated AUGUST 21, 2006.

and to accept as full compensation for the satisfactory performance of this Contract the sum of Fifteen Million Three Hundred Sixty Thousand Six Hundred Eight and 00/100 Dollars (\$15,360,608.00) for Passenger Loading Bridges at Palm Beach International Airport.

The prices named in the Proposal are for the completed work, and include the furnishing of all materials and all labor, tools, and appliances and all expense, direct or indirect, connected with the proper execution of the work and of maintaining the same until it is accepted by the Board of County Commissioners.

Time is of the essence. The Contractor shall commence the work to be performed under this Contract on the date set by the Owner in the written notice to proceed, continue the work with due diligence and shall complete the entire work per Attachment No. 2 to the Proposal Form. Further, in the event interim milestone completion dates are established in Attachment No. 2 of the Proposal Form and/or the approved installation schedule for separable portions of the work, the Contractor agrees to complete said separable portions of the work in accordance with said milestone dates.

In case of failure on the part of the Contractor to complete the work within the time(s) specified in the Contract, or within such additional time(s) as may be granted by formal action of the Board of County Commissioners or fails to prosecute the work, or any separable part thereof, with such diligence as will insure its completion within the time(s) specified in the Contract or any extensions thereof, Owner will suffer damage, the amount of which is difficult, if not impossible to ascertain. Therefore, the Contractor shall pay to the Owner, as liquidated damages, the amounts indicated in the Milestone and Damages Data (Attachment #2 of the Proposal Form and/or approved installation schedule) for each calendar day of delay that actual completion extends beyond the time limits specified in said Attachment until such reasonable time as may be required for final acceptance of work. In no way shall costs for liquidated damages be construed as a penalty on the Contractor.

Liquidated damages due to the Owner may be deducted from payments due to the Contractor, or may be collected from the Contractor or its surety or sureties. These provisions for liquidated damages shall not prevent the Owner, in case of the Contractor's default, from terminating the Contractor's right to proceed as provided in General Conditions GC 24 'Declaration of Default' and GC 25 'Termination for Default'.

As provided in F.S. 287.132-133, by entering into this contract or performing any work in furtherance hereof, the contractor certifies that it, its affiliates, suppliers, subcontractors and consultants who will perform hereunder, have not been placed on the Convicted Vendor List maintained by the State of Florida Department of Management Services within the 36 months immediately preceding the date hereof. **Subject: RFP 06-2 Passenger Loading Bridges at Palm Beach International Airport
Proposal Review**

Dear Mr. Allen;

As requested, PBS&J has reviewed the results of the Selection Committee meeting held on April 18, 2006 at the Department of Airports Main Conference Room as well as the Request For Proposals submitted on March 28, 2006 for the removal and replacement of Passenger Loading Bridges and related equipment at Palm Beach International Airport.

Three Request For Proposals were received from qualified companies that manufacture and install passenger loading bridges and related equipment. These companies were;

FMC Technologies
ThyssenKrupp Airport Systems, Inc.
Dewbridge Airport Systems

The submitted proposals were evaluated by the Selection Committee with scoring criteria based on a weighted scale that included pricing, qualifications, and SBE participation as referenced in Section 2 of the Request For Proposal.

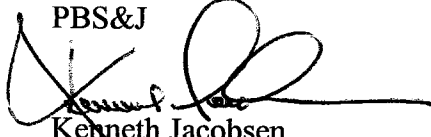

A six member Selection Committee met in public session at the Department of Airports main conference room on April 18, 2006. Following the procedures set forth in the RFP, the Selection Committee ranked the above firms in the following order:

1. ThyssenKrupp Airport Systems, Inc.
2. FMC Technologies
3. Dewbridge Airport Systems

Based on the aforementioned representations and attached evaluations of the Selection Committee, we recommend that the Palm Beach County Department of Airports accept the rankings of the Selection Committee and proceed to negotiate with the number 1 (one) ranked company, ThyssenKrupp Airport Systems, Inc. in efforts to secure a Agreement for the removal and replacement of passenger loading bridges and related equipment at Palm Beach International Airport per the terms and conditions of RFP 06-2.

Sincerely

PBS&J
