Contract 2013-JAGC-PALM-2-D7-239

**General Project Information**

**Project Title:** EX-OFFENDER REENTRY  
**Subgrant Recipient:** Palm Beach County Board of Commissioners  
**Implementing Agency:** Palm Beach County Criminal Justice Commission  
**Project Start Date:** 10/1/2012      **End Date:** 9/30/2013

**Problem Identification**

Palm Beach County, Florida (PBC) implements a project that delivers a comprehensive model for inmate reentry into Palm Beach County. The project is designed to reduce recidivism by 50% over a 5-year period for the target population by identifying needs, providing targeted evidence-based programs and coordinating pre- and post-release services that will assist inmates transitioning from jail or prison to the community.

Echoing many of the problems found nationally with reentry, Palm Beach County's released prisoners face numerous challenges that ultimately aid in their return to criminal activity, re-arrest and re-incarceration. These challenges include unemployment, lack of housing, substance abuse, mental health problems and strained family relationships. To further compound these challenges, institutional programs aimed at assisting inmates in dealing with these issues have been sharply reduced in recent years due to budget reductions. Research shows that unemployment has a profound impact on recidivism rates. Statistics show that even before incarceration, adult inmates demonstrate weak or non-existent ties to the workforce (33% of inmates are unemployed in the month leading up to their arrests, compared to 10% unemployment in the general population). The lack of appropriate housing and the inability to access substance abuse treatment and mental health care significantly reduce positive outcomes. The "what works" literature shows that programs that provide intensive substance abuse and mental health treatment during incarceration, combined with aftercare, have proven effective in reducing recidivism; however, accessing these services continues to prove challenging for the target population.

In recent years, reentry in Palm Beach County has received increased attention as public policy leaders are searching for innovative ways of decreasing cost of incarceration while maintaining public safety. As a result, the Criminal Justice Commission's Reentry Task Force has developed a five-year plan and implemented various projects that work with ex-offenders.

**Project Summary (Scope of Work)**

Evidence-Based Methodology and Outcome Measures - Palm Beach County utilizes the Risk-Needs-Responsivity (RNR) model to guide the reentry process. The RNR model refers to predicting which inmates have a higher probability of recidivating and treating the criminogenic needs of those inmates with appropriate programs based on their level of need. There is considerable empirical evidence that programs that target inmates who are at a higher risk to recidivate are more effective in reducing recidivism than those that do not. Accordingly, a range of interventions are provided that target the specific criminogenic needs of inmates who are higher risk. The long term goals are to increase public safety by reducing recidivism by 50% over 5 years in Palm Beach County. Outcome measures that are used to monitor the impact of the process of these long term goals include a reduction in recidivism rates for the target population. The six fundamental

Florida Department of Law Enforcement  
Justice Assistance Grant - County-wide

strategies of evidence-based correctional practice are integrated into the design of the program.  
The program:

- 1) Objectively Assess Criminogenic Risks and Needs: Inmates are objectively assessed using the LSI-r Risk/Needs Assessment.
- 2) Enhances Intrinsic Motivation: Pre- and Post-Release Staff received training in motivational interviewing and are trained instructors for the Thinking For A Change Curriculum, a cognitive behavior change program for offenders that includes cognitive restructuring, social skills development and development of problem solving skills.
- 3) Targets Higher-Risk Offenders: Medium to high risk offenders are identified using the LSI-r Assessment and receive the most intensive treatment. Lower-risk offenders receive less intensive treatment services.
- 4) Addresses Offenders Greatest Criminogenic Needs: Identifies and targets the inmate's criminogenic (Anti-social attitudes, Anti-social friends, Substance abuse, Lack of empathy, Impulsive behavior) needs through individual assessment of each inmate.
- 5) Uses Cognitive-Behavioral Interventions: Strategies are focused on changing the offender's thinking patterns in order to change future perceptions. The Thinking For A Change curriculum provides the vehicle for change.
- 6) Determines Dosage and Intensity of Services: Proper dosage of time and programming are considered based on the risk of the offender. Higher dosages of programming and interventions are provided to offenders who present elevated risk.

The target population is 5,000 ex-offenders, over the age of 18, returning to Palm Beach County. Funds will be provided for case management, assessments, community support, employment, counseling and evaluation.

The selected agencies are part of an extensive countywide effort to bring evidence based services and results to clients. The overall outcome is to reduce the number of clients who return to jail thereby reducing the recidivism rate.

Palm Beach County will contract with Gulfstream Goodwill and The City of Riviera Beach for the following services:

Case management will include staffing to provide assistance with health care and public assistance benefits. Many will need driver's licenses or identification assistance.

Reports and other items shall be delivered or completed in accordance with the detailed schedule set forth in Exhibit A.

**ARTICLE 3 - PAYMENTS TO THE SERVICE PROVIDER**

- A. The total amount to be paid by the COUNTY under this Contract for all services and materials including, if applicable, "out of pocket" expenses (specified in paragraph C below) shall not exceed a total contract amount of one hundred two thousand, two hundred seventy-nine dollars (\$102,279). The SERVICE PROVIDER shall notify the COUNTY's representative in writing when 90% of the "not to exceed amount" has been reached. The SERVICE PROVIDER will bill the COUNTY on a monthly basis, or as otherwise provided, at the amounts set forth in Exhibit B for services rendered toward the

Approved invoices will then be sent to the Finance Department for payment. Invoices will normally be paid within thirty (30) days following the COUNTY representative's approval.
- C. "Out-of-pocket" expenses are not permissible under this Contract.

If JAG program funds will be used for DNA testing of evidentiary materials, any resulting eligible DNA profiles must be uploaded to the Combined DNA Index System (CODIS), by a government DNA lab with access to CODIS. No profiles generated with JAG funding may be entered into any other non-governmental DNA database without prior express written approval from BJA. For more information, refer to the NIJ FY 2012 DNA Backlog Reduction Program, available at [ncjrs.gov/pdffiles1/nij/sl000989.pdf](http://ncjrs.gov/pdffiles1/nij/sl000989.pdf).

**66. Interoperable Communications Guidance**

Subgrant recipients that are using funds to support emergency communications activities must comply with the current SAFECOM Guidance for Emergency Communication Grants, including provisions on technical standards that ensure and enhance interoperable communications. Emergency communications activities include the purchase of Interoperable Communications Equipment and technologies such as voice-over-internet protocol bridging or gateway devices, or equipment to support the build out of wireless broadband networks in the 700 MHz public safety band under the Federal Communications Commission (FCC) Waiver Order. SAFECOM guidance can be found at [www.safecomprogram.gov/library/lists/library/DispForm.aspx?ID=334](http://www.safecomprogram.gov/library/lists/library/DispForm.aspx?ID=334).

Subgrant recipients Grantees interested in developing a public safety broadband network in the 700 MHz band in their jurisdictions must adhere to the technical standards set forth in the FCC Waiver Order, or any succeeding FCC orders, rules, or regulations pertaining to broadband operations in the 700 MHz public safety band. The subgrant recipient shall also ensure projects support the Statewide Communication Interoperability Plan (SCIP) and are fully coordinated with the full-time Statewide Interoperability Coordinator (SWIC). If any future regulatory requirement (from the FCC or other governmental entity) results in a material technical or financial change in the project, the recipient should submit associated documentation, and other material, as applicable, for review by the SWIC to ensure coordination. Subgrant recipients must provide a listing of all communications equipment purchased with grant award funding (plus the quantity purchased of each item) to FDLE once items are procured during any periodic programmatic progress reports.

**67. Bulletproof Vests**

Subgrant recipients that wish to purchase vests with JAG funds **must certify** that law enforcement agencies receiving vests have a written "mandatory wear" policy in effect. This policy must be in place for at least all uniformed officers before funding can be used by the agency for vests. There are no requirements regarding the nature of the policy other than it being a mandatory wear policy for all uniformed officers while on duty. FAQs related to the mandatory wear policy and certifications can be found at [www.bja.gov/Funding/JAGFAQ.pdf](http://www.bja.gov/Funding/JAGFAQ.pdf).

JAG funds may be used to purchase bulletproof vests for an agency, but may not be used as the 50% match for purposes of the Bulletproof Vest Partnership (BVP) program.
