Agenda Item #: 3-C-2

PALM BEACH COUNTY BOARD OF COUNTY COMMISSIONERS AGENDA ITEM SUMMARY

Meeting Date: September 9, 2014 [x] Consent [] Regular
[] Workshop [] Public Hearing
Department:
Submitted By: Engineering & Public Works Department

Submitted For: Roadway Production Division

I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: a task order to the annual structural contract, R2014-0225, in the amount of \$153,290.10, with R.J. Behar & Company, Inc. (RJB), for professional services for the Drexel Road over Lake Worth Drainage District L-2 Canal bridge replacement project (Project).

SUMMARY: Approval of this task order will provide the professional services necessary for the preparation of design plans and construction bid documents for the Project. The Small Business Enterprise (SBE) goal for the Project is 15%. RJB has achieved 100% SBE participation for this Project. RJB has an office in Palm Beach County.

District 2 (MRE)

Background and Justification: On March 11, 2014, the Board of County Commissioners (Board) approved an annual contract, R2014-0225, with RJB to provide professional services required for Palm Beach Countywide (County) structural engineering projects. The County now desires RJB to prepare design plans and construction bid documents for the Project as detailed in Exhibit "A" of the attached task order. The fee, as detailed in Exhibit "A" of the attached task order, has been negotiated as just and reasonable compensation as follows:

After reviewing the attached task order and finding it in proper order, staff recommends the Board's approval.

Attachments:

WORK TASK ORDER TO ANNUAL CONTRACT BETWEEN

PALM BEACH COUNTY AND R.J. BEHAR & COMPANY, INC.

FOR PROFESSIONAL ENGINEERING SERVICES ON

DREXEL ROAD OVER LWDD L-2 CANAL BRIDGE REPLACEMENT

PROJECT NO.: 2014510
PALM BEACH COUNTY, FLORIDA

	THIS WORK TASK ORDER TO THE ANNUAL CONTRACT, made and entered into this day
of _	2014 by and between Palm Beach County, hereinafter called the
COL	JNTY, and R.J. Behar & Company, Inc., a Florida Corporation with an address of 6861 S.W.
	Avenue, Suite 302, Pembroke Pines, Florida 33332, hereinafter called the CONSULTANT.

WITNESSETH

WHEREAS, the COUNTY and CONSULTANT entered into an Annual Contract for structural engineering on a work task order basis on March 11, 2014 (R2014-0225).

WHEREAS, the COUNTY desires the CONSULTANT to perform structural engineering services for Drexel Road over LWDD L-2 Canal Bridge Replacement, Palm Beach County, Florida (hereinafter called the PROJECT); and,

WHEREAS, the CONSULTANT agrees to perform the structural engineering services required for preparing design plans and construction bid documents, including related documents for the PROJECT; and,

Re: Drexel Road over LWDD L-2 Canal Bridge Replacement Project No.: 2014510

WHEREAS, the following fee has been negotiated and found to be reasonable compensation for these professional services to be performed by the CONSULTANT:

Basic Services in a lump sum fee of \$92,949.00;

Reimbursable Expenses capped at \$29,027.10;

Optional Services not to exceed \$31,314.00;

Totaling \$153,290.10

NOW, THEREFORE, THIS INDENTURE WITNESSETH: That for and in consideration of the mutual benefits to flow from each to the other, the parties hereto agree as follows:

- The CONSULTANT agrees to provide professional services as described in Exhibit "A" of the Work Task Order known as "SCOPE OF WORK & FEE".
- 2. The **CONSULTANT** agrees to "CERTIFICATION" statements as described in Exhibit "B" of the Work Task Order.
- 3. The **CONSULTANT** agrees to Small Business Enterprise (SBE) Participation, described in Exhibit "C" of the Work Task Order.
- 4. The **CONSULTANT** has provided sub-consultants Letter of Intent to perform as an SBE as described in Exhibit "D" of the Work Task Order.
- 5. The **COUNTY** agrees to pay the **CONSULTANT** a fee of One Hundred Fifty-Three Thousand Two Hundred Ninety Dollars and Ten Cents (\$153,290.10).

Except as hereby amended, changed or modified, all other terms, conditions and obligations of the Contract dated **March 11, 2014 (R2014-0225)**, shall remain in full force and effect.

Re: Drexel Road over LWDD L-2 Canal Bridge Replacement Project No.: 2014510

IN WITNESS WHEREOF, the parties hereto have made and executed this Work Task Order as of the day and year first above written.

Bridge Replacement for Drexel Road across the L-2 Canal (LWDD) Palm Beach County Project No. 2014510 SCOPE OF SERVICES

1.0 PROJECT DESCRIPTION

1.1 Palm Beach County's Road and Bridge Division has determined to replace the existing bridge on Drexel Road which crosses the L-2 Canal, owned by Lake Worth Drainage District (LWDD), in unincorporated Palm Beach County, Florida. Please refer to Exhibit A, at the end of this section, for reference location map and project aerial.

2.0 BASIS OF SCOPE

2.1 Bridge Replacement Design

The County has requested replacement of the existing bridge over the L-2 Canal with a standard Reinforced Concrete Pipe (RCP) or Concrete Box Culvert (CBC). The following scope of services will be based on providing a culvert solution.

2.2 Roadway & Civil Design

Drexel Road will be reconstructed as necessary to accommodate the bridge replacement and road widening. The proposed roadway section will widen the existing two lane road to three lanes, between south of Fair Green Road and Meadow Brook Mobile Home Park. The replacement culvert will be extend across the entire 80' Right-of-way, providing endwalls 22' from the travel way, to avoid the need for guard rail. Project Length: The proposed project length is approximately 1,400 L.F., based on the length of Bi-directional Left Turn and the required transitions:

- 2.2.1 Typical Section (Roadway) –The proposed three lane section will include one 12' bi-directional left turn lanes, two 11' lanes with 4' paved shoulders, following the three-lane phased standard from the standard County 80' R/W five lane section. The design speed be 40 mph. The proposed sidewalks will be designed for a 0.015 maximum cross slope and will cross the proposed L-2 Culvert at the ultimate five lane location (if practical).
- 2.2.2 Roadway Design: The replacement of the existing bridge over the L-2 Canal is assumed to include the installation of RCP or CBC. Drexel Road is planned for a minor amount of reconstruction, transitioning from the 2 lane to the 3 lane section, which will be extended from Fair Green Road to Meadow Brook Mobile Home Park. The affected side streets include Fair Green and Oroverde Boulevard and the Meadow Brook Mobile Home Park entrance, which will be partially reconstructed and/or milled and resurfaced to complete the smooth transition to the existing pavement. The proposed sidewalks will be installed in the ultimate location, as per the County standard five lane section (back of sidewalk 1' from R/W line).
- 2.2.3 Drainage: As noted above, the existing bridge will be replaced by a culvert. From preliminary indications, the Lake Worth Drainage District (LWDD) has recommended replacing the bridge with a 72"

RCP set at an invert elevation of 8.19 NGVD. Further, standard straight endwalls, will be placed outside the clear zone, requiring no railing, approximately 100 L.F. in length. The Canal will be reconstructed and transition to match the existing, with a minimum of 25' of rip-rap canal lining, on each end.

In addition to the culvert construction, a minimum of 4 inlets is anticipated to be constructed to replace the existing runoff collection. The proposed inlets will connect directly to proposed RCP or CBC, using existing or new conveyance. Proposed swales will be constructed between the roadway and sidewalks and is anticipated to be sufficient for providing water quality for the increased area of impervious. If the proposed swales are insufficient to meet the water quality needs, exfiltration trenches, beneath the sidewalks, will be considered. However, no offsite ponds are anticipated or included in this effort.

- 2.2.4 Utilities: Utility coordination will be required. Seven (7) separate utility owners have been identified within the project area, with at least six aerial utility crossings of the L-2 Canal will need to be coordinated with the proposed construction. Each of the aerial crossings is anticipated to be affected by the proposed culvert construction and may need to be relocated. The anticipated utility owners include: FPL, Comcast, ATT (F.O. & Dist.), FPU (Gas), Palm Beach County Water Utilities (Water Main and Sewer) and Palm Beach County Traffic Operations. The coordination shall be conducted in accordance with Palm Beach County standard procedures.
 - 2.2.4.1 Optional Service: Provide design for replacement of 6" Water Main, 6" Force Main and 4" Force Main owned by Palm Beach County Water Utilities, conflicting with the proposed bridge replacement construction, within the affected proposed construction limits. Please see hourly
- 2.2.5 Maintenance of Traffic: A traffic control plan will be developed for the project which anticipates the need to install a detour to permit full roadway closure during construction. Meetings with local officials may be required; however, no public involvement is anticipated or included in this effort.
- 2.3 Permitting: The standard permit will be required from LWDD and a permit modification from SFWMD; possibly a Nationwide Permit will be required from USACE for both the bridge and box alternatives and a separate NPDES permit will be required from SFWMD and FDEP.
- 2.4 Coordination: RJ Behar will attend all appropriate meetings in support of project requirements, including meetings with Utility Owners, Permitting Agencies and Palm Beach County's other involved Departments, including Road and Bridge and Traffic. Anticipated meetings and coordination efforts have been identified in the attached staffhour distributions with respect to the associated discipline.
- 2.5 Post Design Services (Optional Service): RJ Behar will provide post design services to assist the County's Construction management group, during construction, as an optional service.
- 2.6 Geotechnical Engineering:

See attached Exhibit C for the geotechnical scope of service.

2.7 Survey and R/W Engineering:

See attached Exhibit D for the survey scope of service.

3.0 SCOPE OF BASIC SERVICES AND FEE

The cost breakdown for each element is attached for your review.

4.0 PROPOSED SCHEDULE

The proposed schedule is based on developing this project within Palm Beach County's larger bridge replacement program. The schedule of plan delivery is based on input from the project scoping meeting and the County's initial priorities. We would certainly be happy to discuss any modification to the proposed schedule in order to better meet the County's needs.

The schedule of activities will follow the County's standard project procedures, including:

1. Survey.

2. Meet Permit Agencies & Utility owners concurrent with survey.

- 3. Prepare & submit Preliminary Engineering Evaluation and Typical Section package for approval.
 - a) Client review; and

b) Update plans per review comments.

- 4. 35% plans and submittal (submittal to be of sufficient detail for 35% plans & permit submittal):
 - a) Client review; and
 - b) Update plans per review comments.
- 5. 65% plans and submittal (submittal to be of sufficient detail for 65% plans & permit submittal):
 - a) Client review; and
 - b) Update plans per review comments.
- 6. Utility Conference.
- 7. Submit permits.
- 8. Receive permits.
- 9. 96% plans and submittal:
 - a) Prepare and submit utility plans to Utility Owners through County's Utility Coordinator;
 - b) Client review; and
 - c) Update plans per review comments.
- 10. Prepare and submit 100% plans, specifications package, estimate and contract documents:
 - 1. Client review; and
 - 2. Update plans, specifications and contract package per review comments.
- 11. Prepare and submit Final plans, specifications package, estimate and contract documents.

The tentative project schedule is anticipated to require 12 months to complete from Notice to proceed. The tentative project schedule will be revised in accordance to the agreed schedule of delivery before conclusion of contract negotiations and notice to proceed.

GEOTECHNICAL ENGINEERING

June 27, 2014

February 26, 2014 RADISE Geotechnical Scope of Work

Drexel Road and the L-2 Canal

Geotechnical Field Services

- Mobilize drilling equipment to the site.
- Stake borings/utility clearance
- Coordinate and develop maintenance of traffic (MOT) plans
- Perform Two 40 feet deep Standard Penetration Test (SPT) borings for the proposed culvert structure, continuous SPTs sampling will be perform to a depth of 10 feet and at 5 foot depth intervals thereafter
- Perform five pavement cores, three pavement cores on the north side of the canal and two
 pavement cores on the south side of the canal, to determine the existing pavement thicknesses and
 composition
- Perform five auger borings to depths of 10 feet at the pavement core locations to determine the subsurface conditions such as soil type and depth to water table

Laboratory Testing

- Visual Soil Classification
- Moisture Content
- Sieve Analysis
- Fine Content Determination
- Organic Content
- Atterberg Limit Tests
- Corrosion Series

Drafting Services

- SPT borings drafting
- Auger borings drafting

Professional Services

- Document collection review
- Develop detailed boring location plan
- Drilling access permits
- Coordination of field work
- Tabulate all laboratory data
- Estimate design groundwater level for structures
- Foundation evaluation and recommendations for the proposed culvert and pavement improvements.

Submittals

Structures (Culvert & Pavement)

SURVEY AND RIGHT OF WAY ENGINEERING

May 9, 2014

May 7, 2014

Mr. Sean O'Keefe, P.E. R. J. Behar & Company, Inc. 12788 Forest Hill Boulevard Suite 2003B Wellington, FL 33414

Re: Drexel Road - Roadway Design Survey

Dear Mr. O'Keefe:

Thank you for the opportunity to provide you with the following services for the subject site. This proposal is based on documentation and information provided by your office. We will review any title work supplied by you. The scope of services is as follows:

SCOPE OF SERVICES

I. HORIZONTAL PROJECT NETWORK CONTROL

Using the information supplied by Palm Beach County, we will establish the Right-of-Way for Drexel Road. A traverse will be run through the route and all found monumentation will be tied in. The survey will be oriented to Palm Beach County horizontal control (NAD 83/90 Adjustment). The Palm Beach County Survey Department will supply all the sectional control information along the proposed route.

The proposed survey includes 2,400 LF of Drexel Road beginning 880' south of Fair Green Boulevard, as illustrated in Exhibit 'A'.

II. VERTICAL PROJECT NETWORK CONTROL

A level run will be performed along the route using the existing Palm Beach County benchmarks (NAVD 1988). Benchmarks will be set along the route, not exceeding 600 feet apart. All benchmarks will be set outside of the proposed right of way.

III. BASELINE LAYOUT

We will lay out the baseline at 100-foot intervals setting appropriate points at each station. The baseline will be laid out within the limits of the route. These baseline points will be used in the topographic and cross section phase to locate features and facilitate checks.

O'Keefe May 7, 2014 Page 2

IV. REFERENCE POINTS

We will reference the baseline at intervals not exceeding 1400 feet along the route. These points will be used to replace disturbed baseline stations. We propose to set three (3) references.

V. SECTION TIES AND PROPERTY TIES

We will tie in section corners and property corners along the route to check the present alignment of Drexel Road. We will try to locate as many corners as possible to positively establish the current right of ways.

VI. SIDE STREET SURVEYS

A topographic survey will be done on all side streets to 100 feet from the right of way line of Drexel Road.

VII. TOPOGRAPHY

A topographic survey will be performed along the route. This survey will tie in all visible features such as, but not limited to, signs, light poles, guardrails, utilities, walks, edge of pavement, curbing, drainage structures, striping, trees (to 10' outside of right-of-way) etc. These locations will show all features within the corridor from right of way to right of way extending to 10 feet outside the proposed right of way (if provided prior to start of field work).

VIII. CROSS SECTIONS

Cross sections will be done along the route at 100-foot intervals and at inlet locations. These cross sections will cover the roadway to the right of way lines and extend to 25 feet outside of the proposed right of way (if provided prior to start of field work).

IX. ASBUILTS

We will attempt to get asbuilt information on all the pipes leading out of any storm or sanitary sewer structures found. We will show invert elevations, pipe sizes and materials for all pipes located including outfall pipes.

X. BRIDGE SURVEY

We will do a detailed drawing of the existing structure and obtain elevations and locations. We will measure elevations of abutments, bridge piers, wingwalls and obtain soundings across the canal under direction from you. We will provide low member elevation at midspan on the east and west side of the bridge and the pedestrian bridge. We will provide top of bank and edge of water elevations to 10' outside the right-of-way. We will provide a DTM for the bridge and the pedestrian bridge. We will obtain elevations at the begin and end bridge and at all breaks in elevation, including all four 45 degree wingwalls. We will also obtain the elevation and offset of overhead electric wires at midspan of bridge on the west side of the road.

Exhibit "A" - Page 29 of 31

O'Keefe May 7, 2014 Page 3

XI. LAKE WORTH DRAINAGE DISTRICT (LWDD) DRAWING

We will perform six (6) cross sections across the LWDD L-2 Canal. The sections will be taken at the face of the bridge on each side and at centerline of bridge, under the pedestrian bridge and two at 50' in each direction. We will prepare a drawing of the canal sections with plan (1"-10") and profile (1"=10") views.

XII. CLOSURE

A drawing will be produced which will show all the features located. We propose to provide R. J. Behar & Company, Inc. with an AutoCAD file in the version requested. Any additional work will be done on an hourly basis as approved by you. We will perform the scope of services for a lump sum fee of \$15,062.50 (see Attachment 'A' for an hourly breakdown). Please do not hesitate to call me with any questions you might have regarding this proposal. We look forward to working with you on this project.

Sincerely,

Brown & Phillips, Inc.

John E. Phillips III, P.L.S.
Principal

Drexel Road Bridge over the L-2 Canal (LWDD)

PALM BEACH COUNTY PROJECT No. 2014510

CERTIFICATION STATEMENT

Exhibit "B" - Page 1 of 2

PROJECT: <u>Drexel Road over LWDD L-2 Canal Bridge Replacement</u>

Project No.: 2014510

Consultant/Annual Consultant: R. J. Behar & Company, Inc.

TRUTH-IN-NEGOTIATION STATEMENT

By entering into this Contract, the **CONSULTANT/ANNUAL CONSULTANT** certifies that the wage rates and costs used to determine the lump sum fees contained in herein are accurate, complete and current as of the date of this Contract.

The said lump sum fees shall be adjusted to exclude any significant sums should the **COUNTY** determine that the lump sum fees were increased due to inaccurate, incomplete or non-current wage rates or due to inaccurate representations of fees paid to outside consultants.

The COUNTY shall exercise its right under this "Certificate" within one year following final payment.

PROHIBITION AGAINST CONTINGENT FEES STATEMENT

By entering into this Contract the **CONSULTANT/ANNUAL CONSULTANT** warrants that they have not employed or retained any company or person other than a bonafide employee working solely for the **CONSULTANT/ANNUAL** corporation, individual or firm other than a bonafide employee working solely for the **CONSULTANT/ANNUAL CONSULTANT,** any fee, commission, percentage, gift or other consideration contingent upon or resulting from the award of making of this Contract.

PUBLIC ENTITY CRIMES STATEMENT

As provided in F.S. 287.132-133, by entering this Contract or performing any work in furtherance hereof, the **CONSULTANT/ANNUAL CONSULTANT** certifies that it, its affiliates, suppliers, sub-contractors and consultants who will perform hereunder, have not been placed on the convicted vendor list maintained by the State of Florida Department of Management Services within the 36 months immediately preceding the date hereof. This notice is required by F.S. 287.133 (3) (a).

NON-DISCRIMINATION STATEMENT

The CONSULTANT/ANNUAL CONSULTANT warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, familial status sexual orientation, gender identity and expression, or genetic information.

Robert J. Behar, P.E., President

CONFLICT OF INTEREST DISCLOSURE FORM

of 2

Project: Drexel Road over LWDD L-2 Canal Bridge Replacement Project No.: 2014510
CONSULTANT/ANNUAL CONSULTANT represents that it presently has no interest, either direct or indirect, which would or could conflict in any manner with the performance of services for the County, except as follows:
(Attach additional sheets as needed.)
CONSULTANT/ANNUAL CONSULTANT further represents that no person having any interest shall be employed for said performance. By signing below, CONSULTANT/ANNUAL CONSULTANT certifies that the information contained herein is true and correct and constitutes all current potential conflicts of interest which may influence or appear to influence CONSULTANT'S/ANNUAL CONSULTANT'S judgment or quality of services being provided to the County.
CONSULTANT/ANNUAL CONSULTANT shall promptly notify the COUNTY in writing by certified mail of all potential conflicts of interest that may arise in the future through any prospective business association, interest or other circumstance which may influence or appear to influence CONSULTANT'S/ANNUAL CONSULTANT'S judgment or quality of services being provided to the County. Such written notification shall identify the prospective business association, interest or circumstance, the nature of work that CONSULTANT/ANNUAL CONSULTANT may undertake and request an opinion of the COUNTY as to whether the association, interest or circumstance would, in the opinion of the COUNTY, constitute an unacceptable conflict of interest if entered into by the CONSULTANT/ANNUAL CONSULTANT.
If, in the sole opinion of the COUNTY, the prospective business association, interest or circumstance of CONSULTANT/ANNUAL CONSULTANT would constitute an unacceptable conflict of interest to the COUNTY, the COUNTY shall so state in the notification and the CONSULTANT/ANNUAL CONSULTANT shall not enter into said association, interest or circumstance.
THIS DISCLOSURE is submitted by Robert J. Behar, P.E.
President (Name of Individual) (Title/Position) (Firm Name of CONSULTANT/ANNUAL CONSULTANT) who hereby certifies that the information stated above is true and correct. Further, it is hereby acknowledged that any misrepresentation by the CONSULTANT/ANNUAL CONSULTANT on this Disclosure is considered an unethical businesses.
Disclosure is considered an unethical business practice and is grounds for sanctions against future County business with the CONSULTANT/ANNUAL CONSULTANT.
