The Hospital acknowledges and agrees that failure of the Hospital or individual radio user to comply with the requirements of this Agreement may result in the termination of this Agreement or the individual radio being disabled.

SECTION 3: PUBLIC SAFETY RADIO SYSTEM AND MICROWAVE SYSTEM

- 3.01 The County Public Safety Radio System and Microwave System consists of ten (10) 800 MHz transmit and receive sites with co-located microwave equipment and three (3) microwave only sites that provide network connectivity as well as the ability to interconnect with co-located County owned dispatch equipment.
- 3.02 The County Public Safety Radio System and Microwave System provides County-Wide portable and mobile radio coverage for the EMS and Common Talk Groups. The radio coverage for the EMS and Common Talk Groups is identical to that of other County Talk Groups that reside on the County's Public Safety Radio System.

SECTION 4: HOSPITAL EQUIPMENT AND RESPONSIBILITIES

- 4.01 The Hospital's equipment will be 800 MHz control station equipment programmed to be used on the County's Public Safety Radio System. The equipment used will be compatible with Motorola 800 MHz SmartNet and/or SmartZone communications systems. The Hospital will be required to keep its equipment in proper operating condition and the Hospital is responsible for maintenance of its radio equipment.

- 4.02 The Hospital will only program the EMS, Common Talk Groups and the individual unit ID numbers assigned by the System Administrator as part of this Agreement. The Hospital will **not** program into its radios operational talk groups of other agencies without a letter of authorization or a signed agreement from that agency.
- 4.03 The Hospital shall provide the County with a list of persons/positions which are authorized to request activating/deactivating existing units or new units. No programming will be undertaken by the Hospital until requested and approved in writing by the System Administrator.
- 4.04 The Hospital shall receive certain access codes to the County's Radio System to enable the EMS and Common Talk Groups to be programmed into their equipment. The access codes are to be treated as confidential information and the Hospital is responsible to safeguard the code information from release to unauthorized parties. All written and oral information not in the public domain or not previously known, and all information and data obtained, developed, or supplied by the County will be kept confidential by the Hospital and will not be disclosed to any other party, directly or indirectly, without the County's prior written consent, unless required by law or lawful order. All system parameters shall remain the County's property, and may only be reproduced or distributed with the written permission of the County. The Hospital agrees that the County has sole and exclusive ownership of all right, title and interest to the Confidential Information and that such information may be recalled at any time.
- 4.05 Service staff directly employed by the Hospital shall be considered authorized to receive access and programming codes for the maintenance of the Hospital's radio equipment. The Hospital shall immediately notify the System Administrator of any Hospital employee with access to the programming codes that is terminated or separates from Hospital's employment. Such notification shall include the stated reason for employment separation and any other information the Hospital believes necessary to safeguard the codes. The County reserves the right to request any additional information regarding the separation and the Hospital is obligated to provide same upon request.
- 4.06 Commercial maintenance service providers, unless they have been certified by the County, are **not** authorized to receive access or programming codes for the County Radio System. If the Hospital does not have employees capable of programming Hospital Equipment or prefers to have others program Hospital Equipment, it may request that the Palm Beach County Sheriff's Office, Palm Beach County Electronic Services & Security Division, or Palm Beach County's Fire Rescue Department program Hospital Equipment under the terms of a separate agreement. The Hospital can also request a list of certified vendors from the County.
- 4.07 The Hospital is solely responsible for the performance and the operation of Hospital equipment and any damages or liability resulting from the use thereof. Should the County identify malfunctioning Hospital owned equipment; the County will request the Hospital to discontinue use of the specific device until repairs are completed. The County may, at its discretion, disable the equipment from the Radio System after

properly notifying the Hospital in writing if the device is causing interference to the Radio System.

- 4.08 In the case of lost or stolen equipment, the Hospital will notify the System Administrator by e-mail or fax authorizing the System Administrator to disable the equipment. The authorization shall provide the County issued individual unit ID number and the serial number of the radio. The System Administrator will advise back via e-mail when the radio has been disabled. A request by the Hospital to re-activate a disabled radio will also be required in writing by e-mail or fax to the System Administrator.

SECTION 5: SUBSCRIBER UNIT INFORMATION TO BE PROVIDED BY HOSPITAL

- 5.01 The Hospital will be required to provide to the County an initial inventory of the radios that are proposed to be programmed for use of the EMS and Common Talk Groups. The Hospital will provide the following information to the County:

1. Radio manufacturer and model numbers
2. Radio serial numbers
3. Requested Aliases to be programmed

The System Administrator will then compile this information and transmit back to the Hospital a matrix of the County-Wide talk group, aliases, and radio ID numbers prior to the Hospital's radios being activated on the County's Radio System. The Hospital is responsible for adhering to the Talk-Group and Radio ID allocations established by the County. The County's Talk Group and Radio ID allocations are on file with the County and are available upon request.

SECTION 6: COUNTY RESPONSIBILITIES

- 6.01 The County shall be responsible for the maintenance and operation of the County Radio System.
- 6.02 The County shall be responsible for all permitting, licensing, and fees associated with the operation of the Radio System.
- 6.03 The County shall maintain the coverage within the County boundaries as described in the County's contract with Motorola R98-2006D throughout the term of this Agreement except for times of scheduled preventative maintenance, where it will be required to disable portions of the network for a pre-determined length of time, or during times of system failures. The Hospital shall be notified of scheduled preventative maintenance, pursuant to the Policies and Procedures referenced on Attachment I hereto.
- 6.04 The County shall be responsible for talk group and fleet mapping management in accordance with the policies and procedures referenced on Attachment I, as may be amended and updated from time to time.

SECTION 7: UTILIZATION OF EMS AND COMMON TALK GROUPS

7.01 The EMS Talk Group was implemented specifically for emergency medical communications between the emergency providers and hospitals in and around Palm Beach County. The usage of the talk groups are defined below.

7.011 Scenario of Usage

1. A field unit requiring communications with a hospital will request for communications through the County's Fire Rescue Dispatch Center on its currently assigned talk-group or on a MED Control talk-group.
2. The Fire Rescue Dispatch Center will approve that the field unit change talk-groups to the requested Hospital talk-group.
3. The field unit will then switch to the appropriate talk-group.
4. At the conclusion of the communications the field unit will switch back to its assigned talk-group and advise the Fire Rescue Dispatch Center of its return.

7.012 Hospital Talk Groups and UHF MED Channels

1. Each Hospital will be assigned its own talk-group that will be available for incoming medical units to be able to communicate. This talk-group will be considered the Hospital's Main Talk-Group for EMS communications and will be shared with any other distant emergency room facility not directly attached to the main Hospital facility.
2. Each Hospital will also have access to an Intra-Hospital Talk-Group for communications between Hospitals (Hospital-Common). This talk-group may be used for secondary administrative communications between hospitals during declared emergencies and is not to be utilized for internal hospital communications.
3. Each Hospital retains the statutory requirement to have the ability to operate on the assigned UHF MED channels as assigned by the State of Florida, Department of Management Services. The foregoing requirement, while secondary to the County's EMS Communications Plan as referenced in Attachment I, supersedes any local communication requirement and must be installed and maintained.

7.02 The Common Talk Groups were implemented specifically for inter-agency communication among multiple agencies, regardless of their specific discipline or affiliation. They were also created to allow communications between agencies without requiring cross-programming operational talk groups in each agency's radios. Proper usage of the Common Talk Groups is defined below.

7.021 Scenario of usage:

1. A unit requesting to coordinate a multi-jurisdictional operation or call for mutual assistance, places a call on the Call Talk Group for the appropriate discipline (i.e. Law Enforcement, Fire Rescue, or Local Government) to the dispatch center of the required agency(ies).
2. The responding dispatch center assigns one of the Common Talk Groups to the requesting unit and contacts its agency's unit(s) and requests the user switch to the corresponding talk group.
3. The participating units would communicate on the Common Talk Group(s) and upon completion of the operation; the talk-group is cleared of all radio traffic and put back into the pool for other agencies.

7.022 Examples of approved usage for Common Talk Group are following:

1. Working talk group for multiple agencies fighting a fire together.
2. Coordination during a police chase through multiple jurisdictions.
3. Coordination during a disaster recovery.
4. Coordination for a special event which requires participation of multiple agencies and disciplines (i.e., undercover operations, investigations, perimeter communications, fire ground coordination, etc.)
5. Coordination of scene security and establishment of landing zone for aircraft.

7.03 The Common Talk Groups shall not be used for every-day routine communications.

7.031 Examples of improper use are the following:

1. As an extra talk group for agencies that have cross programming agreements and duplicate talk groups programmed into their radios.
2. To provide an extra working talk-group for a single agency supporting a special event or operation. (i.e., undercover operations, investigations, perimeter communications, fire ground coordination, etc.)
3. As an additional dispatch, administrative, or car-to-car talk-group for use by a single agency.

SECTION 8: INDEMNIFICATION AND LIABILITY

The Hospital agrees to protect, defend, reimburse, indemnify and hold County, its agents, employees and elected officials and each of them (hereinafter collectively and for the purposes of this paragraph, referred to as "County"), free and harmless at all times from and against any and all claims, liability, expenses, losses, costs, fines and damages (including attorney's fees at trial and appellate levels) and causes of action of every kind and character against, or in which County is named or joined, of any damage to property or the environment, economic losses, or bodily injury (including death) incurred or sustained by any party hereto, or of any party acquiring an interest hereunder, and any third party or other party whomsoever, or any governmental Hospital, arising out of or in incident to or in connection with Hospital's performance under this Agreement, the condition of the property, Hospital's acts or omissions or operations hereunder, of the performance, non-performance or purported performance of the Hospital of any breach of the terms of this Agreement; provided however, that Hospital shall not be responsible to County for damages resulting out of bodily injury or damages to property which Hospital can establish as being attributable to the negligence of the County.

Hospital further agrees to hold harmless and indemnify County for fines, citations, court judgments, insurance claims, restoration costs or other liability resulting from Hospital's contractors' activities pursuant to this Agreement, whether or not Hospital was negligent or even knowledgeable of any events precipitating a claim or arising as a result of any situation involving Hospital's activities.

Hospital shall indemnify, defend and save County harmless from and against any and all claims, actions, damages, liability and expense in connection with: (i) loss of life, personal injury and/or damage to or destruction of property arising from or out of any use or lack thereof, of the County's Radio System; (ii) use by Hospital, or (iii) any act or omission of Hospital, its agents, contractors, employees or invitees. In case County shall be made a party to any litigation commenced against the Hospital or by Hospital against any third party, then Hospital shall protect and hold harmless and pay all costs and attorney's fees incurred by County in connection with such litigation, and any appeals thereof.

The terms and conditions of this Interoperability Agreement incorporate all the rights, responsibilities, and obligations of the parties to each other. The remedies provided herein are exclusive. The Hospital waives all remedies, including, but not limited to, consequential and incidental damages. The County agrees to use its best reasonable efforts to provide the Hospital with full use of the EMS and Common Talk Groups but makes no guarantee as to the continual, uninterrupted use of the Radio System, or its fitness for the communication needs of the Hospital.

The County makes no representation about the design or capabilities of the County's Radio System. The Hospital has decided to enter into this Agreement and use the County's Radio System on the basis of having interoperability with the County and/or other municipalities during times of mutual aid and/or joint operations.

The Radio System is designed to assist qualified law enforcement, fire and other emergency service professionals. It is not intended to be a substitute for the exercise of judgment or supervision of these professionals. The parties acknowledge that the responsibility for providing law enforcement, fire, or other emergency services rests with the Hospital which is providing such service and not with the other party to this Agreement.
