## **AGENDA ITEM SUMMARY**

Meeting Date:	September 10, 2019	( ) Consent ( ) Workshop	(X) Regular ( ) Public Hearing
Department:	Environmental Resources Management		

#### **I. EXECUTIVE BRIEF**

Motion and Title: Staff recommends motion to approve: Temporary Easement Agreement for Construction Access and Staging (Agreement) with the City of Boynton Beach (City) for the Ocean Ridge Shore Protection Project (Project), beginning upon execution and terminating in two years.

**Summary:** The Agreement grants the County and its assigns an easement through Boynton Beach Oceanfront Park (BBOP) to transport construction equipment and materials onto and off the beach during mobilization, construction, and demobilization of the Project and grants a staging area for equipment and materials in support of the Federal Shore Protection Project.

On September 2, 2019, U.S. Army Corps of Engineers (USACE) notified the County that a fully executed Agreement must be received by September 11, 2019, or the Federal solicitation for this 100% federally funded Project will be modified to include the Project as an optional line item. Identifying the project as an optional line item may jeopardize the construction and funding of the Project if the contractor experiences construction delays with other projects included in the solicitation. Due to time constraints imposed by USACE, the City has placed the Agreement on a special meeting agenda for the evening of September 10, 2019. The expedited schedule will require BCC approval of the Agreement prior to the City execution, however, the City has expressed their intent to cooperate in a Letter of Support to the USACE. Final execution by the County will not occur until after City execution. The Agreement will continue in effect until September 10, 2021. There is no cost to the County. District 4 (SS)

**Background and Justification:** The USACE will construct the federally funded Project as soon as November 2019 and requires a construction access and staging easement from the non-Federal Sponsor (Palm Beach County) prior to construction. The Project was first constructed in 1998, and again in 2005 and 2014. The City has provided the same construction access through BBOP during each of the past Projects. The Agreement will only be used for construction and maintenance of the Project area. This is the first time USACE has required a construction access and staging easement for the Project.

Nothing herein contained shall be deemed to give the public or any other persons, other than Grantor, Grantor's successors, assigns, officers, directors, partners, contractors, tenants, lessees, mortgagee, agents, employees, guests, customers, invitees, members, and Grantee and its subcontractors, agents, and employees any access rights to the Easement Premises or access to the beach from the Grantor's property other than as may have existed prior to the date of this Agreement. Grantor hereby reserves the right to the continued free use of the property in a manner not inconsistent with the rights granted herein to Grantee and subject to the terms and conditions of this Agreement.
- 3. Grantee's Use. The Easement Premises may be used by Grantee, its subcontractors, agents, or employees solely for the purpose of providing access and staging during and only during periods of construction or maintenance associated with the Project. For purposes of this Easement, staging is defined as the temporary storage of equipment or supplies in support of the Project. The parties acknowledge that it may be necessary to remove obstructions from the Easement Premises and this may include removing vegetation, pruning vegetation, and removing fencing or any other obstacles within the Easement Premises.
- 4. Grantee's Obligations. Grantee shall obtain all permits and approvals required by all applicable governmental entities. - 10. <u>Grantor's Representations.</u> Grantor represents and warrants that Grantor is the lawful owner of and has good and marketable legal title to the Easement Premises; Grantor has the full right, power, and authority to grant this Easement, and all other rights granted hereunder to Grantee and that Grantor has disclosed the location and terms of all other known easements that may affect the Easement Premises. Re: Ocean Ridge Shore Protection Project: Construction Access at Boynton Beach Oceanfront Park

Dear Colonel Kelly,

The City of Boynton Beach is pleased to provide this letter in support of Palm Beach County's upcoming Ocean Ridge Shore Protection Project.

Over the last several years, the eastern coast of Florida has been battered by Hurricane Irma and other storms. A well-maintained beach is vital to our local economy, protects valuable habitat for a variety of species, and aids in life and public safety. Due to Florida's susceptibility of attracting these violent and devastating storms, it is paramount for our beaches to receive renourishment. Previously, the City of Boynton Beach and Palm Beach County have worked together to ensure the success of three renourishment projects; utilizing the same construction access area depicted on the accompanying maps.

Currently, the City and County are once again working collaboratively to execute a mutually agreeable Easement for Construction Access that formally recognizes the aforementioned construction access area at Boynton Beach Oceanfront Park.

The City looks forward to continuing this important relationship with the County as it aims to maintain successful and stable long-term management of this essential project.

If you should require any further information, please feel free to contact my office at (561) 742-6010.

Respectfully,

Lori LaVerriere City Manager

Latherie
