

Agenda Item #

PALM BEACH COUNTY
BOARD OF COUNTY COMMISSIONERS

6-E-1

AGENDA ITEM SUMMARY

Meeting Date: January 12, 2010 | : Consent ☒ Regular
[] Workshop [] Public Hearing
Department:
Submitted By: Engineering & Public Works
Submitted For: Roadway Production Division

I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to deny: A request from the Village of Royal Palm Beach (Village) to permit the Village to construct an extension of the berm across the Madrid Street connection along Palm Beach County's State Road 7 (SR 7) Extension and to remove the paving and drainage improvements related to this connection.

SUMMARY: Denial of this permit request would prohibit the Village from removing any improvements related to the Madrid Street connection at SR 7 Extension and would not allow the Village to construct a berm across this connection within the SR7 Extension right of way.

Districts 2 & 6 (MRE)

Background and Justification: During the SR 7 Extension design process, the Village and Palm Beach County (County) worked together to resolve issues that mutually benefitted the roadway extension project, some of which are memorialized in an Interlocal Agreement. In addition, the Village staff requested, and the County consented to include a roadway connection at Madrid Street. Construction of the SR 7 Extension was completed and opened to the public on April 8, 2009. The Village has since decided not to proceed with the Madrid Street connection. The County has paid approximately \$114,000 to construct the improvements associated with this connection (exclusive of design and staff costs).

The Village is now requesting a permit from the County to remove the improvements related to the Madrid Street connection and to construct a berm extension across the connection within the County's right-of-way. Denial of the permit would prohibit the Village from such action; however, the actual decision to connect Madrid Street to the SR 7 Extension ultimately rests with the Village. The Village may still choose to do work within the Village limits to make more physical changes to control the access.
