Article 17 - Appointed Bodies
Chapter C

Section 3 Development Review Appeals Board

A. Establishment

There is hereby established a Development Review Appeals Board (DRAB).

B. Powers and Duties

The DRAB shall have the following powers and duties under the provisions of this Code:

1. to hear, consider, and decide appeals, decisions of the Zoning Director on applications for Certificates of Concurrency Reservation and Concurrency Exemption Extension;
2. to hear, consider and decide appeals from decisions of the Planning Director on applications for Entitlement Density, and WHP; and [Ord. 2007-013]
3. to hear and decide appeals from, decisions of, and conditions imposed by the DRO with regard to action taken on an application for a final development permit.

C. Board Membership

The DRAB shall consist of the Executive Director of PZB, County Engineer, and County Attorney or Deputy County Attorney.

D. Officers; Staff

1. Chair and Vice-Chair

The Executive Director of PZB shall be the Chair of the DRAB.

2. Staff

PZB staff shall be the professional staff for the DRAB.

E. Meetings

1. General

General meetings of the DRAB shall be held as needed to dispose of matters properly before the DRAB. Special meetings may be called by the Chair or in writing by two members of the DRAB. Staff shall provide 24-hour written notice to all DRAB members.

Section 4 Environmental Appeals Board

A. Establishment

There is hereby established an Environmental Appeals Board (EAB).

B. Powers and Duties

The EAB has the following powers and duties:

1. to hear appeals from certain requirements, interpretations, or determinations of Article 15, HEALTH REGULATIONS, made by the PBCHD or the Environmental Control Officer.

C. Board Membership

1. Qualifications

The EAB shall be composed of five members. The membership of the EAB shall consist of one professional engineer registered by the State of Florida and nominated by the Palm Beach branch of the American Society of Civil Engineers, one water resource professional employed by SFWMD, one drinking water engineer employed by the FDEP, one member of the Gold Coast Builders Association, and one attorney nominated by the PBC Bar Association.

2. Terms of Office

All EAB members shall serve a term of three years.

D. Officers

1. Secretary

PBC Environmental Control Officer shall provide a staff person to the EAB and that staff member shall be designated as Secretary of the EAB.

2. Staff

The PBCHD shall be the professional staff of the EAB.

E. Meetings

1. General or Special Meetings

General meetings of the EAB shall be held no less frequently than once every 60 days. Special meetings may be called by the Chair of the EAB, or in writing by a majority of the members of the Board. Staff shall provide 24-hour written notice to each EAB member for a special meeting.

Section 5 Environmental Control Hearing Board

A. Establishment

There is hereby established an Environmental Control Hearing Board (ECHB).

Article 15, Chapter A, ECR-1

Section 12 Environmental Appeal Board (EAB)

The EAB was established by the ECB on May 26, 1987 to hear appeals from certain requirements, interpretations or determinations of this Article made by the Department or the ECO. Its membership is described in Art. 17, DECISION MAKING BODIES.

Section 13 Appeals

- A. Persons aggrieved by a requirement, interpretation or determination of this Article made by the Department or the ECO may appeal to the EAB by filing a written notice of appeal, with the ECO within 30 days from the determination to be appealed. The notice shall be accompanied by a certified check or money order, made payable to the Department to defray the cost of processing and administering the appeal. The fee for filing the appeal shall be non-refundable and in the following amounts:
1. \$100.00 for a single family residence
 2. \$125.00 for all others, including, but not limited to, multiple family, commercial or subdivisions.
 3. However, no appeal shall be filed which requests relief from the construction standards required under Rule 64E-6, F.A.C.
- B. Each notice of appeal shall state the factual basis for the appeal and the relief requested. There shall be attached to each notice supportive materials and documents, including the information listed in Appendix C, ECR I - Information Required for an Appeal for an Individual Lot, or Appendix D, ECR II- Information for an Appeal for a Subdivision, if applicable to the appeal. The EAB may require such additional information, as it deems necessary. A separate notice of appeal must be filed for each site or system considered for an appeal. Required supporting documentation for the appeal must be filed with the Department of Environmental Control Office with the notice of appeal. The burden of presenting supportive facts in the notice of appeal shall be the responsibility of the person filing the appeal. The person filing the appeal shall have the burden of proving that he/she is entitled to relief. The Department shall defend all appeals before the EAB. [Ord. 2005 - 003]
- C. The person filing the appeal shall also submit to the ECO a list of the names and addresses of every property owner who may be affected by the granting of the appeal in the following cases:
1. The proposed OSTDS fails to meet the minimum distance required between the system and a well, as provided by this Article; or
 2. The proposed OSTDS is within five feet of a neighboring lot; or
 3. The proposed OSTDS is within 50 feet of a water body on a neighboring lot.
- D. A hearing on the appeal shall be set within 60 days of receipt of the notice of appeal by the ECO. This provision does not mean that the applicant is entitled to a hearing on the first available agenda following receipt of the notice of appeal.
- E. Formal rules of evidence shall not apply, but fundamental due process shall be observed and shall govern the proceedings. All testimony shall be under oath. Irrelevant, immaterial or unduly repetitious evidence shall be excluded; but all other evidence of a type commonly relied upon by reasonably prudent persons shall be admissible, whether or not such evidence would be admissible in the trial courts of the State of Florida. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence, but it shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions.
- F. The parties shall have the following rights: to be represented by counsel; to call and examine witnesses; to introduce exhibits; to cross-examine witnesses on any relevant matter, even though the matter was not covered in direct examination; and to rebut evidence.
- G. The EAB shall hear and consider all facts material to the appeal and shall issue findings of fact based upon the greater weight of the evidence and shall issue an order affording the proper relief consistent with the powers granted herein. The findings and order shall be by motion approved by a majority of those members present and voting.
- H. In order to grant an appeal authorizing an OSTDS on a single lot, the EAB must find that:
1. Because of special factors, which may include economic factors, the applicant is unable to comply with this Article; and
 2. The OSTDS complies with current construction standards; and
 3. The granting of the appeal is the minimum alternative that will make possible the reasonable use of the land, structure or building; and
 4. The granting of the appeal is consistent with the general intent, purpose and requirements of PBC laws and ordinances; and

5. The grant of the appeal will not be injurious to the area involved or to the public health and general welfare.
- I. In order to grant an appeal authorizing OSTDS in subdivisions containing lots smaller than those required under this Article, the EAB must additionally find:
 1. That for a proposed subdivision to be served by individual private wells, each lot has at least one-half acre, with a minimum dimension of 100 feet and that said subdivision contains no more than 50 lots; or that for the proposed subdivision to be served by a public water system, each lot has at least one-third acre with a minimum dimension of 75 feet and that said subdivision contains no more than 100 lots; and
 2. That satisfactory ground water can be obtained if an individual private well is to be used; and
 3. That all distance and setbacks, soil conditions, water table elevations and other related requirements of this Article and Rule 64E-6, F.A.C., are met; and
 4. That the proposed subdivision does not represent sequential development of contiguous subdivisions, the purpose of which is to avoid the requirements of Article 15.A.13.I.1; and
 5. That a municipal, county or investor-owned public sewage system is not available contiguous to the proposed subdivision or within one-half mile thereof with public R-O-W accessibility; and
 6. That a municipal, county or investor-owned public sewage system is not available contiguous to the proposed subdivision or within one-half mile thereof with public R-O-W accessibility; and
 7. That the proposed density of the subdivision is consistent with the density recommended in the Land Use Plan of PBC or in the Land Use Plan of the appropriate municipality; and
 8. That the developer has made every reasonable effort to obtain public water and sewer; and
 9. That dry water and/or sewer lines are to be installed by the developer and that the developer will establish an escrow account to pay for the cost of connection when water and/or sewer becomes available, or that the installation of the same is not feasible from a technical or economic standpoint; and
 10. That onsite, water and/or sewage treatment facilities are not feasible from a technical or economic standpoint; and
 11. That the proposed development will consist of no more than one single family residence per lot; and
 12. That land uses surrounding and adjacent to the proposed subdivision and soil qualities of the area do not indicate that the area's health is endangered by an inordinate proliferation of septic tanks.
 - J. Provided that the factual findings specified in Article 15.A.13.H and Article 15.A.13.I, the EAB may reverse, modify or affirm, wholly or partly, the requirement, interpretation or determination made by the Department or the ECO. In granting an appeal, the EAB may prescribe appropriate conditions and safeguards consistent with this Article. Violation of such conditions and safeguards, when made a part of the terms under which the appeal is granted, shall be deemed a violation of this Article. The EAB may also prescribe a reasonable time within which the action for which the appeal is granted shall be started or completed or both. Any decision of the EAB shall be in the form of written order.
 - K. If there is a change in facts or circumstances supporting a request for relief after an order granting relief has been issued, then the applicant shall notify the Department. The Department may request the EAB to revoke or amend the order.
 - L. Except where the relief granted is to exempt an applicant from the requirement to connect to a sanitary sewer under Article 15.A.8.A, any relief granted shall automatically terminate upon the availability of sewer service to the lot or parcel. Unless otherwise provided in an order issued pursuant to Article 15.A.13.J, relief granted under this Article shall automatically lapse if action for which the appeal was granted has not been initiated within one year from the date of granting such appeal by the EAB or, if judicial proceedings to review the EABs decision shall be instituted, from the date of entry of the final order in such proceedings, including all appeals.
 - M. The decision of the EAB shall be final administrative action. Any party or interested person may appeal a decision of the EAB to the Circuit Court of PBC. Such appeal shall be filed within 30 days of the execution of the EABs order.

Section 14 Violations, Enforcement Penalties, Inspections

A. Violations, Enforcement and Penalties

It is unlawful for any person to violate any provisions of this Article or any duly constituted order of the ECHB enforcing this Article. Such violations shall be punished according to the provisions of Chapter 77-616, Special Acts, Laws of Florida, as amended from time to time and PBC Environmental Control Ordinance No. 94-26, 32 as amended.
