Dear Mr. Wilder,

This letter is to request a GAN for the above referenced grant. The requested changes are non monetary. We are requesting that this grant be extended to September 30, 2011. The current grant termination date is June 30, 2011.

The budget for this project remains the same. There is enough money left in the grant to warrant this extension. It will allow for current programming to continue to the end of the budget year in an underserved area of the county.

If there are any questions please do not hesitate to call Rosalind Murray, Project Manager @ 561-355-2332.

Sincerely,

Michael Rodriguez, Executive Director

General Project Information

Project Title: BELLE GLADE WEED AND SEED/GOOD WILL OFFENDER RE-ENTRY PROJECT

Project Start Date: 10/1/2009 **End Date:** 9/30/2011

Problem Identification

Belle Glade, FL is a place of great hope and hopelessness. The city has staggering poverty and unemployment levels. Youth and adult violence is a way of life in this area. Poverty, joblessness, inadequate schools, poor early childhood stimulation, and fatherless homes all help create a ripple affect. Large percentages of young people commit crimes and go to jail. These are part of the vast numbers of inmates, over 90% that will return to their home communities after serving sentences in the State Department of Corrections. These former offenders have served their debt to society and need services in order to re-enter society. Up until now, a concentrated case management system has not existed in Belle Glade for ex-offenders. The Glades area, which includes Belle Glade, Pahokee, and South Bay has tallied in the top five locations in Palm Beach County for returning inmates from the County jail. Without support services, and job prospects many are destined to return to jail.

Project Summary (Scope of Work)

The goal of this project is to replicate the activities and success of an existing collaborative effort between three coastal Palm Beach County Weed & Seed sites and GGI by providing services in the designated Weed & Seed site in Belle Glade. The current collaboration supports a re-entry initiative addressing the increasing number of offenders re-entering Weed & Seed sites, and specifically: their need for supportive services for successful community reintegration; the reduction of recidivism rates; and employment. It is our proposal to replicate the program in its entirety in Belle Glade. It is our intention that this program will build linkages between partners in the re-entry effort including service providers, businesses, residents and other stakeholders, establish contact with ex-offenders returning to the Weed & Seed Belle Glade area from State prisons through outreach and recruitment efforts in cooperation with local law enforcement, develop a treatment plan for participants and provide case management, and facilitate the delivery of services to returning ex-offenders in order to support their successful re-entry into society.

Further, the proposal does not duplicate existing services, therefore support services will only be provided when the provision of similar no cost services through community partners such as Workforce Alliance, Project R.E.A.P. Success and others are not available.

Services include the following: It is our intention that this program will build linkages between partners in the re-entry effort including service providers, businesses, residents and other stakeholders, establish contact with ex-offenders returning to the Weed & Seed Belle Glade area from State prisons through outreach and recruitment efforts in cooperation with local law enforcement, develop a treatment plan for participants and provide case management, and facilitate the delivery of services to returning ex-offenders in order to support their successful re-entry into society.
