Department: Facilities Development and Operations

I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: Contract with Republic Construction Corp. in the amount of \$519,700 for the Kreuzler Park Restroom Replacement project located in Palm Beach.

Summary: This project consists of construction of a new single story 1,356 sq. ft. restroom/lifeguard replacement building including sidewalks and pathways, and expansion of the existing entrance drive. The building includes a shower and locker room for lifeguards and a storage room. Due to age, use and exposure to harsh marine environment, the restroom has outlived its life expectancy. This work was competitively bid with Republic Construction Corp. submitting the lowest responsive, responsible bid. Funding for this contract is from the \$25 million 2005 General Obligation Recreational and Cultural Facilities Bond and Park Improvement Fund. The total construction duration is 240 calendar days. The goal for Small Business Enterprises (SBE) participation is 15% and Republic Construction Corp.'s SBE participation for this contract is 24.9%. Republic Construction Corp. is a Palm Beach County business who became the lowest responsible, responsive bidder after application of the preference provision of the County's Local Preference Ordinance. (Capital Improvements Division) District 7 (LDC)

Background and Justification: R.G. Kreuzler Park is a 4.25 acre guarded beach front park located within the Town of Palm Beach limits and north of the Lake Worth Municipal Beach. The park and current restroom facility opened to the public in 1979 and is very popular with beach patrons. In 2014, \$350,000 was budgeted to construct the replacement R.G. Kreuzler Lifeguard/Restroom building. This estimate was based on the average historic cost to build an oversized restroom. The latest project budget from the County's Capital Improvement Division estimated total construction, soft costs and contingency at \$620,000. An additional \$418,276 was transferred to this project on August 16, 2016 by Board consent to offset increased construction costs and unanticipated need to replace underground electric service.

Bids were opened on September 6, 2016. The lowest bidder was not a Palm Beach County business, which enacted the County's Local Preference Ordinance. Republic's bid was therefore reduced by 5% for ranking purposes. With that 5% preference, Republic's bid was calculated as the lowest bid.
