- 6.03 The County shall be responsible for talk group and fleet mapping management in accordance with the policies and procedures referenced on Attachment I, as may be amended and updated from time to time.

## **SECTION 7: UTILIZATION OF EMS AND COMMON TALK GROUPS**

7.01 The EMS Talk Group was implemented specifically for emergency medical communications between the emergency providers and hospitals in and around Palm Beach County. The usage of the talk groups are defined below.

### 7.011 Scenario of Usage

1. A field unit requiring communications with a hospital will request communications through the County's Fire Rescue Dispatch Center on its currently assigned talk-group or on a MED Control talk-group.
2. The Fire Rescue Dispatch Center will approve the request that the field unit change talk-groups to the requested hospital talk-group.
3. The field unit will then switch to the appropriate talk-group.
4. At the conclusion of the communications the field unit will switch back to its assigned talk-group and advise the Fire Rescue Dispatch Center of its return.

7.02 The Common Talk Groups were implemented specifically for inter-agency communication among multiple agencies, regardless of their specific discipline or affiliation. They were also created to allow communications between agencies without requiring cross-programming operational talk groups in each agency's radios. Proper usage of the Common Talk Groups is defined below.

### 7.021 Scenario of usage:

1. A unit requesting to coordinate a multi-jurisdictional operation or call for mutual assistance, places a call on the Call Talk Group for the appropriate discipline (i.e. Law Enforcement, Fire Rescue, or Local Government) to the dispatch center of the required agency(ies).
2. The responding dispatch center assigns one of the Common Talk Groups to the requesting unit and contacts its agency's unit(s) and requests the user switch to the corresponding talk group.
3. The participating units would communicate on the Common Talk Group(s) and upon completion of the operation; the talk-group is cleared of all radio traffic and put back into the pool for other agencies.

7.022 Examples of approved usage for Common Talk Group are as follows:

1. Working talk group for multiple agencies fighting a fire together.

2. Coordination during a police chase through multiple jurisdictions.
  3. Coordination during a disaster recovery.
  4. Coordination for a special event which requires participation of multiple agencies and disciplines (i.e., undercover operations, investigations, perimeter communications, fire ground coordination, etc.)
  5. Coordination of scene security and establishment of landing zone for aircraft.
- 7.03 The Common Talk Groups shall not be used for every-day routine communications.

7.031 Examples of improper use are the following:

1. As an extra talk group for agencies that have cross programming agreements and duplicate talk groups programmed into their radios.
2. To provide an extra working talk-group for a single agency supporting a special event or operation (i.e., undercover operations, investigations, perimeter communications, fire ground coordination, etc.).
3. As an additional dispatch, administrative, or car-to-car talk-group for use by a single agency.

## **SECTION 8: INDEMNIFICATION AND LIABILITY**

The Participant agrees to protect, defend, reimburse, indemnify and hold County, its agents, employees and elected officials and each of them (hereinafter collectively and for the purposes of this paragraph, referred to as "County"), free and harmless at all times from and against any and all claims, liability, expenses, losses, costs, fines and damages (including attorney's fees at trial and appellate levels) and causes of action of every kind and character against, or in which County is named or joined, of any damage to property or the environment, economic losses, or bodily injury (including death) incurred or sustained by any party hereto, or of any party acquiring an interest hereunder, and any third party or other party whomsoever, or any governmental agency, arising out of or in incident to or in connection with Participant's performance under this Agreement, the condition of the property, Participant's acts or omissions or operations hereunder, of the performance, non-performance or purported performance of the Participant of any breach of the terms of this Agreement; provided however, that Participant shall not be responsible to County for damages resulting out of bodily injury or damages to property which Participant can establish as being attributable to the negligence of the County.

Participant further agrees to hold harmless and indemnify County for fines, citations, court judgments, insurance claims, restoration costs or other liability resulting from Participant's contractors' activities pursuant to this Agreement, whether or not Participant

was negligent or even knowledgeable of any events precipitating a claim or arising as a result of any situation involving Participant's activities.

Participant shall indemnify, defend and save County harmless from and against any and all claims, actions, damages, liability and expense in connection with: (i) loss of life, personal injury and/or damage to or destruction of property arising from or out of any use or lack thereof, of the County's Radio System; (ii) use by Participant, or (iii) any act or omission of Participant, its agents, contractors, employees or invitees. In case County shall be made a party to any litigation commenced against the Participant or by Participant against any third party, then Participant shall protect and hold harmless and pay all costs and attorney's fees incurred by County in connection with such litigation, and any appeals thereof.

The terms and conditions of this Interoperability Agreement incorporate all the rights, responsibilities, and obligations of the parties to each other. The remedies provided herein are exclusive. The Participant waives all remedies, including, but not limited to, consequential and incidental damages. The County agrees to use its best reasonable efforts to provide the Participant with full use of the EMS and Common Talk Groups but makes no guarantee as to the continual, uninterrupted use of the Radio System, or its fitness for the communication needs of the Participant.

The County makes no representation about the design or capabilities of the County's Radio System. The Participant has decided to enter into this Agreement and use the County's Radio System on the basis of having interoperability with the County and/or other municipalities during times of mutual aid and/or joint operations.

The Radio System is designed to assist qualified law enforcement, fire and other emergency service professionals. It is not intended to be a substitute for the exercise of judgment or supervision of these professionals. The parties acknowledge that the responsibility for providing law enforcement, fire, or other emergency services rests with the Participant which is providing such service and not with the other party to this Agreement.
