I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: Amendment No. 002 to an Agreement (R2010-1123) with Westgate/ Belvedere Homes Community Redevelopment Agency, to extend the expiration date from March 31, 2011, to September 30, 2011.

Summary: This Amendment provides an extension of six (6) months to the term of the existing Agreement for the reconstruction of the Cherry Road bridge in the Westgate/Belvedere Homes area. There have been project delays caused by the need for deactivation of overhead electrical lines during construction. This extension request is necessary to provide them sufficient time to perform the work. **These are Federal Community Development Block Grant Program funds that do not require a local match. District 2 (TKF)**

Background and Justification: The County entered into an Agreement with Westgate/Belvedere Homes Community Redevelopment Agency on March 18, 2010, (R2010-1123), and amended on September 14, 2010, (R2010-1410), allocating \$700,000 of Community Development Block Grant-Recovery (CDBG-R) Program funds. The Agreement with Westgate/Belvedere Homes Community Redevelopment Agency provides funding for the reconstruction of the Cherry Road bridge in order to increase the drainage capacity of the canal for the purpose of alleviating flooding in the CRA area.

Any possible conflict of interest on the part of the Agency or its employees shall be disclosed in writing to HCD provided, however, that this paragraph shall be interpreted in such a manner so as not to unreasonably impede the statutory requirement that maximum opportunity be provided for employment of and participation of low and moderate-income residents of the project area.

13. CITIZEN PARTICIPATION

The Agency shall cooperate with HCD in the implementation of the Citizen Participation Plan by establishing a citizen participation process to keep residents informed of the activities the Agency is undertaking in carrying out the provisions of this Agreement. EXHIBIT A
WORK PROGRAM NARRATIVE

I. THE AGENCY AGREES TO:

A. PROFESSIONAL SERVICES: The Agency shall, at its own cost, retain the services of an engineering consultant (a Florida professional engineer) for this project to provide design services to create plans and specifications for the below described drainage improvement project located on Cherry Road (as more fully specified below). The consultant shall also prepare, obtain and review bids, prepare contract documents, inspect work in progress, recommend payment to contractors, and provide other professional services customarily provided for this type of project. The consultant shall also coordinate the design and construction work with the asbestos abatement contractor, should such abatement become necessary.

B. PROJECT SCOPE : The scope of this project subject to funding availability shall include the following :

Reconstruction of the Cherry Road bridge over the Airport Canal to increase the drainage capacity of the canal for the purpose of alleviating flooding in the CRA area.

NOTE 1: The Agency shall submit its bid package/drawings/specifications, and an itemized opinion of probable construction cost prepared by its consultant, to HCD and obtain a letter of approval prior to bidding the construction work. Furthermore, the Agency shall obtain HCD approval prior to issuing any addenda to its bid documents for this project.

NOTE 2: The Agency shall prioritize the work in the project, and shall bid such work in a manner that would allow the receipt of itemized costs from bidders which would then allow the award of items that can be funded by the budget provided that the extent of work awarded will result in a functioning facility in the opinion of HCD.

NOTE 3: The Agency shall include in its bid and contract documents the following prohibition affecting the prime contractor and all subcontractors for this project: "Neither the prime contractor nor any subcontractor shall be allowed to perform one hundred percent (100%) of their work on this project on nights, weekends, or County recognized holidays. The prime contractor and all subcontractors shall, at a minimum, perform work on this project for the duration of one regular working day". The Agency may request HCD for a waiver to the above requirement should the nature of the project so necessitate, and in such instance, HCD may, at its discretion, grant the Agency such waiver.

NOTE 4: The Agency shall not award the construction contract for the project until sufficient funding is available to complete the established scope of work. All construction work shall be included in one contract. The Agency shall obtain HCD approval prior to awarding the construction contract to be funded through this Agreement. After awarding such contract, the Agency shall obtain HCD approval prior to executing any change orders to such contract.

NOTE 5: Should the construction contract amount for this project exceed the amount to be funded by the County for construction costs through this Agreement, then the Agency shall fund all amounts in excess of the amount to be funded by the County. The Agency shall not request the County for reimbursement of any of the County's funds for construction costs until after it has expended all amounts in excess of the amount to be funded by the County.

NOTE 6: The Agency shall not request reimbursement from HCD for materials or equipment received and stored on the project site or elsewhere. The Agency shall only request reimbursement for materials and equipment that have been installed.

The Agency further agrees that HCD, in consultation with any parties it deems necessary, shall be the final arbiter on the Agency's compliance with the above.

- C. **BUY AMERICAN REQUIREMENTS:** The Agency shall comply with the "Buy American" provisions of Section 1605 of the American Recovery and Reinvestment Act of 2009 (ARRA), and shall require the prime contractor and all subcontractors to also comply with said Section 1605 which states:

"Sec. 1605. Use of American Iron, Steel, and Manufactured Goods.

(a) None of the funds appropriated or otherwise made available by this Act may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States.

(b) Subsection (a) shall not apply in any case or category of cases in which the head of the Federal department or agency involved finds that--

(1) applying subsection (a) would be inconsistent with the public interest;

(2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or

(3) inclusion of iron, steel, and manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent.

(c) If the head of a Federal department or agency determines that it is necessary to waive the application of subsection (a) based on a finding under subsection (b), the head of the department or agency shall publish in the Federal Register a detailed written justification as to why the provision is being waived.

(d) This section shall be applied in a manner consistent with United States obligations under international agreements".

Should the Agency and HCD disagree on whether the contractor (including all subcontractors) has complied with the provisions of Section 1605 of ARRA, then the Agency agrees that HCD, in consultation with any parties it deems necessary, shall be the final arbiter on the contractor's compliance with the provisions of such Section 1605.

NOTE 1: The Agency shall cause its engineering consultant to exclude from this project's drawings and specifications iron, steel, and manufactured goods that are not produced in the United States. If the project can not be undertaken in a manner where all the iron, steel, and manufactured goods for the project are produced in the United States, then the Agency shall inform HCD in writing of such instance and cooperate with HCD to seek an exception to this requirement if one of the following conditions are met:

- Iron, steel, and manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality;
- Inclusion of iron, steel, and manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent; or
- Applying the Buy American requirement would be inconsistent with the public interest.

HCD shall, at its discretion, determine whether it is feasible to pursue such an exception with U.S. HUD. In addition, HCD shall also investigate whether any iron, steel, and manufactured goods identified by the Agency for an exception already benefits from being on the list of existing exceptions thereby negating the need for an exception request.

The Agency shall not proceed with the bid process for this project unless HCD is satisfied that the Buy American provisions have been met. It is strongly suggested that the Agency conduct a pre-bid conference in order to clarify the Buy American requirements to prospective bidders.

NOTE 2: The Agency shall cause its engineering consultant to identify to HCD all of the iron, steel, and manufactured goods used in the design of this project. Accordingly, the Agency shall cause its engineering consultant to provide HCD with the list of all of the iron, steel, and manufactured goods used in the design of this project on the form provided as Exhibit B to this Agreement. The engineering consultant shall indicate on the form whether the items on the list of iron, steel, and manufactured goods are available from producers in the United States. Said form shall be submitted to HCD with the Agency's bid package/drawings/specifications as required in Note 1 of Section I.B above.

NOTE 3: The Agency shall obtain from each bidder for this project a Bidder's Buy American Certification the contents of which are shown below. In addition, the Agency shall obtain from each bidder for this project any "Documentation Regarding Non-American-made Iron, Steel, or Manufactured Goods" in accord with the requirements of said certification. Furthermore, the Agency shall obtain from each bidder for this project documentation sufficient to provide, and as far as possible constitute, the detailed justification required for an exception under section 1605. The certification form, which the Agency shall include in its bid documents, shall be provided by HCD to the Agency at a later date when HCD transmits its packet of Federal requirements to the Agency.

"This project is funded, in part or in whole, with funding made available under the American Recovery and Reinvestment Act of 2009 (ARRA). ARRA requires that all of the iron, steel, and manufactured goods used in the project are produced in the United States. The below named Bidder certifies that:

1. Identification of American-made Iron, Steel, and Manufactured Goods: Consistent with the terms of this bid solicitation and the provisions of Section 1605 of the Recovery Act, the Bidder certifies that this bid reflects the Bidder's best, good faith effort to identify domestic sources of iron, steel, and manufactured goods for every component contained in the bid solicitation where such American-made components are available on the schedule and consistent with the deadlines prescribed in or required by the bid solicitation.
2. Verification of U.S. Production: The Bidder certifies that all components contained in the bid solicitation that are American-made have been so identified, and if this bid is accepted, the Bidder agrees that it will **provide reasonable, sufficient, and timely verification** to the Westgate/Belvedere Homes Community Redevelopment Agency of the U.S. production of each component so identified.
3. Documentation Regarding Non-American-made Iron, Steel, or Manufactured Goods: The Bidder certifies that for any component or components that are not American-made and are so identified in this bid, the Bidder has **included in or attached to this bid** one or both of the following, as applicable:
 - a. Identification of and citation to a categorical exception published by the U.S. Department of Housing and Urban Development (HUD) (or another Federal agency) in the Federal Register that is applicable to such component or components, and an analysis that supports its applicability to the component or components;
 - b. Verifiable documentation sufficient to the Westgate/Belvedere Homes Community Redevelopment Agency and to Palm Beach County, as required in the bid solicitation or otherwise, that the Bidder has sought to secure American-made components but has determined that such components are not available on schedule and consistent with the deadlines prescribed in the bid solicitation, with assurance adequate from the Bidder under applicable conditions stated in the bid solicitation or otherwise.
4. Information and Detailed Justification Regarding Non-American-made Iron, Steel, or Manufactured Goods: The Bidder certifies that for any such component or components that are not so available, the Bidder has also **provided in or attached to this bid** information, including but not limited to the verifiable documentation and a full description of the bidder's efforts to secure any such American-made component or components, that the Bidder believes are sufficient to provide and as far as possible constitute the detailed justification required for an exception under section 1605 with respect to such component or components. The Bidder further agrees that, if this bid is accepted, it will assist the Westgate/Belvedere Homes Community Redevelopment Agency and Palm Beach County in amending, supplementing or further supporting such information as required by the Westgate/Belvedere Homes Community Redevelopment Agency and Palm Beach County to request and, as applicable, implement the terms of an exception with respect to any such component or components."

NOTE 4: The Agency shall insert the following clause in its construction contract for this project:

"The Contractor acknowledges to and for the benefit of Palm Beach County and the Westgate/Belvedere Homes Community Redevelopment Agency that it understands the goods and services under this Contract/Agreement are being funded with monies made available by the American Reinvestment and Recovery Act of 2009 (Recovery Act) (or are being made available for a project being funded with monies made available by the Recovery Act) and section 1605 of such law contains provisions commonly known as "Buy American." The Buy American requirement prohibits the use of Recovery Act funds for a project for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States ("Buy American requirement") including iron, steel, and manufactured goods provided by the Contractor pursuant to this Contract/Agreement. The Contractor hereby represents and warrants to and for the benefit of Palm Beach County and the Westgate/Belvedere Homes Community Redevelopment Agency that (a) the Contractor has reviewed and understands the Buy American requirement, (b) all of the iron, steel, and manufactured goods used in the project will be and/or have been produced in the United States in a manner that complies with the Buy American requirement, unless an exception to the requirement is approved, and (c) the Contractor will provide any further verified information, certification or assurance of compliance with this paragraph, or information necessary to support an exception to the Buy American requirement, as may be requested by Palm Beach County, the Westgate/Belvedere Homes Community Redevelopment Agency, or the U.S. Department of Housing and Urban Development (HUD). Notwithstanding any other provision of this Contract/Agreement, any failure to comply with this paragraph by the Contractor shall permit Palm Beach County and the Westgate/Belvedere Homes Community Redevelopment Agency to recover as damages against the Contractor any loss, expense or cost (including without limitation attorney's fees) incurred by Palm Beach County and the Westgate/Belvedere Homes Community Redevelopment Agency resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part from HUD). Neither this paragraph (nor any provision of this Contract/Agreement necessary to give this paragraph force or effect) shall be amended or waived without the prior written consent of Palm Beach County and the Westgate/Belvedere Homes Community Redevelopment Agency."

NOTE 5: After the Agency awards the construction contract, the Agency shall provide HCD documentation evidencing reasonable, sufficient, and timely verification of the U.S. production of all iron, steel, and manufactured goods for this project except for those items which have an exception approved by U.S. HUD.

The Agency agrees not to release such retainages until it has obtained approval from the County that the contractor and subcontractors have complied with the requirements of the Davis-Bacon Act.
- H. **FORMER PROJECTS:** The Agency shall maintain all previously completed CDBG funded projects. Failure to do so will result in forfeiture of future CDBG funds and will delay funding for ongoing activities.

ASBESTOS REQUIREMENTS
SPECIAL CONDITIONS FOR DEMOLITION AND RENOVATION OF BUILDINGS

The provisions of this part apply to all demolition and renovation work contemplated in this Agreement and described in Exhibit A of this Agreement.

I. DEFINITIONS

ACBM: Asbestos Containing Building Materials
AHERA: Asbestos Hazard Emergency Response Act
EPA: Environmental Protection Agency
FLAC: Florida Licensed Asbestos Consultant
HCD: Palm Beach County Department of Housing and Community Development
NESHAP: National Emission Standards for Hazardous Air Pollutants
NRCA: National Roofing Contractors Association
NVLAP: National Voluntary Laboratory Accreditation Program
OSHA: Occupational Health and Safety Administration
PBCAC: Palm Beach County Asbestos Coordinator (in Risk Management)
TEM: transmission electron microscopy

II. ASBESTOS SURVEYS

All properties scheduled for renovation or demolition are required to have a comprehensive asbestos survey conducted by a Florida Licensed Asbestos Consultant (FLAC). The survey shall be conducted in accordance with AHERA guidelines. Analysis must be performed by a NVLAP accredited laboratory.

For Renovation Projects (projects which will be reoccupied):

- Point counting must be done for all asbestos containing building materials (ACBM) indicating less than 1% asbestos (to determine if any asbestos is present).
- Samples of vinyl floor tile indicating asbestos not detected must be confirmed by transmission electron microscopy (TEM).
- Joint compound shall be analyzed as a separate layer.
- Roofing material shall be sampled only if a renovation requires the roof to be disturbed (in lieu of sampling the roof, it may be presumed to contain asbestos).

For Demolition Projects:

- Point counting must be done for all "friable" asbestos containing building materials (ACBM), indicating less than 1% asbestos. This includes joint compounds (to be analyzed as a separate layer), and vinyl asbestos tile.
- Roof materials shall be presumed to be asbestos containing.

If the Agency has a recent asbestos survey report prepared by a licensed asbestos consultant, a copy may be provided to HCD and PBCAC for review to determine if the survey is adequate to proceed with renovation/demolition work. If no survey is available, a survey may be initiated by the Agency or requested by HCD. A copy of the completed survey will be forwarded to the Agency. All asbestos survey's shall be forwarded to the PBCAC.

III. ASBESTOS ABATEMENT

A. RENOVATION

- (a) Prior to a renovation, all asbestos containing materials that will be disturbed during the renovation, must be removed by a Florida Licensed Asbestos Contractor under the direction of a FLAC. Exceptions may be granted by HCD prior to the removal, (such as asbestos containing roofs, transite pipe). The Agency must obtain approval for all exceptions from HCD. HCD will request the PBCAC to review and approve all exceptions.
- (b) Asbestos Abatement work may be contracted by the Agency or by HCD upon request.
- (c) If the Agency contracts the asbestos abatement, the following documents are required to be provided to the HCD and the PBCAC.
 1. An Asbestos Abatement Specification (Work Plan), sealed by an FLAC.
 2. Pre and Post Job submittals, reviewed and signed by the FLAC.

- (d) If the Agency requests HCD to contract the asbestos abatement, HCD will initiate the request through the PBCAC who will contract the asbestos abatement. HCD will provide a copy of all contractor and consultant documents to the Agency.
- (e) Materials containing <1% asbestos are not regulated by EPA/NESHAPS. However, OSHA compliance is mandatory. OSHA requirements including training, wet methods, prompt cleanup in leak tight containers, etc. The renovation contractor must comply with US Dept of Labor, Standard Interpretation (OSHA), Compliance requirements for renovation work involving material containing <1% asbestos, 11/24/2003. The renovation contractor must submit a work plan to HCD and the PBCAC prior to removal of the materials.

B. DEMOLITION

All "friable" ACM must be removed by a Florida Licensed Asbestos Contractor under the direction of a FLAC prior to demolition. Friable materials include: resilient asbestos tile and mastic which is not intact, linoleum, asbestos containing joint compound, asbestos containing cement panels (e.g. transite), etc.

Intact resilient tile and asbestos roof materials may be demolished with adequate controls (e.g. wet method) by a demolition contractor provided the contractor is aware of the asbestos containing materials present and exercises adequate control techniques (wet methods, etc.). In all cases, demolition work should be monitored by a FLAC to insure proper control measures and waste disposal. Any exceptions to these guidelines may be requested through HCD prior to the removal, (such as asbestos containing roofs, transite pipe). Exceptions may be granted by HCD prior to the removal, (i.e. asbestos containing roofs, transite pipe). The Agency must obtain approval for all exceptions from HCD and the PBCAC.

- (a) Asbestos Abatement work may be contracted by the Agency or by HCD upon request.
- (b) If the Agency contracts the asbestos abatement, the following documents must be provided to the PBC/HCD and reviewed by the PBCAC.
 1. An Asbestos Abatement Specification (Work Plan), sealed by an FLAC.
 2. Pre and Post Job submittals, reviewed and signed by the FLAC.
- (c) If the Agency requests HCD to contract the asbestos abatement, HCD will initiate the request through the PBCAC who will contract the asbestos abatement. HCD will provide a copy of all contractor and consultant documents to the Agency.
- (d) Recycling, salvage or compacting of any asbestos containing materials or the substrate is strictly prohibited.
- (e) In all cases, compliance with OSHA "Requirements for demolition operations involving material containing <1% asbestos is mandatory.
- (f) For all demolitions involving asbestos containing floor tile, asbestos containing roofing material and materials containing <1%, the Demolition Contractor shall submit the following documents to HCD. HCD will provide a copy of these documents to PBCAC.
 1. Signed statement that the demolition contractor has read and understood the requirements for complying with EPA, OSHA and the State of Florida Licensing regulations for demolition of structures with asbestos materials.
 2. Submit a plan for the demolition of asbestos containing roofing and floor tile. State if these materials are likely to remain intact. Include in the plan what shall occur if materials become "not intact".
 3. Submit a plan for compliance with OSHA requirements such as but not limited to: competent person, establishing a regulated area, asbestos training of workers, respiratory protection, use of disposable suits, air monitoring, segregation of waste, containerizing asbestos waste, waste disposal.
- (g) If materials are discovered that are suspect asbestos materials that were not previously sampled, stop all work that will disturb these materials and immediately notify HCD.

Re: Request for Extension for Cherry Road Contract R 2010 1410

Dear Mr. Lowery:

I am writing to request a 6-month extension for the Cherry Road Bridge Expansion project.

In July 2010, the CRA awarded the construction contract to Drawdy Construction Co. Inc., but the contractor has not been able to start the project because of delays caused by the deactivation of power lines.

Overhead electric lines at Cherry Road on the east end of the road will need to be de-energized twice for two (2) hours sometime between the 2nd and 4th week of construction and overhead electric lines on the south side of the bridge will need to be de-energized for about six (6) weeks starting the first day of work.

The construction team, CRA, engineering consultants and Drawdy construction Co. Inc., have been working with FPL to design a plan to de-energize existing lines and provide power to the residents without any conflict with the contractor's work.

The delay is caused by staffing reassignment, new OSHA requirements and scheduling priorities at the Florida Power and Light organization. FPL has indicated that the design is in progress and should be completed shortly. Drawdy is confident that they can start immediately. We hope to be able to complete the project within the next six months.

We hope you'll favorably consider our request.

Sincerely,

Elizée Michel, AICP, Executive Director
