Department: Water Utilities Department

I. EXECUTIVE BRIEF

Motion and title: Staff recommends motion to: 1) adopt a Resolution confirming the special assessment process for Swain Boulevard Gravity Sewer Extension Project; and 2) approve Work Authorization No. 1 to Centerline Utilities, Inc. under the Water Utilities Department (WUD) Continuing Construction Contract (R2013-0551) in the amount of \$99,998.74.

Summary: Petitions in favor of the installation of a wastewater main have been provided by 57% of the property owners in the Swain Boulevard project area. The project will serve seven (7) residential properties currently on septic tanks. Individual assessments of \$45,206.15 per acre are based on 100% of the total project cost. Assessments for the seven (7) properties range from a low of \$6,328.86 to a high of \$30,740.18. The assessment may be paid over 20 years with equal annual payments of principal and 5½% interest. The total assessable cost is \$107,590.63 and includes the costs of surveying, design, drafting, permitting, construction, inspection, administration, and construction contingency. The project will be constructed utilizing a Work Authorization under the WUD Continuing Construction Contract with Centerline Utilities, Inc. (R2013-0551). The Small Business Enterprise (SBE) participation goal established by the SBE Ordinance (R2002-0064) is 15% overall. The contract with Centerline Utilities, Inc. provides for SBE participation of 16.56%. This Authorization includes 10.06% overall participation. The cumulative SBE participation is 10.06% overall. If the actual cost exceeds the total assessable cost, the differential will be covered by WUD's budget. Centerline Utilities, Inc. is not a local company. This item is being continued from the July 16, 2013 Public Hearing. Staff evaluated three (3) optional designs and presented them to the property owners at a meeting on August 12, 2013. Consensus of the four (4) property owners that attended the August 12, 2013 meeting were in favor of the original design. (WUD Project No. 12-072) District 2 (MJ)

Background and Justification: On May 9, 2013, signed petitions were received from a majority of the property owners on Swain Boulevard. The preliminary estimated assessable cost of a 20 year special assessment was \$45,206.15 per acre for the construction of approximately 315 linear feet of sanitary sewer mains, one (1) manhole, seven (7) service connections and the restoration of the road right-of-way to the original (pre-construction) condition. The original signed petition forms are on file and available for public inspection at the Engineering Office of WUD. If the actual cost exceeds the total assessable cost, the differential will be cover by WUD's budget.

On Sunday, June 23, 2013, a Notice of Special Assessment was published in The Palm Beach Post. All property owners subject to assessment have been sent notification by regular mail pursuant to Ordinance 2001-0010. A final informational meeting was held with the property owners prior to the Public Hearing to explain the proposed improvements and the cost of the project.
