I. EXECUTIVE BRIEF

Motion and Title: **Staff Recommends Motion to: A) Receive and File** the 2012 Paul Coverdell Forensic Sciences Improvement Grant (2012-CD-BX-0018) through the Florida Department of Law Enforcement to receive \$2,245 to purchase Zebra thermal transfer labels, for the period February 1, 2013 through September 30, 2013; **B) Approve:** a budget amendment of \$ 2,245 in the general fund to establish revenue and expenditure budget; and **C) Authorize** the County Administrator or his designee to execute future grant agreements, amendments, and modifications with the Florida Department of Law Enforcement.

Summary: The National Institute of Justice has awarded a Paul Coverdell Forensic Sciences Improvement Grant to the Palm Beach County Medical Examiner's Office, through the Florida Department of Law Enforcement. The grant funding will be used to purchase Zebra thermal transfer labels, which are water and fluid proof labels used on a daily basis to label evidence, documents and human specimens unique to each Medical Examiner case. **No County match is required for this grant. Countywide (PGE)**

Background and Policy Issues: Palm Beach County is geographically the largest county in the State of Florida and has a population of almost 1.3 million, not including the many tourists, visitors and new or temporary residents. With such a large and diverse population, the Medical Examiner's case load continually increases and currently averages 1,500 cases annually. The Zebra thermal labels are necessary to put water and fluid proof identifying labels on every piece of evidence, every document and every human specimen container for each medical examiner case, to ensure it is easy to tell which case it belongs to.

Reporting Irregularities. The Subrecipient shall promptly notify FDLE, DOJ/OJP, and the Federal cognizant audit agency of any illegal acts, irregularities and/or proposed and actual actions regarding the Grant funds. Illegal acts and irregularities include conflicts of interest, falsification of records or reports, and misappropriation of funds or other assets. The Subrecipient should promptly refer to FDLE and to the DOJ/Office of Inspector General (OIG) any allegation and/or credible evidence that a principal, employee, agent, contractor, subrecipient/subgrantee, subcontractor, or other person has either 1) submitted a false claim for grant funds under the False Claims Act; or 2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct involving grant funds, by contacting DOJ-Office of Chief Financial Officer, Customer Service Branch (CSB), via e-mail ask.ocfo@usdoj.gov or by calling 1-800-458-0786, and/or the Office of the Inspector General (OIG) Mail: Office of the Inspector General, U.S. Department of Justice, Investigations Division, 950 Pennsylvania Avenue, N.W., Room 4706, Washington, DC 20530; E-mail: oig.hotline@usdoj.gov; Hotline: (contact information in English and Spanish): (800) 869-4499 or Hotline Fax: (202) 616-9881.

Environmental Assessment. The Subrecipient agrees to comply with all Federal, State, and local environmental laws and regulations applicable to the development and implementation of the activities to be funded under this award. Environmental Assessment (EA): The Subrecipient agrees and understands that funded activities (whether conducted by the subrecipient or contractors) may require the preparation of an environmental assessment (EA) as defined by the Council on Environmental Quality's Regulations for implementing the Procedural Provisions of the National Environmental Policy Act (NEPA), found at 40 CFR Part 1500. An EA is a concise public document that briefly provides sufficient analysis for determining whether to prepare an environmental impact statement (EIS) or a finding of no significant impact for the proposed activity. If in completing an EA for a proposed activity, potential adverse environmental impacts are identified, the EA will serve as a vehicle for developing either alternative approaches or mitigation measures for avoiding or reducing the identified adverse environmental impacts.

Throughout the term of this award, the Subrecipient agrees that for any activity that is the subject of a completed Environmental Assessment (EA), it will inform NIJ of (1) any change(s) that it is considering making to the previously assessed activity; (2) any changed circumstances, such as a change in the project site's conditions; or (3) any significant new information. The Subrecipient will not implement a proposed change until NIJ, with the assistance of the Subrecipient, has determined whether the proposed change will require additional review under NEPA. Likewise, in the case of new circumstances or information arising, NIJ, with the assistance of the Subrecipient, will determine if any additional environmental impact analysis is necessary. The approval will not be unreasonably withheld as long as any requested modification(s) is consistent with eligible program purposes and found acceptable under an NIJ-conducted environmental impact review process.
