LAW ENFORCEMENT TRUST FUND DONATION

FINANCIAL APPLICATION – NARRATIVE

The Florida Sheriffs Youth Ranches will provide eighteen one-week sessions of Harmony in the Streets programming utilizing two six person teams during the period June through August 2007. Calculations assume 18 weeks of programming will be completed by two teams in a nine week period. This request totals \$129,096, the same amount as our original proposal dated January 18<sup>th</sup>, 2007, but some adjustments have been made in specific categories.

Below is a description of each cost category:

1. Salaries – Each team has a Senior Program Leader at an annualized salary of \$26,000 (\$500/week) and five team members at an annualized salary of \$12,000 (\$230/week). All employees are temporary salaried employees and are not paid overtime. See worksheet for exact calculations. These employees will be hired at a later date for this summer's programming; therefore specific names are not available at this time.
2. Employee Benefits/Payroll Taxes – Total salary expense is increased by 15.35% to reflect the Youth Ranches' share of FICA, 7.65%, and Workmen's Compensation insurance premiums, 7.70%.
3. Occupancy/Utilities – This expense category reflects housing expenses for two six-person teams. The teams stay at local hotels with a projected room cost of \$90 per room per night. Seven rooms are required each night; two rooms are required for Program Leaders, and five rooms are required for the balance of the teams (two persons per room). This expense category also includes school rental fees in the amount of \$3,600.00. See worksheet for exact calculations.
4. Postage/Shipping – Mailing costs related to administrative paperwork between field work and our central office. Example - Employee timesheets and expense reports.
5. Printing & Publications – Printing costs for programming materials. Example – Each youth is presented a personalized certificate upon program completion.
6. Supplies – This category reflects the following expense items; a T-shirt issued to each youth in program, various recreational supplies, paper products, and refreshments for youth provided at various times throughout a very busy day. See worksheet for specific amounts per category.
7. Travel – This expense category includes vehicle rental and gasoline expense for two vehicles for each team (one mini-van and one passenger car). It also includes an average daily per diem food allowance of \$25 (standard Youth Ranches per diem allowance for lunch and dinner) for each Youth Ranches employee. The teams will travel to training locations in the Palm Beach County local area to complete 18 weeks of Harmony in the Streets programming.

All cost estimates may vary significantly due to scheduling and actual facilities/materials utilized. Some expense categories in this request are based upon prior year requests.

Supplemental information received on February 23, 2007:

Reasons as to how the conference will contribute to safer neighborhoods:

The Palm Beach County Coalition for Children serves to promote the safety and well being of children and families in Palm Beach County through education, advocacy and collaboration. The upcoming conference, *Joining Hands: Engaging Families* is a 1 day conference with 24 available workshops over 4 sessions. Workshop titles include: teaching parents how to play with their families, recognizing when your child is depressed, understanding diverse family structures and appreciating diversity, learning about dating violence, partnering with the schools, and helping families cope with trauma and grief. All of these topics focus on the family and family involvement is a significant protective factor against children becoming involved in gangs, violence, alcohol/drug use, and teen pregnancy, which ultimately contributes to safer neighborhoods.

- By promoting family togetherness, families are more likely to work through their problems using conflict resolution techniques rather than violence.
- By understanding diversity, youth are more likely to see how they are similar rather than different, reducing gang violence.
- By helping families cope with loss and grief they are more likely to work through pain rather than react by using drugs and alcohol.
- By educating about the effects of teen pregnancy, youth are less likely to engage in unprotected premarital sex, therefore creating better health outcomes.

All of the topics discussed at the conference contribute to safer neighborhoods by educating professionals how to keep children on the right track by communicating with their parents, going to school, and building a better future for themselves.
