WITNESSETH:

WHEREAS, Grantor is the owner of certain property located in Palm Beach County, Florida located contiguous north of Okeechobee Boulevard consisting of 20.86 acres ± with an existing lake located on the northerly 16.6 acres ±. The exact legal description of the 20.86 acre parcel is attached hereto and incorporated herein as Exhibit "A" ("Fillmore Parcel"); and

WHEREAS, Palm Beach County is in the process of widening Okeechobee Boulevard from its present six-lane section to an eight-lane section and desires to utilize the Fillmore Parcel for storm water drainage and C-51 Basin compensating storage purposes associated with this road project; and

WHEREAS, Grantor has agreed to provide Grantee with a Drainage Easement over, upon, under, through and across the Fillmore Parcel in accordance with the provisions of this Drainage Easement for Grantee's subsequent assignment of the Drainage Easement to Palm Beach County.

NOW THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and other valuable consideration, the receipt and sufficiency of which is hereby acknowledged by the parties, the parties agree as follows:

1. Grant of Drainage Easement. made a part hereof as Exhibit "B" ("Drainage Easement 1"). The exact legal description of Drainage Easement 2 is attached hereto and made a part hereof as Exhibit "C" ("Drainage Easement 2").

Grantor reserves the right and privilege to use and occupy and to grant to others the right to use and occupy the Drainage Easement for any use which does not impair the purpose for which this Drainage Easement was granted. Grantor has granted this Easement to Grantee for the specific purpose and use as a storm water drainage facility and for C-51 Basin compensating storage purposes. Grantor specifically reserves the right to construct parking lots, lighting, landscaping, irrigation, fencing and other uses or facilities typically associated with an operation of a retail commercial use but not including above-the-ground building or structural improvements within the Drainage Easement 1 area. Grantor and Grantee understand and agree that Grantee has the right to install underground drainage pipes and that the inflow and outflow drainage pipes can be located within Drainage Easement 1. Grantor further reserves the right to utilize the Drainage Easement 2 area for both storm water drainage and compensating storage requirements associated with Grantor's development of the Fillmore Parcel, a contiguous eighteen (18) acre ± parcel known as the Oakton Commons Parcel and a contiguous five (5) acre ± parcel known as the Lassiter Parcel.

2. Grantor's Drainage and Flowage Obligations. Grantor is providing to Grantee a perpetual easement for water flowage and drainage rights. Grantor agrees to accommodate and maintain the following in its drainage facilities:

a). a design capacity of 6.62 cfs from the Grantee's facility during a 10 year, 3 day storm event or the design capacity as permitted by the SFWMD through the Permit Modifications of Permit Numbers 50-01686-S and 50-04151-P.

b). a design volume of 13.15 ac-ft. from the Grantee's facility for the required water quality volume or the required water quality volume as permitted by the SFWMD through the Permit Modifications of Permit Numbers 50-01686-S and 50-04151-P.

c). maintain the drainage facilities which receive the Grantee's runoff at a maximum tail water of 17.28 ft. NGVD for a 3 year, 1 day event and at 18.40 ft. NGVD for a 10 year, 3 day event. This is based on maintenance of the weir elevation at 18.50 ft. NGVD or as permitted by the SFWMD through the Permit Modifications of Permit Numbers 50-01686-S and 50-04151-P.

d). provide and maintain a capacity no less than that required by SFWMD through the Permit Modifications of Permit Numbers 50-01686-S and 50-04151-P.

The operation and maintenance of the drainage facilities, which receive the Grantee's runoff, will be the sole responsibility of the Grantor.

3. Design, Permit, Installation and Maintenance of the Drainage Easement. Grantee shall be responsible for all costs and expenses for the design, permitting and installation of Grantee's Drainage Facilities. The construction of Grantee's drainage facilities shall be in accordance with generally accepted engineering principles in accordance with the plans and specifications to be prepared by Grantee, at Grantee's sole cost and expense, and to be submitted to Grantor for review and comment relative to the use of concrete pipe and debris removal structures only by Grantor in accordance with generally accepted engineering practices and government regulatory requirements. Grantor shall provide such approval with requested revisions, if any, within thirty (30) days of receipt of such plans and specifications from Grantee. Grantor's approval of such plans and specifications shall not be unreasonably withheld. In the event the Grantor fails to maintain the drainage facilities or an emergency arises, the Grantee may, but is not obligated to, enter the easement area to perform any necessary maintenance work or repair the drainage facilities and charge the cost to the Grantor. Grantor agrees to Grantee's right to perform such activities and agrees to reimburse Grantee within thirty (30) days of receipt of an invoice for costs incurred. As circumstances permit, Grantee will provide Grantor advance notice prior to performing any such maintenance activities. It is understood that certain maintenance or repair may necessitate the disruption or removal of improvements or facilities within the easement area.
