Dear Harry:

Enclosed you will find an Authorization and Request for Settlement above \$50,000.00. We were able to get the Claimant and her attorney to agree to a total settlement of \$125,000.00. This settlement was reached as the result of negotiations that went back and forth between Attorney Masnikoff and myself. As discussed at the last County meeting, everyone felt that if we could get this case settled for \$125,000.00, it would be an excellent settlement because there is a strong possibility that the Claimant will be rendered PTD. I base this on the fact that Dr. Fishbane has put severe limitations and restrictions on the Claimant. Essentially, he has indicated that the Claimant can only work 20 hours per week and that she can only lift up to 15 lbs. Furthermore, there is significant limitations on her ability to bend and perform overhead work and below table heights because of her bilateral knee problems. Furthermore, the Claimant is 60 years of age.

It is important to note that the PV of PT and supps amounts to \$291,859.48 using a 6% discount factor. Thus, we have a significant exposure to future indemnity benefits based upon the potential PTD claim. We also have a very significant exposure from a medical standpoint since the Claimant continues to treat with Dr. Fishbane, who is prescribing various medication. Furthermore, Dr. Fishbane has indicated that the Claimant needs bilateral total knee replacements. These procedures will cost at least \$25,000.00 each by the time you take post surgical attendant care, physical therapy and the cost of the procedures into account. He also indicated that the Claimant will probably benefit from lumbar facet blocks and occasional epidural steroid injections in her cervical spine. Thus, the Claimant would have required invasive medical procedures and medication management for the rest of her life. We have expended in excess of \$13,000.00 in medical benefits on this claim, which is only 1½ years old. The Claimant has a 21.3 year life expectancy and thus based upon an average yearly cost in the amount of \$8,210.52, we had a total exposure to future medical benefits in the amount of \$174,884.08 over the Claimant's life expectancy.

Under all the circumstances, I feel that this is an excellent settlement since we are essentially settling this case for a fraction of our total exposure to future indemnity and medical benefits.

Please submit the enclosed form to the Board of County Commissioners so that they can review this request at their next meeting and let me know whether they are willing to approve the settlement.

Thank you for your assistance in this matter.

Very truly yours,
