Narrative Highlights of Sterilization Ordinance

Animal Care and Control
Public Safety Department
January 15, 2008 – Agenda Attachment 2

The Division of Animal Care and Control is proposing a revision to the County's existing animal ordinance that would encourage residents to spay and neuter cats and dogs. The purpose of the proposed revisions would be to reduce the number of unwanted animals born each year and subsequently euthanized. The ordinance revisions will offer pet owners a clear choice on sterilization with the knowledge that ownership of an unaltered cat or dog will incur higher fees for the owner.

Each year approximately 20,000 unwanted animals are euthanized in Palm Beach County. Historically, Palm Beach County has lead the way in implementation of unique initiatives in the interest of improving animal welfare. To reduce unwanted animals the County has spent hundreds of thousands of dollars in humane education, dedicated a mobile surgical unit for spaying and neutering, implemented free spaying and neutering of pit bull dogs, and spent more than \$500,000.00 annually for the last 5 years to assist animal welfare organizations with sheltering and sterilization efforts.

With these efforts in mind, the number of animals sheltered and euthanized at the Division continues to rise. As such, Animal Care and Control is proposing revisions to the animal care ordinance to strongly encourage sterilization of pets. It is estimated to take 5 years for the Division to begin to see a significant decline in animal intake and euthanasia.

Highlights of the ordinance revisions are as follows:

- Sterilization of an owned cat or dog is a choice
- Hobby-Breeders (as defined in the ordinance revisions) must apply for and obtain a permit in order to breed. The permit cost is proposed at \$150.00.
- Hobby Breeders who apply for and obtain a permit within 90 days of passage of the revised ordinance will be exempt from the annual permit fee of \$150.00 AND will receive, at no charge, 2 "unaltered" tags each year. The fee waiver and 2 free tags shall remain in effect so long as the Hobby-Breeder is in compliance with the ordinance.
- Owners who do not want to have their pet spayed or neutered, but are not considered a Hobby-Breeder, may keep their animal intact so long as an affidavit is signed that the dog or cat will not be bred. The tag fee for unaltered animals will apply.

- Exemptions to the sterilization ordinance are:
 - Dogs or cats with a veterinary documented medical condition in which sterilization would pose a risk. This would include geriatric animals. Dogs or cats in this category (medical/age) will be allowed to purchase tags at a reduced rate.
 - Show or competition dogs and/or cats or dogs/cats intended for show or competition. The tag fee for unaltered animals would apply.
 - Dogs/Cats of registered Hobby-Breeders. The unaltered tag fee will apply for any additional unsterilized animals not included in the "2 free tags" issued annually with permit.
 - Law Enforcement dogs. No charge for annual tag.
 - Service dogs or service dogs-in-training. No charge for annual tag.

Program Enhancements for the revised ordinance are:

- Implement "voucher" program for low income residents to receive free sterilization for their pets
- Expanding hours of operation of Spay Shuttle
- Establish free sterilization clinic in West County and transportation will be provided for dogs/cats for sterilization if owner meets requirements set by Division (low income/elderly)
- Continuation of free obedience classes for dogs adopted from shelter, educational DVD's for each new adopter, school tours, and free educational materials on sterilization, sterilization access, and responsible pet ownership to any organization or school that makes a request.
- Implement Citizens Animal Patrol to issue materials on sterilization and/or perform public education as a part of Field Services.
- Expand Humane Education Program by working in public schools through Palm Beach County School Board to implement an animal welfare program in elementary schools and to encourage community service for a public or private animal shelter for graduating students
- Work with Public Affairs and Channel 20 to develop and launch a series of programs on animal care, enforcement and pet overpopulation
- Conduct quarterly 24-Hour "Op Around the Clock" clinics (potential 400 sterilizations per event) for owned and/or feral cats and encourage local veterinarians to participate and support these events
