Submitted For: Water Utilities Department

I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: Amendment No. 3 to the unit price Contract with Rangeline Tapping Services, Inc. for the Water Utilities Department Pipe Wet Tapping & Line Stopping Continuing Contract to provide materials and installation services for wet tapping and line stopping of potable water, reclaimed water and wastewater pipelines, renewing the Contract for a 12 month period.

Summary: On November 17, 2009, the Board of County Commissioners approved the Water Utilities Department Pipe Wet Tapping & Line Stopping Continuing Contract (R2009-1976) to Rangeline Tapping Services, Inc. in the amount of \$2,702,279. The contract renewal will allow the continued efficiency and installation of pipe wet taps and line stops for emergency pipe repairs, pipe and valve replacements and construction projects throughout the County's service area. Contract renewal is for the base Contract only, and the Contract by itself does not guarantee nor authorize Rangeline Tapping Services, Inc. to perform any work. Work will be assigned during the 12 month renewal period by formal work authorizations drawn against this contract, with approvals pursuant to PPM CW-F-050 and requirements for any Federally funded projects. There shall be no increase in unit prices for labor and materials contained in this Contract for the duration of the 12 month renewal period. Supplements to work authorizations for changes that occur during construction will be subject to the change order limits for construction contracts as established under PPM CW-F-050 with each work authorization considered as an individual construction contract. Supplements to work authorizations for changes that occur during construction will be subject to the change order limits for construction contracts as established under PPM CW-F-050 with each work authorization considered as an individual construction contract. The Small Business Enterprise (SBE) participation goal established by the SBE Ordinance (R2002-0064) is 15% overall. This contract with Rangeline Tapping Services, Inc. provides for SBE participation of 100% overall. Rangeline Tapping Services, Inc. is a local Palm Beach County Company. Due to time constraints and contract negotiations, this item is being put on as an "Add-On" so as to prevent service interruption and unnecessary time delays. (WUD Project No. 08-019) Districts 1, 2, 3, 5 and 6 (JM)

Background and Justification: Palm Beach County Water Utilities Department performs maintenance, repair and construction activities on water, wastewater, and reclaim water pipelines throughout its service area. The renewal of this continuing construction contract will continue to reduce the time needed for specialized installation of pipe wet tapping and line stop services needed to complete the utility repairs, emergencies and improvements. Pipe wet tapping and line stops allow connection to or shutdown of flow in a piping system without taking the piping system out of service. This increases reliability and reduces the time for necessary repairs.
