I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to: A) Accept on behalf of the Palm Beach County Sheriff's Office a SubRecipient Agreement For Federal Grant Funding Assistance between the Florida Department of Law Enforcement and the Palm Beach County Sheriff's Office through a FY17 Paul Coverdell Forensic Sciences Improvement Act Formula Grant in the amount of \$33,936, for the period of January 1, 2018 through December 31, 2018; and **B) Approve** a budget amendment of \$33,936 in the Sheriff's Grant Fund.

Summary: The National Institute of Justice (NIJ) awarded these funds to the Florida Department of Law Enforcement (FDLE) for the "FY16 Paul Coverdell National Forensic Sciences Improvement Grant". On February 9, 2018, the Palm Beach County Sheriff's Office (PBSO) was awarded funds to improve the quality of forensic services. Funds provided will be used for overtime, travel, and training costs. There is **no match requirement** associated with this award. Countywide (LDC)

Background and Justification: FDLE's network of crime laboratories, in partnership with the five county laboratories (Miami-Dade, Broward, Palm Beach, Pinellas and Indian River) and the Medical Examiner's Offices, through the support of the Medical Examiner's Commission (MEC), have identified needs which will enhance their facilities to increase productivity by decreasing turnaround times. Each laboratory or office has identified its specific needs with the overall goal of lower turn around times. Because of the differences in services offered and service area, the needs of each of the laboratories are different. The Catalog of Federal Domestic Assistance (CFDA) number is 16.742 and the grant number is 2017-CD-BX-0010.

Failure to have the above-referenced audits performed as required will result in the withholding of new discretionary awards and/or withholding of funds or change in the method of payment on active awards. Known or suspected violations of any law encountered during the Subrecipient's audits, including fraud, theft, embezzlement, forgery, or other serious irregularities, must be communicated to FDLE and DOJ/OJP. Reporting Irregularities. The Subrecipient shall promptly notify FDLE, DOJ/OJP, and the Federal cognizant audit agency of any illegal acts, irregularities and/or proposed and actual actions regarding the Grant funds. Illegal acts and irregularities include conflicts of interest, falsification of records or reports, and misappropriation of funds or other assets. The Subrecipient should promptly refer to FDLE and to the DOJ/Office of Inspector General (OIG) any allegation and/or credible evidence that a principal, employee, agent, contractor, subrecipient/subgrantee, subcontractor, or other person has either 1) submitted a false claim for grant funds under the False Claims Act; or 2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct involving grant funds, by contacting DOJ-Office of Chief Financial Officer, Customer Service Branch (CSB), via e-mail ask.ocfo@usdoj.gov or by calling 1-800-458-0786, and/or the Office of the Inspector General (OIG) Mail: Office of the Inspector General, U.S. Department of Justice, Investigations Division, 950 Pennsylvania Avenue, N.W., Room 4706, Washington, DC 20530; E-mail: oig_hotline@usdoj.gov; Hotline: (contact information in English and Spanish): (800) 869-4499 or Hotline Fax: (202) 616-9881.

Environmental Assessment. The Subrecipient agrees to comply with all Federal, State, and local environmental laws and regulations applicable to the development and implementation of the activities to be funded under this award. Environmental Assessment (EA): The Subrecipient agrees and understands that funded activities (whether conducted by the subrecipient or contractors) may require the preparation of an environmental assessment (EA) as defined by the Council on Environmental Quality's Regulations for implementing the Procedural Provisions of the National Environmental Policy Act (NEPA), found at 40 CFR Part 1500. An EA is a concise public document that briefly provides sufficient analysis for determining whether to prepare an environmental impact statement (EIS) or a finding of no significant impact for the proposed activity. If in completing an EA for a proposed activity, potential adverse environmental impacts are identified, the EA will serve as a vehicle for developing either alternative approaches or mitigation measures for avoiding or reducing the identified adverse environmental impacts.

Throughout the term of this award, the Subrecipient agrees that for any activity that is the subject of a completed Environmental Assessment (EA), it will inform NIJ of (1) any change(s) that it is considering making to the previously assessed activity; (2) any changed circumstances, such as a change in the project site's conditions; or (3) any significant new information. The Subrecipient will not implement a proposed change until NIJ, with the assistance of the Subrecipient, has determined whether the proposed change will require additional review under NEPA. Likewise, in the case of new circumstances or information arising, NIJ, with the assistance of the Subrecipient, will determine if any additional environmental impact analysis is necessary. The approval will not be unreasonably withheld as long as any requested modification(s) is consistent with eligible program purposes and found acceptable under an NIJ-conducted environmental impact review process.
