#### I. EXECUTIVE BRIEF

#### Motion and Title: Staff recommends motion to:

A) approve an Agreement and License for Property Access to Trim Vegetation (Agreement) between Palm Beach County and the Ocean Royale Condominium Association, Inc. (Condominium) for permit approved trimming of native vegetation on a County owned beach front property in Juno Beach.

B) authorize the County Administrator, or his designee, to sign necessary minor amendments that do not change the scope of work, terms, or conditions of the Agreement.

Summary: The Condominium is located on the west side of Highway A1A in Juno Beach. The Agreement will allow the Condominium to trim approximately 450 linear feet of native vegetation (sea grapes) growing on County property along the east side of A1A. The Condominium will be responsible for receiving all local and state permits, any potential damage caused to the County property, and liable for any sea turtle impacts. There is no cost to the County. District 1 (SF)

**Background and Justification**: In1996, the developer of the Condominium donated the land east of A1A to the County in exchange for construction of a dune walkover and restoration of the dune system. Several years later in 1999, the developer cut the County owned sea grapes along the same property without permission. The developer was required to restore the dune to pre-trimmed conditions.

The re-growth of the dune system prompts the Condominium's HOA to seek permission to trim the dune vegetation growing along the sidewalk that parallels A1A. The Condominium has stated that the trimming request is for the purpose of providing a uniform appearance and is not for improving the view since residences are not on the first floor of the building.

County owned land which is the subject of this agreement is not dedicated as a Natural Area within the purview of the Conservation Lands Protection Ordinance. Were it so designated, trimming would be prohibited by the Ordinance.

# AGREEMENT AND LICENSE FOR PROPERTY ACCESS TO TRIM VEGETATION

THIS AGREEMENT is made this 21th day of Soptimber, 2012 between Palm Beach County, a political subdivision of the State of Florida, whose mailing address is 301 North Olive Avenue, West Palm Beach, Florida 33401 ("Grantor"), and Ocean Royale Condominium Association, Inc. of Juno Beach, whose mailing address is 700 Ocean Royale Way, Juno Beach, Florida, 34408, ("Grantee"), both being herein referred to collectively as the "parties", for the sole purpose of providing property access for permit approved trimming of native vegetation.

WHEREAS, the parties recognize and agree that it is in both of their best interests to enter into this trimming agreement to define management of the dune east of Ocean Royale to minimize the impacts from vegetation trimming.

NOW, THEREFORE, in consideration of the mutual covenants, promises and representations herein, the parties agree as follows:

- 1. <u>Grant of License.</u> Grantor hereby grants, bargains and conveys to the Grantee, its subcontractors, agents and employees, a temporary, non-exclusive License on, over, under, through and across the Property described in Exhibit "A," attached hereto and incorporated herein ("the License Premises") for property access to trim vegetation as provided herein. This instrument is further subject to all Licenses, restrictions, covenants, conditions, limitations and reservations of record, if any. Grantee's use of the License Premises as provided herein shall not interfere with Grantor's ownership and use of the License Premises or right to construct, maintain or improve the beach and dune system or dune walkover on Grantor's Property.
- 2. <u>Not a Dedication.</u> Nothing herein contained shall be deemed to be a gift to any private authority or any third party, and the License provided herein shall be strictly limited to the purposes expressed herein. Nothing herein contained shall be deemed to give the Grantee or any other persons, other than Grantor, and Grantee and its subcontractors, agents and employees any access rights to the License Premises or access to the beach from the Grantor's property other than as may have existed prior to the date of this Agreement. Grantor hereby reserves the right to the continued free use of the property in a manner not inconsistent with the rights granted herein to Grantee and subject to the terms and conditions of this Agreement.

- 3. <u>Grantee's Use.</u> The License Premises may be used by Grantee, its subcontractors, agents or employees solely for the purpose of providing property access during and only during periods of maintenance associated with sea grape trimming and exotic species removal.
- 4. <u>Grantee's Obligations.</u> Grantee shall obtain all local and state permits and approvals required by all applicable governmental entities to perform the acts contemplated herein. Grantee shall safeguard and maintain the License Premises and its immediate environs throughout the term of this Agreement when exercising the rights granted herein. Any damage caused by Grantee or its subcontractors, agents or employees to the License Premises or any property of the Grantor or others located on Grantor's property shall be immediately (in no event later than 30 days) repaired by the Grantee at Grantee's sole expense. Such repair work may include, but is not limited to, replanting sea grapes with vegetation of similar size to that damaged and providing sufficient irrigating for successful reestablishment of such sea grapes to the allowable trimmed height.

Grantee shall provide Grantor with thirty (30) days prior written notification of Grantee's desire to enter onto the License Premises.

Prior to a major trimming event, Grantee shall perform a pre-trim night inspection from the beach to assess existing lighting. If the inspection reveals that exposure of additional lights or indirect illumination will occur due to the trimming, corrective action must be taken prior to the trimming event. Corrective action shall include but is not limited to the Grantee adhering to all applicable sea turtle codes and ordinances in effect during the term of the Agreement. Self monitoring by the Grantee of the number of interior and exterior lights visible from the beach must be conducted once per month on a new moon during sea turtle nesting season. Results of the monitoring shall be sent to-Grantee residents and Grantor within 5 days of each monitoring event.

A major trimming event is permitted once per year and shall occur only outside of sea turtle nesting season (November 1 – February 28). Minor trimming events (< 1 foot vertical reduction) for maintenance of trimmed height can occur at any time.

The Grantee shall remove all existing exotic vegetation (Category I species as defined by the Exotic Pest Plant Council) located within the License Premises during each trimming event. Trimming must be performed in compliance with the Tree Care Industry Association ANSI A300 Standards for Crown Reduction Pruning by an experienced vendor who is knowledgeable of proper trimming techniques.

Trimming heights shall not be any lower than 6 feet on the north 90 feet of dune, shall transition evenly on an upward slope from 6 feet to 10 feet on the central 180 feet of dune, and be no lower than 10 feet on the south 180 feet of dune. Grantee shall ensure that all trim heights will be measured from the sidewalk and that PVC reference markers are installed to mark minimum trim heights. The trimming Plan is set out in Exhibit "A", attached hereto and incorporated herein.

H

Prior to each nesting season after 2013, it is the responsibility of Grantee to verify that daily disorientation data will be collected (documented) for the season within the disorientation evaluation area described in Exhibit "B" by a Florida Fish & Wildlife Conservation Commission (FWC) marine turtle permit-holder. The Grantor will collect the disorientation data through 2013 under current permit obligations. Beginning in 2014, the Grantee shall be responsible for collection of disorientation data.

Grantee shall arrange for a qualified consultant, who holds an FWC permit, to document disorientation. Disorientation data will be collected daily during the sea turtle nesting season within the disorientation evaluation area described in Exhibit "B". Following the conclusion of each sea turtle nesting season, Grantee must present to the Grantor an evaluation of annual disorientation totals for the disorientation evaluation area. Notwithstanding the foregoing, beginning in 2014, if the Grantor or its designee intends to collect disorientation data in the disorientation evaluation area during any particular nesting season, the Grantor may waive in writing Grantee's responsibility to collect such data for that season.

If the Grantor reasonably determines that trimming events are increasing sea turtle disorientation, it shall so advise Grantee and the parties will in good faith attempt to work out a resolution to the problem. If the parties are unable to resolve the disorientation problem, the Grantor may immediately give notice of termination of this Agreement.

Grantee acknowledges and agrees that Grantor may at its own expense have a representative on-site observing the activities of Grantee during trimming and in the event Grantee, its agents, employees or subcontractors are violating the terms of this Agreement, such Grantor representative shall have the right to stop the work in progress, and Grantee shall hold Grantor harmless from such work stoppage. Grantee is solely responsible to pay for all costs related to sea grape trimming, exotic species removal and any corrective action in the event that the terms of this Agreement are violated.

- 5. <u>Term.</u> This Agreement shall be effective upon execution by both parties and shall continue for five (5) years from the date of execution, unless earlier terminated as provided herein. After the initial five year term, the parties shall in good faith evaluate whether the Agreement has had a detrimental effect on sea turtles and, if not, whether it should be extended. At that time, the parties may decide to extend the Agreement for an additional period of time to be agreed upon by the parties.
- 6. <u>Termination.</u> If any party fails to fulfill its obligations under this Agreement in a timely and proper manner, any other party may give written notice of such deficiency. The party in default shall correct the deficiency in the time period specified by the non-defaulting party. If the defaulting party fails to correct the deficiency within the time period specified by the non-defaulting party, the non-defaulting party shall have the option to terminate this Agreement upon notice to the defaulting party.

This Agreement may be terminated for convenience of a party by either party giving
