Re:

July 8th Pre-Workshop Budget Submittal

Attached is a list of potential budget cuts and revenue enhancements identified by staff for consideration in achieving the additional budget reductions needed to balance the FY 2009 budget at the current millage rate of 3.7811. Following the budget workshop on June 18, 2008, we advised the board that an additional \$47 million in budget reductions would be needed to maintain the current millage rate. As a result of preliminary property values received from the Property Appraiser on July 1, 2008, as well as updated revenue and expenditure projections, the revised reduction amount is approximately \$37 million.

The County Administrator's recommendations on Page 1 of the list reflect Board direction from June 18, 2008, including a further reduction to reserves of \$15 million. The remainder of the list contains elements from many programs and services from County departments. I believe that every item on the list is a potential cut. In identifying the potential cuts, we were careful to avoid programs or services that are legally mandated or that are critical to the protection of public health and safety.

The proposal to consider delaying the jail created much debate in the justice community. The Sheriff and Judiciary suggested using impact fees currently allocated for a central County substation and jury room improvements in lieu of a delay. I concur with this approach which allows the jail expansion project to move forward as planned while temporarily delaying the substation and jury room improvements.

On Pages 2-4 (Additional Areas for Board Consideration/Direction) you will find additional potential reductions and revenue enhancements. At least \$3.2 million of these items or alternative cuts must be ultimately selected to balance the budget, assuming all items identified on Page 1 are accepted. I urge the Board to consider additional cuts and revenue enhancements above this amount to reduce the \$15 million impact on reserves. This will allow additional flexibility as we prepare for the FY 2010 budget cycle.

I am scheduling a special pre-workshop to discuss this list during the July 8, 2008, regular BCC meeting. The purpose of this pre-workshop will be to determine which of the items on this list will be moved forward to the July 14, 2008, budget workshop for further consideration and public comment, and to give the Board the opportunity to add any items to the list.

Additionally included in this packet is a budget summary comparison reflecting the net ad valorem budgets for FY 08 and proposed FY 09 as of the June 18, 2008, budget workshop.

Staff continues to be dedicated to working with you to achieve the best result possible for the well-being of the public at large.
