July 7, 2011

Dear Commissioner Marcus,

Please consider this my resignation from the Division of Consumer Affairs Hearing Board. Since a Hearing on November 18, 2010, in which the DCA was over ridden on their denial of a towing license, and, the license was issued to a convicted felon, I have attempted to bring out the numerous irregularities both to common principles of law, and, especially to the Ordinance 77-10, which governs the DCA and the Hearing Board.

Immediately after the meeting, I wrote to Mr. Hitt, former manager of the DCA. It was my impression of what took place at the meeting. Another letter was sent to Mr. Moore, former Director of the DCA, listing the items that I felt were improper. Mr. Moore informed me that he had forwarded my letter to Ms. Benjamin, Asst. County Attorney and Consumer Advocate and her superior for a response. Never having had an answer, I then wrote to Ms. Nieman, County Attorney with my list of charges. Again, no response...

As a 31 year resident, homeowner, voter and tax payer in Palm Beach County, I feel I am entitled to a response. I don't know if it is arrogance, incompetence or a cover up, In any case, I feel that the only way I can get someone to look into this matter, is to resign from the Board.

I am including in this envelope the three letter that I wrote along with a fact sheet of the irregularities mentioned. Please note that the dates on the letters are the date I copied them and not the original dates as that's the way my computer operates..

I can fully appreciate the difficult times the Commissions is having with the new budget, and, you may not have the time or desire to investigate a department and people directly responsible to the Commission.

Please let me know if you are unable to help me so that I may then file a complaint with the Inspector General. If anyone wishes to speak directly to me I am always available by phone and if a personal meeting is desired, I will make myself available at your convenience.

I feel badly that I am ending an almost 20 year association as a volunteer with the DCA. I believe I have been an asset to both the DCA and the Hearing Board. I was hoping that once I completed my term in 2012 that I could be considered for a position on another Board or Committee within the county government, however, I'm sure this letter will end any possibility of that taking place.

Sincerely,

Herbert Milstein

QUESTIONS

Palm Beach County, Florida CONSUMER AFFAIRS ORDINANCE NO. 77-10

SECTION 4. POWERS OF THE CONSUMER AFFAIRS HEARING BOARD The Board shall have the following authority and powers:

(4) To hear appeals by persons aggrieved by actions of the Office of Consumer Affairs not already referred to the State Attorney for criminal prosecution. The Board shall reach a prompt decision on such appeals, and may affirm, reverse or modify the action or decision on all such appeals, and may affirm, reverse or modify the action or decision appealed from, provided that such decision shall not be in conflict with the provisions of this Ordinance;

SECTION 13. CONSUMER ADVOCATE A. The County Attorney of Palm Beach County shall designate one Assistant County Attorney to serve as the Consumer Advocate. Said person shall serve as the prosecuting attorney for the Board and Office of Consumer Affairs and shall assist in the negotiation of, and preparation of assurances of voluntary compliance. Said person, when requested, shall assist in the supervision of investigations and shall render such additional assistance as may be requested by the Chairman of the Board and/or Executive Director.

- 1. Why for the past four years has the Consumer Advocate NEVER acted as the Prosecuting Attorney per Section 13 above?
- 2. Why for the past four years has the Consumer Advocate and the former Director on numerous occasions told the Hearing Board that if the Office proved their case that it was our responsibility to hold in favor of the Office? It was only at the Gullotta hearing in November 2010 that she quoted the entire Section 4 that stated that we had the right to affirm, reverse or modify the action of the Office. For four years it was drilled into us that we had no choice and in some hearings, Board Members quoted the same to the individuals in the cases we were hearing, and NEVER were we told the information was only partially correct.
- 3. In the past four years the Consumer Advocate answered question for the Hearing Board and we assumed that she was our attorney. What happened that in the Gullotta hearing that she suddenly stated that she was not the Boards Attorney? Is this correct under Section 13 and why did it take four years for the Hearing Board to be informed of this? If this is correct why was the Hearing Board left without an attorney until May 2011?

- 4. In the Gullotta case the Defense Attorney presented several character witnesses who testified about the defendants character over the past 10-15 years. When I asked the prosecutor if I could question the witnesses over the same time period I was told that I could only ask questions in the time period after the Towing Ordinance was established. In my limited knowledge of the law, I was under the impression that once the defense opened the door for earlier times, I had the right to question the witnesses for the same time period. In addition was it not the Unlicensed Practice of Law for a non attorney to be giving legal advise?
- 5. The Defense Attorney presented a different interpretation of an insurance fraud conviction and claimed that in as much as the conviction was of a personal nature and not directly related to the towing industry it could not be used against his client. We were then told by the Consumer Advocate that in the case of a different interpretation of the law that it was up to the Hearing Board to decide which interpretation was correct. This doesn't make any sense that a Board of lay people should be determining law. Years ago I took legal courses at FAU and recall being told that the Trier of Fact is the jury and the Trier of Law is the Judge. Does this not apply here?
- 6. The defense attorney challenged the ordinance and stated that if his client did not get his license he was prepared to go to court and challenge the ordinance on constitutional grounds. At that point the persecutor stated that the ordinance has flaws and was being reworked. Not only did he not defend the ordinance but added fuel to the fire with his remarks. Since when does a prosecutor help the defense in his case?
- 7. At the May 25, 2011 meeting the Consumer Advocate appointed the Office manager to act as the prosecutor. I raised a point of order and asked under what authority she had to do this. I was then told that she had talked to her "boss" and was given permission. I then asked if her "boss" had the authority to over ride an ordinance. The answer was again, her boss" said it could be done. Does any attorney including the County Attorney have the authority to ignore or over ride an ordinance that has been approved and adopted by the State?
- 8. Its my understand, from two reliable sources, that the ethical way of handling a Conflict of Interest is 1. If known before a trial/hearing than the attorney should advise his/her superior and have another attorney handle the case. 2. If the conflict is discovered after the trial/hearing starts the attorney should immediately inform both sides of the conflict and allow both sides the option of continuing or of one objects he/she should recluse him/herself but in no case should a party in the suit continue without representation.
- 9. If any of these issues are due to inefficiencies in the ordinance than the ordinance should be changed/amended but should not be ignored when it becomes inconvenient to the various parties.

10. This is a very subjective observation, however, many on the Hearing Board felt that when a law suit was threatened the Prosecutor and Consumer Advocate buckled and in an apparent attempt to avoid a law suit wanted the case settled as quickly as possibly. I can appreciate an attorney working for the county wanting to avoid a law suit, but, I don't think the public is being served by giving a convicted felon, guilty of numerous drug charges plus one for robbery with a weapon, a license in which he is in direct contact with the public. To avoid a law suit is not a reason to totally disregard the safety of the residents of Palm Beach County.

In conclusion Id like to say that our Hearing Board takes its job of protecting the public very seriously. In the four years we have heard a number of cases and the most it ever took was one half hour to forty five minutes to settle. This case took two and one half hours and became very contentious. It did not have to come to this if we had proper legal representation.
