(JM)

Background and Justification: On June 6, 2006, the Board approved a contract with TLC Diversified to construct the Century Village North Reclaimed Water Production Facility (R2006-1007). This reclaimed water main project will connect another significant user (700,000 gallons per day) of reclaimed water. The project is ready to proceed with construction. On March 13, 2007, the Board approved the Water Utilities Department Continuing Construction Contract with AKA Services, Inc. (R2007-0357). Construction of this Reclaimed Water Main via this Work Authorization will maximize the number of properties in the area that will receive reclaimed water from the County. This project has been submitted for Alternative Water Supply Grant Funding through South Florida Water Management District (SFWMD). The Department has requested SFWMD to fund forty percent of the cost of this project under its 2008 Program.
