Background and Justification (continued from Page 1)

these roads as needing urgent improvements to bring them up to acceptable roadway standards, and has requested County's participation in the funding of these improvements. The estimated cost for designing, permitting and constructing the Project is estimated to not exceed \$700,000. Staff recommends participating in the funding of the improvements up to a maximum amount of \$231,000 which represents 33% of the estimated Project cost. The Village proposes to undertake the required design, any necessary right-of-way and/or easement acquisitions, and construction of the Project in accordance with all applicable federal, state and local statutes, rules and regulations, and standards. All responsibilities, terms and conditions of the County's funding participation will be memorialized in an Interlocal Agreement. Board authorization is being requested to allow the County Administrator to execute the Interlocal Agreement on behalf of the County, after it has been executed by the Village.
