GENERAL CONDITIONS

GC 1 ENTIRE AGREEMENT

This Contract embodies the entire agreement between Owner and Contractor and supersedes all other writings, oral agreements, or representations. The parties shall not be bound by or be liable for any statement, representation, promise, inducement or understanding of any kind or nature not set forth herein. No changes, amendments or modifications of any of the terms or conditions of the Contract shall be valid unless reduced to writing and signed by both parties.

GC 2 INDEPENDENT CONTRACTOR

Contractor represents that it is fully experienced and properly qualified to perform the class of work provided for herein, and that it is properly licensed, equipped, organized and financed to perform such work. Contractor shall act as an independent contractor and not as the agent of Owner in performing the Contract, maintaining complete control over its employees and all of its suppliers and subcontractors. Nothing contained in this Contract or any subcontract awarded by Contractor shall create any contractual relationship between any such supplier or subcontractor and Owner. Contractor shall perform all work in accordance with its own methods subject to compliance with the Contract. Contractor represents that all subcontractor agreements entered into shall incorporate by reference the terms and conditions of this Contract, and further warrants that the Owner is an **intended express third party beneficiary** of any such subcontract. Except as specifically and expressly provided for herein, no provision of this Agreement is intended to, or shall be construed to, create any third party beneficiary or to provide any rights to any person or entity not a party to this Agreement.

GC 3 AUTHORIZED REPRESENTATIVES

Before starting work, Contractor shall designate a competent, authorized representative acceptable to Owner to represent and act for Contractor and shall inform Owner in writing, of the name and address of such representative together with a clear definition of the scope of his authority to represent and act for Contractor and shall specify any and all limitations of such authority. At the Preconstruction Conference, Contractor shall provide resumes of key personnel for Owner's approval. Contractor shall keep Owner informed of any subsequent changes in the foregoing. Such representative shall be present or duly represented at the site of work at all times when work is actually in progress. During periods when work is suspended, arrangements for an authorized representative acceptable to Owner shall be made for any emergency work which may be required. All notices, determinations, instructions and other communications given to the authorized representatives of the Contractor shall be binding upon Contractor. Nothing contained herein shall be construed as modifying the Contractor's duty of supervision and fiscal management as provided for by Florida law. The Owner shall designate an authorized representative who will have limited authority to act for the Owner. The Owner will notify the Contractor in writing of the name of such representative(s). The Owner's representative will be a member of the Facilities Development and Operations Department. Facility Users are not authorized Owner representatives. Any work performed by the Contractor without proper authorization or at the sole direction of a User, is performed at the Contractor's risk, and the County shall have no obligation to compensate the Contractor for such work. The Owner has the right to assign various responsibilities of the Owner to the Architect/Engineer of Record, and can do so at any time during the duration of this Contract

with written notice to the Contractor. The Architect/Engineer of Record will provide answers to RFIs, issue Field Bulletins and Field Instructions, and other related duties, and the Contractor agrees to cooperate with the Architect/Engineer.

The Authorized Representative, Qualifying Agents, Project Managers, Superintendents and Supervisors are all subject to prior and continuous approval of the Owner. If, at any time during the term of the Contract, any individual nominally performing any of the positions named above, is, for any reason, unacceptable to the Owner, Contractor shall replace the unacceptable personnel with personnel acceptable to the Owner.

GC 4 NOTICES

Any notices provided for hereunder shall be in writing and may be served either personally on the authorized representative of the receiving party at the jobsite or by certified mail to that party at the addresses shown below:

OWNER: Palm Beach County
2633 Vista Parkway
West Palm Beach, FL 33411

CONTRACTOR: (To be identified after award)

These addresses may be changed by either of the parties by written notice to the other.

GC 5 LAWS AND REGULATIONS

Contractor and its employees and representatives shall at all times comply with all applicable laws, codes, ordinances, statutes, rules or regulations in effect at the time work is performed under this contract.

If, during the term of this Contract, there are any changed or new laws, ordinances or regulations not known or foreseeable at the time of signing this Contract which become effective and which affect the cost or time of performance of the Contract, Contractor shall immediately notify Owner in writing and submit detailed documentation of such effect in terms of both time and cost of performing the Contract. Upon concurrence by Owner as to the effect of such changes, an adjustment in the compensation and/or time of performance will be made.

If any discrepancy or inconsistency should be discovered between the Contract and any law, ordinance, regulation, order or decree, Contractor shall immediately report the same in writing to Owner who will issue such instructions as may be necessary.

However, it shall not be grounds for a Change Order that the Contractor was unaware of or failed to investigate the rules, codes, regulations, statutes, and all ordinances of all applicable governmental agencies having jurisdiction over the Project or the work.

Owner shall not be liable for any costs, delays or damages which Contractor incurs as a result of the actions or orders of any other governmental entity or agency.

GC 6 STANDARDS AND CODES

Wherever references are made in the Contract to standards or codes in accordance with which work is to be performed or tested, the edition or revision of the standards or codes current on the effective date of this Contract shall apply, unless otherwise expressly set forth. Unless otherwise specified, reference to such standards or codes is solely for implementation of the technical portions of such standards and codes. In case of conflict among any referenced standards and codes or between any referenced standards and codes the Owner will determine which shall govern. Contractor acknowledges that compliance with code requirements represents minimum standards for construction and is not evidence that the work has been completed in accordance with the Contract Documents.

GC 7 CODE RELATED INSPECTIONS

The Contractor recognizes that the Palm Beach County Department of Planning, Zoning, and Building (PZ&B) is a separate department within the County that is charged with the inspection of improvements to real property for code compliance. The improvements to be made by the Contractor pursuant to this contract may be subject to inspection by PZ&B. The Contractor agrees that it will not assert, as a County caused delay or as a defense of any delay on the part of the Contractor, any good faith action or series of actions on the part of PZ&B, including, but not limited to PZ&B's refusal to accept any portion of the Contractor's work.

GC 8 GOVERNING LAW

The Contract shall be governed by the laws of the State of Florida and venue of any action shall be in Palm Beach County, Florida.

GC 9 RIGHTS AND REMEDIES

The duties and obligations imposed by the Contract Documents and the rights and remedies available thereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

Except as specifically and expressly provided for herein, no provision of this Contract is intended to, or shall be construed to, create any third party beneficiary or to provide any rights to any person or entity not a party to this Contract.

GC 10 COMMERCIAL ACTIVITIES

Contractor shall not establish any commercial activity or issue concessions or permits of any kind to third parties for establishing commercial activities on lands owned or controlled by Owner. Contractor shall not allow its employees to engage in any commercial activities on the site.

GC 11 COOPERATION WITH OTHERS

Owner and other contractors and subcontractors may be working at the site during the performance of this Contract. Contractor shall fully cooperate with the Owner, Owners designated Representative, and other contractors to avoid any delay or hindrance of their work. Owner may

require that certain facilities be used concurrently by Contractor and other parties and Contractor shall comply with such requirements.

If any part of the Contractor's work depends on proper execution or results from any work performed by the Owner or any separate contractor, the Contractor shall, prior to proceeding with the work, promptly report to the Owner any apparent discrepancies or defects in such other work that render it unsuitable for such proper execution and results. Failure of the Contractor to report such discrepancies or defects shall constitute an acceptance of the Owner's separate contractors' work as fit and proper to receive his work, except as to defects which may subsequently become apparent in such work performed by others. Any costs caused by defective or ill-timed work of others shall be borne by the Contractor unless Contractor gives written notice to Owner, if reasonably possible, prior to proceeding with the work and in any event within three days of commencement of work. In no event shall the Owner be liable to the contractor for delay damages, except as provided for in the Contract Documents.

GC 12 FORMS AND DOCUMENTS

GC 14 TAXES

Contractor shall pay all taxes, levies, duties and assessments of every nature which may be applicable to any work under this Contract. The Contract Sum and any agreed variations thereof shall include all taxes imposed by law. Contractor shall make any and all payroll deductions required by law. Contractor herein indemnifies and holds the Owner harmless from any liability on account of any and all such taxes, levies, duties, assessments and deductions.

GC 15 FEES

Owner will be responsible for the following fees associated with this project: utility connection fees, utility installation fees (including FPL), and water meter charges except for fees associated with Contractor mobilization which have not been waived by Owner. There are no impact fees pursuant to Palm Beach County's Impact Fee Ordinance associated with this project.

GC 16 UTILITIES

Owner will provide electrical power to the project site.

GC 17 SUCCESSORS, ASSIGNS AND ASSIGNMENT

The Owner and the Contractor each binds itself, its officers, directors, qualifying agents, partners, successors, assigns and legal representatives to the other party hereto and to the partners, successors, assigns and legal representatives of such other party in respect to all covenants, agreements and obligations contained in the Contract. It is agreed that the Contractor shall not assign, transfer, convey or otherwise dispose of the contract or its right, title or interest in or to the same or any part thereof, or allow legal action to be brought in its name for the benefit of others, without previous consent of the Owner and concurred to by the sureties.

GC 18 EXAMINATION OF CONTRACTOR'S RECORDS

The Owner shall, until the expiration of four years after final payment under this Contract, have access to, and the right to examine any directly pertinent books, documents, papers and records of the Contractor involving transactions relating to this Contract, and to make copies, excerpts and transcriptions thereof.

GC 19 COORDINATION AND CORRELATION OF DRAWINGS AND SPECIFICATIONS

The Contractor represents that the Contractor, Subcontractors, material and equipment suppliers have compared all Drawings and Specifications that Contractor has determined are applicable to, or which may impact, Contractor's work and have compared and reviewed all general and specific details on the Drawings and that all conflicts, discrepancies, errors and omissions, which are within the commonly accepted knowledge base of similarly situated contractors, subcontractors, trades persons, manufacturers or other parties required to carry out the Work involved in this Contract, have been either corrected or clarified prior to execution of this Contract.

The Contractor represents that the Contract Sum represents the total cost for complete and functional systems and therefore, the Contractor's review and comparison of all Drawings has taken into consideration the total and complete functioning of all systems.

GC 20 PERMIT DRAWINGS AND SPECIFICATIONS

To the extent that any of Contractor's work is required to be permitted, Contractor shall provide the Owner with a complete set of the permitted drawings, documents, and addendum within five (5) days of issuance by the appropriate Building Official. If the permitted set of drawings

changes the scope of the work to be performed, the Contractor shall notify the Owner, and Architect/Engineer of Record within thirty (30) days of receipt of the permitted Drawings and such notification shall contain a written description of the change, the cost and time, if any. Failure to provide such notice within thirty (30) days shall be a complete waiver by the Contractor of all additional cost and time and the Contractor shall perform the work at his expense and complete the work in accordance with the Schedule and in no event shall Contractor recover delay or consequential damages.

GC 21 CONTRACT INTERPRETATION

All claims of Contractor and all questions the Contractor may have concerning interpretation or clarification of this Contract or its acceptable fulfillment shall be submitted immediately in writing to Owner for resolution. Owner, or its representatives, will render its determination concerning such resolution, which determination shall be considered final and conclusive unless Contractor files a written protest pursuant to GC 22 "Disputes". The Contractor's protest shall state clearly and in detail the basis thereof. Owner will consider Contractor's protest and render its decision thereon within twenty-one (21) calendar days. If Contractor does not agree with the Owner's decision, the Contractor shall immediately deliver written notice to that effect to the Owner.

Contractor is solely responsible for requesting instructions or interpretations and is solely liable for any cost and/or expenses arising from its failure to do so. Contractor's failure to protest Owner's determinations, instructions, clarifications or decisions within fourteen (14) calendar days after receipt thereof shall constitute a waiver by Contractor of all its rights to further protest, judicial or otherwise.

GC 22 DISPUTES

Any dispute relating to a question of fact arising under this Contract shall be resolved through good faith efforts upon the part of Contractor and Owner or its representatives. At all times, Contractor shall carry on the work and maintain his progress schedule in accordance with the requirements of the Contract and the determination of the Owner or its representatives, pending resolution of any dispute. Any dispute that is not disposed of by mutual agreement shall be decided by the Owner or its representatives who shall reduce such decision to writing. The decision of the Owner or its representatives shall be final and conclusive.

GC 23 SUSPENSION

Owner may, at its sole option, decide to suspend at any time the performance of all or any portion of work to be performed under the Contract. Contractor will be notified of such decision by Owner in writing. Such notice of suspension of work may designate the amount and type of plant, labor and equipment to be committed to the work. During the period of suspension, Contractor shall use its best efforts to utilize its plant, labor and equipment in such a manner as to minimize costs associated with suspension.

- A. Upon receipt of any such notice, Contractor shall, unless the notice requires otherwise:
1. immediately discontinue work on the date and to the extent specified in the notice;
 2. place no further orders or subcontracts for material, services, or facilities with respect to suspended work other than to the extent required in the notice;

3. promptly make every reasonable effort to obtain suspension, upon terms satisfactory to Owner, of all orders, subcontracts and rental agreements to the extent they relate to performance of work suspended;
4. continue to protect and maintain the work including those portions on which work has been suspended, and
5. take any other reasonable steps to minimize costs associated with such suspension.

B. As full compensation for such suspension, Contractor will be reimbursed for the following verifiable costs (without profit), without duplication of any item, to the extent that such costs directly result from such suspension of work:

1. A standby charge to be paid to Contractor during the period of suspension of work which standby charge shall be sufficient to compensate Contractor for keeping, to the extent required in the notice, its organization and equipment committed to the work in a standby status;
2. All reasonable costs associated with mobilization and demobilization of Contractor's plant, forces and equipment;
3. An equitable amount to reimburse Contractor for the cost of maintaining and protecting that portion of the work upon which work has been suspended; and
4. If as a result of any such suspension of work the cost to Contractor of subsequently performing work is increased or decreased, an equitable adjustment will be made in the cost of performing the remaining portion of work.

In no event shall the Contractor be entitled to assert a claim for home office overhead in accordance with the Eichleay Formula or otherwise, in the event of an Owner suspension. Upon receipt of notice to resume suspended work, Contractor shall immediately resume performance of the suspended work to the extent required in the notice. Any claim on the part of Contractor for time and/or compensation arising from suspension shall be made within twenty-one (21) calendar days after receipt of notice to resume work and Contractor shall submit for review a revised construction schedule. No adjustment shall be made for any suspension to the extent that performance would have been suspended, delayed, or interrupted by any Contractor's non-compliance with the requirements of this Contract.

GC 24 DECLARATION OF DEFAULT

The failure of the Contractor to supply enough properly skilled workers or material, or to make prompt payment to Subcontractors or for materials or labor or to obey laws, ordinances, rules, regulations or orders of public agencies having jurisdiction, or to comply in any way with the Contract Documents, shall be sufficient grounds for the Owner to find the Contractor in substantial default and that sufficient cause exists to terminate the Contract and to withhold payment or any part thereof until the cause or causes giving rise to the default has been eliminated by the Contractor and approved by the Owner. If a finding of default is made, the Contractor and its Surety shall remain responsible for performance of the requirements of the Contract Documents unless and until the Owner terminates the Contract. Upon a finding of default, the Owner shall set a reasonable time within which the Contractor and its Surety shall eliminate the cause or causes of default. When the basis for finding of default no longer exists, the Owner shall notify the Contractor and its Surety in writing that the default has been corrected and that the Contractor is no longer in default. If the Contractor fails to correct the default within the time allowed, the Owner

may terminate the Contract and the employment of the Contractor, without otherwise waiving its rights against the Contractor or its Surety.

GC 25 TERMINATION FOR DEFAULT

Notwithstanding any other provisions of this Contract, Contractor shall be considered in default of its contractual obligation under this contract if it:

- A. Performs work which fails to conform to the requirements of this Contract;
- B. Fails to meet the contract schedule or fails to make progress so as to endanger performance of this Contract;
- C. Abandons or refuses to proceed with any or all work including modifications directed pursuant to the clause entitled "CHANGES"; or
- D. Fails to fulfill any of the terms of this Contract.

Upon the occurrence of any of the foregoing, Owner or its project representatives shall notify Contractor in writing of the nature of the failure and of Owner's intention to either terminate the Contract for default, or to declare the contractor to be in default and make demand upon its Surety to perform, at its sole option.

If Contractor or its Surety(ies) does not cure such failure within three (3) calendar days from receipt of notification, or sooner if consideration of safety to persons is involved, or if Contractor or its Surety(ies) fails to provide satisfactory evidence that such default will be corrected, Owner may, without notice to Contractor's Surety(ies), if any, terminate in whole or in part Contractor's right to proceed with work by written notice and prosecute the work to completion by contract or by any other method deemed expedient. Owner may take possession of and utilize any materials, plant, tools, equipment, and property of any kind furnished by Contractor and necessary to complete the work.

Contractor and its sureties, if any, shall be liable jointly and severally for all costs in excess of the contract price for such terminated work reasonably and necessarily incurred in the completion of the work as scheduled, including cost of administration of any contract awarded to others for completion and for Liquidated Damages.

Upon termination for default Contractor shall:

- A. immediately discontinue work on the date and to the extent specified in the notice and place no further purchase orders or subcontracts to the extent that they relate to the performance of work terminated;
- B. inventory, maintain and turn over to Owner all materials, plant, tools, equipment, and property furnished by Contractor or provided by Owner for performance of work;
- C. promptly obtain cancellation upon terms satisfactory to Owner of all purchase orders, subcontracts, rentals, or any other agreements existing for performance of the terminated work or assign those agreements to Owner as directed;
- D. cooperate with Owner in the transfer of information and disposition of work in progress so as to mitigate damages;
- E. comply with other reasonable requests from Owner regarding the terminated work; and

- F. continue to perform in accordance with all of the terms and conditions of the Contract such portion of work that is not terminated.

If, upon termination pursuant to this clause, it is determined for any reason that Contractor was not in default, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the clause entitled "OPTIONAL TERMINATION".

GC 26 OPTIONAL TERMINATION

Owner may, at its option, terminate the Contract, in whole or in part at any time by written notice thereof to Contractor, whether or not Contractor is in default. Upon any such termination, Contractor hereby waives any claims for damages from the optional termination, including loss of anticipated profits, on account thereof, but as the sole right and remedy of Contractor, Owner shall pay Contractor in accordance with Subparagraphs below, provided, however, that those provisions of the Contract which by their very nature survive final acceptance under the Contract shall remain in full force and effect after such termination.

- A. Upon receipt of any such notice, Contractor and its Surety shall, unless the notice requires otherwise:
 - 1. Immediately discontinue work on the date and to the extent specified in the notice;
 - 2. Place no further orders or subcontracts for materials, services, or facilities, other than as may be necessary or required for completion of such portion of work under the Contract that is not terminated;
 - 3. Promptly make every reasonable effort to obtain cancellation upon terms satisfactory to Owner of all orders and subcontracts to the extent they relate to the performance of work terminated or assign to Owner those orders and subcontracts and revoke agreements specified in such notice;
 - 4. The Contractor agrees to assign all Subcontracts required for performance of this Contract to the Owner;
 - 5. The Contractor shall include in all Subcontracts, equipment leases and purchase order, a provision requiring the subcontractor, equipment lessor or supplier, to consent to the assignment of their Subcontract to the Owner;
 - 6. Assist Owner, as specifically requested in writing, in the maintenance, protection and disposition of property acquired by Owner under the Contract; and
 - 7. Complete performance of any work which is not terminated.

- B. Upon any such termination, Owner will pay to Contractor an amount determined in accordance with the following (without duplication of any item):
 - 1. All amounts due and not previously paid to Contractor for work completed in accordance with the Contract prior to such notice, and for work thereafter completed as specified in such notice.
 - 2. The reasonable cost of settling and paying claims arising out of the termination of work under subcontracts or orders as provided in Subparagraph A.3. above.
 - 3. The verifiable costs incurred pursuant to Subparagraph A.5. above.
 - 4. Any other reasonable costs which can be verified to be incidental to such termination of work.

The foregoing amounts will include a reasonable sum, under all of the circumstances, as profit for all work satisfactorily performed by Contractor.

Contractor shall submit within 30 days after receipt of notice of termination, a proposal for an adjustment to the contract price including all incurred costs described herein. Owner shall review, analyze, and verify such proposal, and negotiate an equitable adjustment, and the Contract shall be amended in writing accordingly.

GC 27 EXTENSION OF TIME/NO DAMAGES FOR DELAY

If the Contractor's performance of this Contract is delayed, which delay is beyond the reasonable control and without the fault or negligence of the Contractor or its subcontractors, or by changes ordered in the Work and in either event where such delay or change in the work impacts the CRITICAL PATH, then the Contract time shall be extended by Change Order as determined by the Owner.

The Contractor must request the extension of time in writing and must provide the following information within the time periods stated hereafter. Failure to submit such information and in compliance with the time requirements hereinafter stated, shall constitute a waiver by the Contractor and a denial of the claim for extension of time:

- A. Nature of the delay or change in the work;
- B. Dates of commencement/cessation of the delay or change in the work;
- C. Activities on the progress schedule current as of the time of the delay or change in the work affected by the delay or change in the work;
- D. Identification and demonstration that the delay or change in work impacts the CRITICAL PATH (submittal of CPM schedule);
- E. Identification of the source of delay or change in the work;
- F. Anticipated impact extent of the delay or change in the work; and
- G. Recommended action to minimize the delay.

The Contractor acknowledges and agrees that the evaluation of time extensions will be based upon the following criteria:

- All schedule updates, submittals and other requirements of this General Condition have been met;
- The delay must be beyond the control of the Contractor and subcontractors and due to no direct or indirect fault of the Contractor;
- The delay which is the subject of the time extension must result in a direct delay to the Critical Path;
- The schedule must clearly display that the Contractor has used, in full, all the float time. Float time is not for the exclusive use of either the Contractor or the Owner; and
- If adverse weather conditions are the basis for a Claim for additional time, such Claim shall be submitted within thirty (30) days of occurrence and shall be documented by data substantiating that weather conditions were abnormal for the period of time required for completion of the Work, could not have been reasonably anticipated, and that weather conditions had an adverse effect on the scheduled construction.

The Owner's determination as to the total number of days of contract extension will be based upon the computer produced construction schedule current at the time of the delay event.

The Contractor shall not be entitled to any extension of time for delays resulting from any cause unless it shall have notified the Owner in writing within twenty-four hours (24) after the commencement of such delay or 96 hours of knowledge of a potential delay, whichever is earlier. In any event, within seven (7) days of commencement of the delay, the Contractor shall provide in writing the information stated above.

The Contractor shall not be entitled to and hereby waives, any and all damages which it may suffer by reason of Act of God, unforeseen condition, delay, acceleration, cardinal changes, loss of efficiency or any other impacts to the work or time of performance and further, hereby waives all damages which it may suffer by reason of these events, including, but not limited to lost profits, overhead (whether determined by the Eichleay Formula or otherwise), increased insurance costs, loss of bonding capacity or lost profits on alternate or unperformed contracts, supervision, or home office expense. Contractor hereby affirms that the extension of time granted herein is the Contractor's sole and exclusive remedy. Apart from extension of time, no payment of claim for damages shall be made to the Contractor as compensation for damages for any delays or hindrances from any cause whatsoever in the progress of the work whether such delay be avoidable or unavoidable.

The failure of Contractor to acquaint itself with any applicable condition will not relieve it from the responsibility for properly estimating either the difficulties or the costs of successfully and timely performing the Contract.

GC 33 DIFFERING CONDITIONS

Contractor shall notify Owner, within 24 hours of discovery, in writing and before proceeding with any work which Contractor believes constitutes a differing condition with respect to: (1) latent physical conditions at the jobsite differing materially from those indicated in this contract; or (2) unknown physical conditions at the jobsite, which conditions could not have been discovered during Contractor's efforts to comply with GC 32, and which are of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract.

Owner will, as promptly as practicable, investigate such conditions and if it determines that such conditions do materially so differ and cause an increase or decrease in Contractor's cost of or the time required for performance of any part of any work under this contract, an equitable adjustment will be made and the contract modified in writing accordingly. No claim of Contractor under this clause will be allowed unless Contractor has given the required notice.

GC 34 ACCESS TO WORK AREAS

The Contractor is responsible for immediate cleanup of any debris deposited along the access route as a result of his construction traffic.

Only new, unused items of recent manufacture, of designated quality, but in no event less than the standard quality for the improvements, free from defects, will be accepted. Rejected items shall be removed immediately from the work and replaced with items of specified quality. Failure by Owner to order removal of rejected materials and equipment shall not relieve Contractor from responsibility for quality of the materials supplied nor from any other obligation under the Contract Documents.

Contractor shall continuously check architectural and structural clearances for accessibility of equipment and mechanical and electrical systems. No allowance of any kind will be made for Contractor's negligence to foresee means of installing equipment into position inside structures.

No work defective in construction or quality, or deficient in meeting any requirement of the contract drawings and specifications will be acceptable regardless of Owner's failure to discover or to point out defects or deficiencies during construction; nor will the presence of field representatives at the work or the satisfaction of the Work meeting applicable code requirements relieve Contractor from responsibility for the quality and securing progress of work as required by the Contract Documents. The Owner shall notify the Contractor of defective or unacceptable work if the Owner discovers such. Defective work revealed within the time required by

If an item is found to be unavailable, Contractor shall notify Owner immediately of recommended substitute(s) to permit Owner's selection of a suitable substitute.

This function by Owner will apply both to approvals for the Contract as initially signed, and to approvals for changes to Contract by modifications during progress of the work.

GC 42 SUBSTITUTIONS

Prior to proposing any substitute item, Contractor shall satisfy itself that the item proposed is, in fact, equal or better than that specified, that such item will fit into the space allocated, that such item affords comparable ease of operation, maintenance and service, that the appearance, longevity and suitability for the climate are comparable, and that by reason of cost savings, reduced construction time, or similar demonstrable benefit, the substitution of such item will be in Owner's interest, and will in no way impact detrimentally upon the project completion date and schedule.

The burden of proof of equality of a proposed substitution for a specified item shall be upon Contractor. Contractor shall support its request with sufficient test data and other means to permit Owner to make a fair and equitable decision on the merits of the proposal. Contractor shall submit drawings, samples, data and certificates and additional information as may be required by the Owner for proposed substitute items.

Any item by a manufacturer other than those specified or of brand name or model number or of generic species other than those specified will be considered a substitution. Owner will be the sole judge of whether or not the substitution is equal in quality, utility and economy to that specified. Contractor shall allow an additional 15 days for Owner's review of substitution. All requests for substitutions with submittal data must be made at least fifty (50) days prior to the time Contractor must order, purchase or release for manufacture or fabrication. Materials and methods proposed as substitutions for specified items shall be supported by certification of their approval

for use by all governmental agencies having jurisdiction over use of specific material or method. Substitutions may not be permitted in those instances where the products are designed to match artistic design, specific function or economy of maintenance. Approval of a substitution shall not relieve Contractor from responsibility for compliance with all requirements of the Contract. Contractor shall coordinate the change with all trades and bear the expense for any changes in other parts of the work caused by any substitutions.

If owner rejects Contractor's substitute item on the first submittal, Contractor may make only one additional request for substitution in the same category. As required by Owner, Contractor shall supply schedules and progress reports for Owner's use in expediting and Contractor shall cooperate with Owner and require its subcontractors and suppliers to cooperate with Owner in such expediting. Any expediting performed by Owner shall not relieve Contractor of its sole and primary responsibility for timeliness of delivery of the equipment and material to be furnished under this Contract.
