I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: a unit price contract with Rangeline Tapping Services, Inc. for the Water Utilities Department Pipe Wet Tapping & Line Stopping Continuing Contract to provide materials and installation services for wet tapping and line stopping of potable water, reclaimed water and wastewater pipelines over a 24 month term with the option of two (2) 12 month renewals in a cumulative amount not to exceed \$4,031,971.

Summary: On October 22, 2013, one (1) bid was received for the Palm Beach County (County) Water Utilities Department Pipe Wet Tapping & Line Stopping Continuing Contract. The contract will be used to expedite the installation of pipe wet taps and line stops for emergency pipe repairs, pipe and valve replacements and construction projects throughout the County's service area. Contract award is for the base contract only, and the contract by itself does not guarantee nor authorize Rangeline Tapping Services, Inc. to perform any work. Work will be assigned during the 24 month contract period by formal work authorizations drawn against this contract, with approvals pursuant to PPM CW-F-050. The unit prices for labor and materials contained in this Contract will be used in determining the cost of work authorizations. Supplements to work authorizations for changes that occur during construction will be subject to the change order limits for construction contracts as established under PPM CW-F-050 with each work authorization considered as an individual construction contract. There shall be no increase in the contract unit prices for the duration of the contract or any renewal terms. The Small Business Enterprise (SBE) participation goal established by the SBE Ordinance (R2002-0064) is 15% overall. This contract with Rangeline Tapping Services, Inc. provides for SBE participation of 100% overall. Rangeline Tapping Services, Inc. is a local company. (WUD Project No. 13-097) Districts 1, 2, 3, 5 and 6 (JM)

Background and Justification: Palm Beach County Water Utilities Department performs maintenance, repair and construction activities on water, wastewater and reclaim water pipelines throughout its service area. This continuing construction contract will reduce the time needed for specialized installation of pipe wet tapping and line stop services needed to complete the utility repairs and improvements. Pipe wet tapping and line stops allow connection to, or shutdown of flow in a piping system without taking the piping system out of service. This increases reliability and reduces the time for necessary and/or emergency repairs.
