I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: a unit price contract with AKA Services, Inc. for the Water Utilities Department Continuing Construction Contract to install potable water, reclaimed water, and wastewater pipelines over a twelve month term in a cumulative amount not to exceed \$8,699,850.

Summary: On November 8, 2006, two (2) bids were received for the Water Utilities Department Continuing Construction Contract, from Foster Marine Contractors, Inc. in the amount of \$8,441,819 and AKA Services, Inc. in the amount of \$8,699,850. On December 19, 2006, the Board awarded a contract to Foster Marine Contractors, Inc. (R2006-2732). Staff recommends contract award to both bidders to provide sufficient opportunity to complete all work scheduled for the twelve month period. These contracts will be used to expedite utility special assessment projects and other pipeline projects where timing is critical. Contract award is for the base contract only, and the contract by itself does not guarantee nor authorize AKA Services to perform any work. Work will be assigned during the twelve month contract period by formal work authorizations drawn against this contract, with approvals pursuant to PPM CW-F-050. The unit prices contained in this Contract will be used in determining the cost of work authorizations. Supplements to work authorizations for changes that occur during construction will be subject to the change order limits for construction contracts as established under PPM CW-F-050 with each work authorization considered as an individual construction contract. The Small Business Enterprise (SBE) participation goal established by the SBE Ordinance (R2002-0064) is 15.00% overall. This contract with AKA Services, Inc. provides for SBE participation of 15.92% overall.

(WUD Project No. 06-144)

District 1, 2, 3, 5 and 6

(JM)

Background and Justification: Palm Beach County adopted Ordinance 2001-0010 to encourage the installation of utility pipelines in existing developed neighborhoods through the special assessment process. This program has been extremely successful to date. However, approximately 20,000 residential properties within the Department's service area still require the installation of pipelines to provide access to public potable water service. This continuing construction contract will reduce the time needed from receipt of citizen petitions to completion of the utility improvements.

RE: Notice of Award Recommendation (posting of second award to AKA Services, Inc. under the Water Utilities Department Continuing Construction Contract) Project No: WUD 06-144

The bid opening for the above referenced project was held on Wednesday, November 8, 2006. Proposals were received from two (2) contractors. A summary of the results of the 2 total bid prices follows:

BIDDER'S NAME	BID
Foster Marine Contractors, Inc.	\$8,441,819.00
AKA Services, Inc.	\$8,699,850.00

The engineer's opinion of probable construction cost was \$7,200,000. An evaluation of the bids follows:

1. The Bid Forms provided in the Contract Documents were properly executed.
2. Bid securities equal to 5% of the total bid were enclosed on the forms provided in the Contract Documents.

3. SBE-M/WBE Schedules #1 and #2 provided in the Contract Documents were properly filled out. The low bidder nearly met the 15% SBE goal established under the SBE Ordinance and the next higher bidder exceeded the 15% SBE goal. (A copy of the Office of Small Business Assistance SBE-M/WBE Compliance Review is attached.)
4. Both bidders acknowledged the two (2) addenda.
5. Both contractors hold valid general contractor and occupational licenses.

Water Utilities staff when evaluating the bid carefully considered the overall experience, qualifications, resources and references of the low bidders. A second contract award to AKA Services, Inc. (\$8,699,850.00) is recommended.

A copy of this notice has been posted at the bid opening location and will be left there for a minimum of five (5) business days.
