Section 2: Project Overview

General Project Information

Project Title: WEST PALM BEACH COMMUNITY JUSTICE SERVICE CENTER (CJSC) TREATMENT PROGRAM

Project Sequence No: 1

Subgrant Recipient: Palm Beach County Board of Commissioners

Implementing Agency: Palm Beach County Criminal Justice Commission

Project Start Date: 10/1/2006 **End Date:** 9/30/2007

Problem Identification

This program is the first Florida Community Justice Service Center (CJSC) which was created in West Palm Beach in 1999, by a dedicated planning team, with the Criminal Justice Commission (CJC) as the lead agency. Purpose is to positively impact the WPB offenders by providing them substance abuse and alcohol treatment in order to stop the revolving door of committing nuisance crimes. This Project will assist with addressing non-violent misdemeanor crimes. More than 85% of the offenders who commit these crimes have a substance abuse problem. The sub-grant funds will assist with providing substance and alcohol abuse treatment. CJSC addresses quality of life misdemeanor crimes, which are influenced by the use of substance abuse. More than 70% of all defendants are referred for intensive assessment for substance and alcohol abuse. Addressing substance and alcohol use is an essential component to enhancing a person's life changes and opportunities. It is the many factors involved with a person's drug/alcohol problem that must be assessed and appropriately diagnosed and treated in order for change to occur. The number of drug related offenses addressed at the CJSC shows a distinct need for a Treatment Project. An on-site needs assessment and treatment readiness program and counseling service will be provided. Several interventions are recommended from the individual assessments. The service providers will provide services that range from detoxification, residential, half and three-quarter treatment facilities, to long term and out patient treatment.

Project Summary

Short term, to improve the quality of life perspective for offenders by maintaining social services and other treatment interventions on a daily basis. Long term, work closely with the WPB Police who target high-risk adults in the community. Services are provided on a daily basis for offenders. These services open the door to a systems approach to individuals and families in need; which will not only assist with drug/alcohol problems, but will assist the family as a whole, helping to alleviate an on going cycle of abuse/neglect, whether it is substance abuse and/or social service needs. Plan to continue the growth with in-house services on a regular basis. The service providers are non-profit organizations and service the population in need of addiction treatment. An established contractual relationship will be utilized to provide substance and alcohol treatment services for the Court population. services will include a modality of diverse treatments ranging from detoxification, residential, in patient and intensive out patient treatments. The recommendation to the level of treatment services is recommended by the CJSC's Licensed Social Worker after the initial screening. The service providers are required and agree to maintain insurance coverage. This includes Commercial General Liability, Business Automobile Liability, Workers Compensation Insurance & Employers Liability and Professional Liability. Service Providers provide Certificates of Insurance. When clients have completed their treatment modality, the CJSC provides a Narcotics/Alcohol Anonymous referral source to several local area meetings including those for Spanish speaking offenders. The implementation of acupuncture,

detoxification, and other healing activities is also available. The CJSC is a collaborative effort coordinated by the PBC Criminal Justice Commission, the City of West Palm Beach, the City of Palm Beach's Police Department, the 15th Judicial Circuit, the State Attorney and Public Defender's Offices and social/human resource agencies and criminal justice agencies. Collaborative partners include: Stephanie's Family Sober House, Responsible Fatherhood Initiative, and Comprehensive AIDS Program, to name a few. A Licensed Social Worker manages the social service delivery for the Center. She is responsible for establishing on-site, treatment readiness services and identifying resources. She continually evaluates service providers and builds a continuum of services. The Social Worker (SW) provides daily case management to assist the offenders throughout the process. SW oversees the on-site group therapy to help educate and develop trust with a high risk population that are resistant to accepting changes and alternatives. The project's services and activities will take place at 2107 Tamarind Avenue, WPB and will provide the necessary services needed by the neighborhood. This WPB area is designated as a Weed and Seed site which encompasses Flagler Dr. to the east, Australian Blvd. to the west, 59th St. to the north and Banyan Blvd. to the south. Offenders in need of drug/alcohol treatment usually require a psychosocial assessment, which is a clinical tool used to determine the needs of individuals and helps determine treatment recommendations in primary, secondary and tertiary stages. Therapeutic and educational groups on substance abuse problems and concerns, acupuncture, psychosocial assessments and referrals are provided on-site. These services are offered daily, Monday to Friday 8:00 am to 5:00 pm. Therapeutic groups average 90 minutes per group; psychosocial assessments and crisis interventions average 60 minutes per individual. Treatment phase(s) may last up to 3 months, acupuncture is ongoing and case management is provided for 3 months. Example of treatment; on-site drug/alcohol assessments, clinical interventions, mental health assessments, case management services, referrals to various treatment and modalities. The target group consists of offenders who reside in the Weed and Seed area, or who are homeless and maintain the area as their homeless status and are arrested for a misdemeanor crime in the designated area. These individuals are both male and female, 18 years or older with no barrier of age after 18. Offenders must exhibit physical, psychological, social, emotional problems or major concerns with substance abuse problems. Offenders are assessed and will receive substance abuse treatment as needed. Recommendations will be provided by the Social Worker. Family members, spouses, children, concerned significant others may be included upon the offender's request or suggestion of the SW or treatment professionals. Offenders are given a notice to appear for misdemeanor crimes, such as open container, solicitation to prostitution, drug related charges. Offenders will come to court and be evaluated at that time. Each offender in treatment is case managed by the SW at the Center. Success will be measured upon the completion of the treatment program that was assigned to his/her individual treatment sanction. This may include, but is not limited to intensive out-patient treatment, individual counseling, residential treatment, acupuncture groups, and NA/AA meetings. The Social Worker is case manager for the offender's treatment. Success will be measured when offenders complete their required days in treatment as agreed by the SW, treatment team and client. All successes will be reported to the Center. Offenders who do not successfully complete their agreed sanction for treatment will be reported by the SW to the Court. Incentives imposed by the Court are that once successful completion is confirmed, the case is dismissed and there are no imposed court costs. Treatment success rates are measured by individual treatment plan completions.

General Project Information

Project Title: PALM BEACH COUNTY DRUG COURT PROGRAM

Problem Identification

Local drug overdoses, drug use and drug activity in Palm Beach County is a legitimate concern. The Florida Drug Control Strategy 1999-2005, Office of Drug Control, Executive Office of the Governor, State of Florida, utilizing data from the Florida Department of Children and Families Substance Abuse Programs Office, estimates that Florida's rate of drug use is approximately 25 percent (25%) higher than the national average. Cocaine related deaths are rising at a steady pace, over 65 percent (65%) in the last six years. The heroine death rate has risen over 50 percent (50%) in the past year alone, and many experts believe that not all of the heroin-induced deaths are being captured in statistics. To add to an ever increasing problem, new drugs are consistently being illegally manufactured and distributed.

The Palm Beach County Sheriff's Office reports an average of 87.5 inmates housed in the County jail on any given day in 2003, for drug charges (includes sales and possessions, not including drug-related arrests). To further demonstrate the growing urgency, the Medical Examiners office reports 421 drug overdoses in Palm Beach County from January 1st 2002 to May 5th 2004. The financial burden reaches the entire community. The estimated taxpayer cost to incarcerate the average offender in the Palm Beach County Jail is \$87.00 per day. The average cost for a Drug Court graduate is approximately \$1,900 annually or \$5.28 per day.

This project will divert drug-addicted individuals from incarceration and endeavor to make them productive members of society while gradually minimizing criminal justice involvement. The Drug Court will impact the community by reducing incarceration costs, reducing the recidivism rate and increasing jail space for more serious offenders. In coordination with a drug court judge, the drug court staff utilizes criminal justice partnerships to assist the defendant with supportive social services including, employment, educational/vocational, and transportation.

Funding for treatment services is necessary in order to continue the program in its current design. Currently there is an average of 250 participants in the program. Without this funding, many individuals, who would otherwise be qualified, would not be offered the benefits of Drug Court. Without the benefits of treatment, these offenders will most likely contribute further to the perpetual "revolving door" in our system.

Project Summary

Project Goals:

The Drug Court will provide approximately 100 offenders outpatient individual and group substance abuse counseling, and drug testing. Thereby continuing to reduce the impact of repeat drug offenders on the criminal justice system, and increasing jail space for more serious offenders.

Treatment and Prevention Project:

The Drug Court contracts with three treatment providers. The Drug Abuse Foundation is

located in Delray Beach and West Palm Beach. Comprehensive Alcohol Rehabilitation Program is located in West Palm Beach, Lake Worth and Belle Glade. Family Health Counseling Center is located in West Palm Beach. Since 1991, they have been a part of the consortium for the Sheriff's Substance Abuse Awareness Program (SAAP). These not-for profit agencies providing services to Drug Court are licensed and certified in accordance with the State of Florida licensure standards of Palm Beach County.

Cooperating and Participating Agencies:

Judge Bollinger was assigned to be the Drug Court Judge in January 2005. The Sheriff's Office provides our program with an assessor and treatment liaison. The assessor's primary role is to make treatment recommendations to the Team. The treatment liaison assures delivery of quality treatment. The Dept. of Corrections provides two officers to supervise clients. The officers ensure client compliance with court orders. The Asst. State Attorney assigned to our division determines client eligibility. The Asst. Public Defender assists with the initial screening and councils participants. These partnerships have been in place since 2000.

Project Staff:

The Drug Court program office is staffed by a state funded Coordinator, a state funded Administrative Assistant, and a county funded Secretary and two Court Program Specialists. The program office staff conducts screenings, interviews, orientations, case management and data entry.

Project Location: The Palm Beach County Drug Court will serve the citizens of the 15th Judicial Circuit. All Drug Court hearings will be held at the Gun Club Criminal Justice Complex in West Palm Beach. Referrals for treatment will be made by considering the participant's home or work address, to insure the client's convenience to meet all treatment responsibilities.

Project Summary:

The Drug Court Program is a judicially supervised, multi-phase, comprehensive treatment program lasting for a minimum of one year, depending on individual progress. Each phase consists of specified requirements for advancement into the next phase. After the initial application, the applicant has a bio-psycho-social assessment performed within seven days. This assessment determines the appropriate entrance phase. All participants, regardless of starting phase, are required to attend AA/NA meetings, drug testing, reports to probation, and regular court meetings. Phase specific requirements are as follows: Phase I - Three group sessions per week, three individual sessions per month. Phase II - Two group sessions per week, two individual sessions per month. Phase III - One group session per week, one individual session per month. Phase IV - Aftercare consists of continuing with monthly individual counseling sessions. Drug Education participants receive twelve weeks of education classes.

Target Population:

The target population is adult male and female, non-violent felony level offenders. The candidate must be charged with one of the following charges: possession of a controlled substance, attempted purchase of a controlled substance, or obtaining a controlled substance by fraud. No other pending felony charges, no prior violent felony convictions, and no domestic battery convictions are allowed.

Project Results:

The Drug Court's program office collects and analyzes data, targets problematic areas and provides recommendations for improvement to the Drug Court team. Other goals are measured by comparing our monthly statistics with the national standard.

A "Table of Sanctions" based on specific sanctions for a specific behavior was written, to insure that sanctions are applied in a fair and consistent manner. Examples of incentives: gift certificates to local retail stores and "Short List" wherein participants are recognized for accomplishments. Example of court sanctions include increased drug testing, writing

an essay, short detention sentences, return to a prior treatment phase, residential treatment and possible termination from program. If the offender successfully meets all program criteria, the charge will be dismissed.

The 10 key elements outlined in the program guidelines were instrumental in the planning of our program and are visible in our operational goals and objectives.

- b. For any of a subgrantee's existing programs or activities that will be funded by these subgrants, the subgrantee, upon specific request from the Department and the U.S. Department of Justice, agrees to cooperate with DOJ in any preparation by DOJ of a national or program environmental assessment of that funded program or activity.

37. Non-Procurement, Debarment and Suspension

The subgrant recipient agrees to comply with Executive Order 12549, Debarment and Suspension (34 CFR, Part 85, Section 85.510, Participant's Responsibilities). - (3) The undersigned shall require that the language of this certification be included in award documents for all subgrant awards at all tiers and that all subgrant recipients shall certify and disclose accordingly.

39. State Restrictions on Lobbying

In addition to the provisions contained in Item 39, above, the expenditure of funds for the purpose of lobbying the legislature or a state agency is prohibited under this contract.

40. Additional Restrictions on Lobbying

Recipient understands and agrees that it cannot use any federal funds, either directly or indirectly, in support of the enactment, repeal, modification or adoption of any law, regulation or policy, at any level of government, without the express prior written approval of OJP.

41. "Pay -to-Stay"

Funds from this award may not be used to operate a "pay-to-stay" program in any local jail. Furthermore, no funds may be given to local jails that operate "pay-to-stay" programs. "Local jail", as referenced in this condition, means an adult facility or detention center owned and/or operated by city, county, or municipality. It does not include juvenile detention centers. "Pay-to-stay" programs as referenced in this condition, means a program by which extraordinary services, amenities and/or accommodations, not otherwise available to the general inmate population, may be provided, based upon an offender's apparent ability to pay, such that disparate conditions of confinement are created for the same or similar offenders within a jurisdiction.

42. Mitigation of Health, Safety and Environmental risks dealing with Clandestine Methamphetamine Laboratories

- a. In so doing, the subgrantee understands that it may implement these protective measures directly through the use of its own resources and staff or may secure the qualified services of other agencies, contractor or other qualified third party.

- (7) Monitor the transport, disposal, and recycling components of subparagraphs 5. and 6. immediately above in order to ensure proper compliance;
- (8) Have in place and implement an inter-agency agreement or other form of commitment with a responsible State environmental agency that provides for that agency's (i) timely evaluation of the environmental conditions at and around the site of a closed clandestine laboratory and (ii) coordination with the responsible party, property owner, or others to ensure that any residual contamination is remediated, if necessary, and in accordance with existing State and Federal requirements; and
- (9) Included among the personnel involved in seizing of clandestine methamphetamine laboratories, or have immediate access to, qualified personnel who can respond to the potential health needs of any offender(s)' children or other children present or living at the seized laboratory site. Response actions should include, at a minimum and as necessary, taking children into protective custody, immediately testing them for methamphetamine toxicity, and arranging for any necessary follow-up medical tests, examinations or health care.

Section 2: Project Overview

General Project Information

Project Title: FORENSIC ACCOUNTANT 4
Project Sequence No: 1
Subgrant Recipient: Palm Beach County Board of Commissioners
Implementing Agency: State Attorney's Office, 15th judicial Circuit
Project Start Date: 10/1/2006 **End Date:** 9/30/2007

Problem Identification

Problem Description: The project attacks money laundering in Palm Beach County, extends to the remainder of Florida, the United States and has foreign linkages. In the fall of 2000 the Palm Beach County State Attorney's Office (SAO) was selected as one of nine sites that received Financial Crime-Free Community Support Program (C-FIC) funds. Because of that support the MLTF (Money Laundering Task Force) was formed and staffed by local law enforcement. The MLTF became fully operational, worked cooperatively with numerous agencies to investigate, file and prosecute money laundering cases.

Problem Significance: The Financial Crimes Enforcement Network publishes suspicious activity reports (SARs) filings nationwide, including state-by-state breakdowns by violation types. Florida ranks third among all states in the number of SARs filed with 89,413 reports submitted from April 1996 through June 2004. In the first five months of 2004, Florida ranked fourth in total SARs, replaced in third place by Texas and trailing California and New York. More recent statistics for Palm Beach County showed that in 2004, the county reported 23,355 CTRs and 1,590 SARs. From the first of January 2005 through May 1st 2005, Palm Beach County reported 23,355 CTRs (Currency Transaction Report) and 324 SARs.

The main criminal violation categories reported in SAR filings are BSA/Structuring, check fraud, counterfeit checks, mortgage loan fraud, and others, including violations of the Bank Secrecy Act and structuring of transactions to avoid currency reporting requirements. Also, residential real estate purchases involving the collusion of state licensed mortgage brokers has been identified as a popular integration technique in Palm Beach County.

These financial indicators indicate that while law enforcement has had significant success investigating financial crimes like money laundering, there is still an exorbitant amount of financial activity being conducted in South Florida, including Palm Beach County. Some of these financial transactions, which amount to billions of dollars, obviously result from lucrative narcotics activities. The investigation of the sources of these funds will continue to pose a challenge for Palm Beach County and its MLTF.

The Need: This project provides the MLTF a Forensic Accountant, a person who possesses specialized training in document recognition, data analysis and evaluation of financial records related to the investigation and prosecution of money laundering cases as well as identification of seizable assets. This person trains and at the same time provides support to the MLTF; she also works closely with the county's financial community regarding SARs reporting. Valuable SAR information must be received on a timely basis in order to identify incoming and outgoing cash transfers that may be associated with criminal and/or terrorist activities. There is an abundance of various types of financial data available that can be mined by the project, including data available from local, state and federal sources and the Forensic Accountant generated by this project is the key project member responsible for providing that information to MLTF personnel.

Cooperating and Participating Agencies/Task Force Agreements

The SAO houses and administers a county-wide Money Laundering Task Force (MLTF), staffed by personnel from the following agencies: Bureau of Immigration and Customs Enforcement, Palm Beach County Sheriff's Office, Boynton Beach Police Department, Lantana Police Department, West Palm Beach Police Department, Boca Raton Police Department, Jupiter Island Police Department and the Palm Beach Police Department. All of these agencies have MOUs in place regarding their participation in the MLTF. These are the agencies that provide the personnel who benefit from the services provided by the project's Forensic Accountant.

Project Staff: The project supports a Forensic Accountant, Paige Turek. She works with personnel drawn from numerous agencies which are listed above. These include local law enforcement, the state-wide Money Laundering Task Force as well as personnel drawn from federal agencies. As shown in the budget section and the narrative section, Paige Turek is the Forensic Accountant funded by this project; she is full time agency personnel and her salary is provided by this project.

Forensic Accountant Turek's work responsibilities begin with the need to understand how the MLTF works and its primary work tasks. Briefly, this work process is as follows: 1) cases are referred by federal, state or local law enforcement agencies or based on leads provided by other sources like HIDTA or the State-wide Money Laundering Task Force; 2) cases are also based on information provided by confidential informants, SARs from financial institutions or programs supported by agencies like the Treasury Department; and 3) cases are generated directly through interdiction operations at airports or marine facilities or certain Task Force operations like Blue Lightning Strike Force.

The Forensic Accountant's investigative methodologies include a range of multifaceted law enforcement techniques and tasks. The use of financial data and documents are of special interest here, particularly the use of data and certain investigative support centers. In order to achieve the MLTF's financial/seizure related objectives, the Forensic Accountant conducts the following activities: 1) organizes staff, supervises and coordinates the multi-jurisdictional investigations, provides liaison with the federal and

state prosecutions, participates in information sharing with other agencies, and shares intelligence with the other Florida Investigative Support Center as needed; 2) conducts analysis of information and evidence obtained from historical seizures/forfeitures in order to show relationships to other conspirators involved in historical and ongoing criminal activity; 3) researches and reviews various databases and sources of financial information to include SARs, CRTs, 8300s, CMIRs, etc.; 4) follows the money trail to fully identify drug trafficking organizations or related criminal enterprises and their money laundering components; the result will be the successful arrest and prosecution of the top level members of drug trafficking organizations or related criminal enterprises; 5) identifies, locates and assists in the forfeit of assets owned and controlled by drug trafficking organizations or related criminal enterprises; 6) where appropriate, utilizes Title 3 wire intercepts; 7) continues to develop sufficient evidence to prosecute identified members of drug trafficking organizations or related criminal enterprises and money laundering organizations; 8) continues to fully identify illegal organizations and their unknown members in order to criminally prosecute them; 9) continues to disrupt and interdict the flow of narcotics proceeds from the US to Colombia and other foreign countries; 10) seeks to penetrate drug trafficking organizations, related criminal enterprises or illegal organizations to identify other methods and schemes being utilized to launder narcotics proceeds; 11) attempts to identify individuals involved in the laundering of narco-dollars for merchandise that is exported to Central and South America; 12) continues to attempt to identify individuals/organizations that are involved in the pickup of currency that is derived from drug trafficking organizations or related criminal enterprises that launder money through the use of various means (i.e. wire transfers, deposits into financial accounts, etc.); 13) continues to attempt to seize currency and bank accounts that have been identified as the proceeds of unlawful activity; 14) continues to identify persons and/or businesses that appear to launder narcotics proceeds utilizing the Colombian Black Market Peso Exchange system; 15) continues to identify persons owning or operating businesses that appear to fail to the currency reporting forms pursuant to Title 26 and Title 31 of the United States Code; and 16) continues to attempt to identify persons owning or operating businesses as part of a defined or loosely structured international narcotics or money laundering organizations.

How the Forensic Accountant will Address MLTF Objectives, Work Tasks and Short and Long Term Objectives: The short term and long term objectives addressed by the Forensic Accountant revolve around the requirement to provide extended and expanded expertise and technical assistance to the MLTF in terms of its financial investigative and analytical skills. Forensic Accountant Turek is housed with the MLTF at the SAO's main office where she has become fully integrated into the MLTF operation and her skills and expertise have made a major impact on the MLTF.

Specific areas to be addressed by Forensic Accountant Turek this project year include the need to improve target analysis, to increase and enhance the scope of the examination of financial networks and institutions, to more fully use existing data bases, especially the Treasure Department resources related to the use of SARs submitted by local financial institutions and to improve MLTF asset seizure and forfeiture procedures. Also, the Forensic Accountant is responsible to make sure the MLTF works more closely with a number of agencies, including local law enforcement and federal units, particularly those concerned with areas like intelligence, organized white collar and economic crime as well as drugs, smuggling and terrorism. The Forensic Accountant previously worked for HIDTA and is well suited for that role. This responsibility also includes liaison with local financial institutions, especially those that strive to attack money laundering operations.

Project Results: The project will be assessed based on the degree to which it attains its quantitative objectives.

30. Overtime for Law Enforcement Personnel

Prior to obligating funds from this award to support overtime by law enforcement officers, the U.S. Department of Justice encourages consultation with all allied components of the criminal justice system in the affected jurisdiction. The purpose of this consultation is to anticipate and plan for systemic impacts such as increased court dockets and the need for detention space.

31. Criminal Intelligence System

- a. The purpose of the federal regulation published in 28 CFR Part 23 - Criminal Intelligence Systems Operating Policies is to assure that subgrant recipients of federal funds for the principal purpose of operating a criminal intelligence system under the Omnibus Crime Control and Safe Streets Act of 1968, 42 U.S.C. 3701, et seq., as amended, use those funds in conformance with the privacy and constitutional rights of individuals.
- b. The subgrant recipient and a criminal justice agency that is the implementing agency agree to certify that they operate a criminal intelligence system in accordance with Sections 802(a) and 818(c) of the Omnibus Crime Control and Safe Streets Act of 1968, as amended and comply with criteria as set forth in 28 CFR Part 23 - Criminal Intelligence Systems Operating Policies and in the Bureau of Justice Assistance's Formula Grant Program Guidance. Submission of this certification is a prerequisite to entering into this agreement.
- c. This certification is a material representation of fact upon which reliance was placed when this agreement was made. If the subgrant recipient or criminal justice agency operates a criminal intelligence system and does not meet Act and federal regulation criteria, they must indicate when they plan to come into compliance. Federal law requires a subgrant-funded criminal intelligence system project to be in compliance with the Act and federal regulation prior to the award of federal funds. The subgrant recipient is responsible for the continued adherence to the regulation governing the operation of the system or faces the loss of federal funds. The Department's approval of the subgrant recipient agreement does not constitute approval of the subgrant-funded development or operation of a criminal intelligence system.

32. Confidential Funds

A signed certification that the project director or the head of the Implementing Agency has read, understands, and agrees to abide by all of the conditions for confidential funds as set forth in the effective edition of OJP's Financial Guide is required from all projects that are involved with confidential funds from either Federal or matching funds. The signed certification must be submitted at the time of grant application.

33. Equal Employment Opportunity (EEO)

- a. No person, on the grounds of race, creed, color or national origin shall be excluded from participation in, be refused benefits of, or otherwise subjected to discrimination under grants awarded pursuant to Title VI of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973, as amended; Title IX of the Education Amendments of 1972; The Age Discrimination Act of 1975; and, Department of Justice Non-Discrimination Regulations 28 CFR Part 42, Subparts C, D, E, F, G and H.
- b. The subgrant recipient and the implementing agency agree to certify that they either do or do not meet EEO program criteria as set forth in Section 501 of The Federal Omnibus Crime Control and Safe Streets Act of 1968, as amended and that they have or have not formulated, implemented and maintained a current EEO Program. Submission of this certification is a prerequisite to entering into this agreement. This certification is a material representation of fact upon which reliance was placed when this agreement was made. If the subgrant recipient or implementing agency meet Act criteria but have not formulated, implemented and maintained such a current written EEO Program, they have 120 days after the date this agreement was made to comply with the Act or face loss of federal funds subject to the sanctions in the Justice System Improvement Act of 1979, Pub. L. 96-157, 42 U.S.C. 3701, et seq. (Reference Section 803 (a) of the Act, 42 U.S.C. 3783 (a) and 28 CFR Section 42.207 Compliance Information).
- c. Any subgrant recipient or implementing agency receiving a single grant award for \$500,000 or more OR an aggregate of grant awards for \$1,000,000 or more during any 18 month period in federal funds, must have approval of its EEO Plan by the U.S. DOJ, Office for Civil Rights (OCR). The subgrantee shall submit its EEO Plan to FDLE, for submittal to the U.S. DOJ, OCR for approval. The submission shall be in both paper copy and electronic format. If the U.S. DOJ, OCR has approved an agency's EEO Plan during the two previous years, it is not necessary to submit another EEO Plan. Instead, the subgrantee need only send a copy of its approval letter from the OCR. However, if the EEO Plan approval is more than two years old, an updated Plan must be submitted.
- d. In the event a Federal or State court of Federal or State administrative agency makes a finding of discrimination after a due process hearing on the grounds of race, color, religion, national origin, sex, or disability against a recipient of funds, the recipient will forward a copy of the finding to the Office for Civil Rights, Office of Justice Programs.

34. Americans with Disabilities Act

Subgrantees must comply with the requirements of the Americans with Disabilities Act (ADA), Public Law 101-336, which prohibits discrimination by public and private entities on the basis of disability and requires certain accommodations be made with regard to employment (Title I), state and local government services and transportation (Title II), public accommodations (Title III), and telecommunications (Title IV).

35. Immigration and Nationality Act

No public funds will intentionally be awarded to any contractor who knowingly employs unauthorized alien workers, constituting a violation of the employment provisions contained in 8 U.S.C. Section 1324a(e), Section 274A(e) of the Immigration and Nationality Act ("INA"). The Department shall consider the employment by any contractor of unauthorized aliens a violation of Section 274A(e) of the INA. Such violation by the subgrant recipient of the employment provisions contained in Section 274A(e) of the INA shall be grounds for unilateral cancellation of this contract by the Department.

 - (4) Implementation of a new program involving the use of chemicals other than chemicals that are (a) purchased as an incidental component of a funded activity and (b) traditionally used, for example, in office, household, recreational, or educational environments.
- b. For any of a subgrantee's existing programs or activities that will be funded by these subgrants, the subgrantee, upon specific request from the Department and the U.S. Department of Justice, agrees to cooperate with DOJ in any preparation by DOJ of a national or program environmental assessment of that funded program or activity.

37. Non-Procurement, Debarment and Suspension

The subgrant recipient agrees to comply with Executive Order 12549, Debarment and Suspension (34 CFR, Part 85, Section 85.510, Participant's Responsibilities). These procedures require the subgrant recipient to certify it shall not enter into any lower tiered covered transaction with a person who is debarred, suspended, declared ineligible or is voluntarily excluded from participating in this covered transaction, unless authorized by the Department.

38. Federal Restrictions on Lobbying

Each subgrant recipient agrees to comply with 28 CFR Part 69, "New Restrictions on Lobbying" and shall file the most current edition of the Certification And Disclosure Form, if applicable, with each submission that initiates consideration of such subgrant recipient for award of federal contract, grant, or cooperative agreement of \$100,000 or more; or federal loan of \$150,000 or more.
- b. This certification is a material representation of fact upon which reliance was placed when this agreement was made. Submission of this certification is a prerequisite to entering into this agreement subject to conditions and penalties imposed by Section 1352, Title 31, United States Code. Any person who fails to file the required certification is subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each failure to file.

- a. Section 2: Project Overview

General Project Information

Project Title: DOMESTIC VIOLENCE
Project Sequence No: 1
Subgrant Recipient: Palm Beach County Board of Commissioners
Implementing Agency: Palm Beach County Sheriff's Office
Project Start Date: 10/1/2006 **End Date:** 9/30/2007

Problem Identification

Domestic Violence continues to be a major epidemic facing our national, state, and local communities. The most current national studies on domestic violence, according to the Florida Coalition Against Domestic Violence, suggest that anywhere from 22-25% of all women experience domestic violence at some point during their lives. Although the crimes of domestic violence often go unreported, the number of reported domestic violence rates are staggering.

The Palm Beach County Sheriff's Office is committed to the service and protection of our citizens. To this end, we have implemented three major components in our effort to address the domestic violence crisis. Firstly, we have developed a Domestic Abuse Response Team (DART). Secondly, we have developed the Domestic Abuse Volunteer Program. Thirdly, we utilize the Domestic Abuse Internet Information Network (DAIIN) Project. We are requesting grant funds to support the continued employment of our Domestic Violence Unit Detective, an integral member of our Domestic Violence Unit.

Project Summary

The Palm Beach County Sheriff's Office would like to continue the employment of our Domestic Violence Detective. This detective is responsible for the coordination, training, and administration of the DART program. During the course of this grant, we expect that this detective will train additional officers in the DART program, expanding our current unit. This detective will be responsible for coordinating and administering all DART program activities, ensuring that all DART trained officers can accurately investigate incidents of Domestic Violence and that all equipment assigned to the DART officers, including computers for the DAIIN access, are properly functioning. As these additional deputies are trained, they will be able to enter the evidence they have collected while at the scene or, at the latest, by the end of their shift. Each district is currently equipped for these entries.

This detective is also responsible for monitoring entries made through the DAIIN program and to follow up on related evidence regarding the investigations. Additional evidence entered into the secured internet site may include a lethality assessment, 911 taped calls, witness statements, previous incidents related to the batterer and/or the victim, and any other pertinent information to the investigation. This detective is also responsible for coordinating the training with outside municipalities who wish to participate in the DAIIN program, allowing access to this secure internet site to more service providers, county-wide.

The detective is housed at the Palm Beach County Sheriff's Office Domestic Violence Unit, which currently consists of a commander, a supervisor, one detective, two advocates, and DART trained road patrol deputies. One of the short-term goals of this project is to increase the overall number of DART trained deputies. The long term goal of this program is to increase the successful apprehension of perpetrators, facilitate an

Improvement in the prosecution of domestic violence crimes via increasing access to pertinent data by all related service providers, and to promote the safety of our victim citizens by providing community referrals to victims through our DART trained officers and victim advocates.

Project success will be measured by the number of officers trained in the DART program, the ratio of domestic violence cases investigated versus the number of cases whereby pertinent investigation information was entered into the DAIIIN project, and by the number of cases whereby the DAIIIN project was accessed for the purpose of prosecution, first appearance matters, and community service advocacy/service provision. Referrals to community resources will also be monitored.

Section 2: Project Overview

General Project Information

Project Title: WESTGATE COMMUNITY JUSTICE SERVICE CENTER
TREATMENT PROJECT

Project Sequence No: 1

Subgrant Recipient: Palm Beach County Board of Commissioners

Implementing Agency: Palm Beach County Sheriff's Office

Project Start Date: 10/1/2006 **End Date:** 9/30/2007

Problem Identification

More than 85% of the offenders served by this project who have committed non-violent, misdemeanor crimes have a substance abuse problem. The purpose of this project is to assist persons who commit non-violent, misdemeanor crimes with substance abuse and alcohol related treatment in an effort to address possible underlying reasons for the commission of their crimes, which could ultimately reduce the number of non-violent, misdemeanor crimes.

Project Summary

The Westgate Community Justice Service Center Treatment Project aims to improve the quality of life for offenders by providing social services and treatment interventions on a daily basis. The program is staffed with a licensed family therapist, who manages the daily social service and treatment delivery of this center. The therapist is responsible for establishing on-site, treatment readiness services and identifying resources which could benefit the participants. The therapist provides daily case management to assist the offenders throughout the process. This therapist also oversees the on-site group therapy which aims to educate and develop trust with a high risk population that is typically resistant to accepting change and alternatives.

The project's services and activities will take place in the "Westgate" community, which is a high crime, high substance abuse area. Therapeutic and educational groups on substance abuse problems and concerns, acupuncture, psycho-social assessments, and referrals are provided on-site. These services are offered daily, Monday to Friday, from 8AM to 5PM. Therapeutic groups average 90 minutes per day group, psychosocial assessments average 60 minutes per session. Treatment phases may last up to 3 months, acupuncture is ongoing, and case management is provided for 3 months. Examples of treatment provided include: on-site drug/alcohol assessments, clinical interventions, mental health assessments, case management services, and referrals to various treatment providers and community resources.

The target group consists of offenders who reside in the neighboring community and are arrested for a misdemeanor crime in the designated area. These individuals are both male and female, eighteen years or older and who exhibit physical, psychological, social, emotional, and/or spiritual problems or major concerns with substance abuse problems. Offenders are assessed and receive, as needed, substance abuse treatment.

Recommendations for services are provided by the licensed family therapist. Success will be measured by the completion of the treatment program that was designed for each offender. This treatment may include out-patient treatment, individual counseling, residential treatment, acupuncture groups, NA/AA meetings. The licensed family therapist also acts as case manager for each offender and follows the progress of treatment of each offender. Treatment success rates are measured by individual
