I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: a contract with K-F Group, Inc. (KFG) in the amount of \$190,344.33 for professional engineering services for 60th Street North from west of 140th Avenue North to Avocado Boulevard (Project). The limits for this Project are within existing Palm Beach County (County) right-of-way.

SUMMARY: Approval of this contract will provide the professional services necessary for preparation of an alignment study of the Project corridor, the first phase of this two-phased project. After the study is complete, the second phase will be conducted to provide design plans and construction bid documents to complete the Project. The Affirmative Procurement Initiatives selected for this contract on September 18, 2019 by the Goal Setting Committee are a 20% minimum mandatory Small Business Enterprise (SBE) participation and an SBE Evaluation Preference. KFG contractually agreed to 75% SBE participation during selection for the contract and their SBE participation during negotiation exceeded that goal. KFG is a Palm Beach County based company and a certified SBE company. **This Project is included in the Five-Year Road Program. District 6 (YBH)**

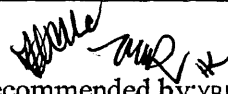

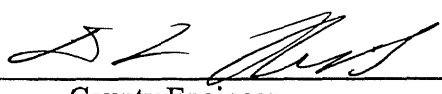

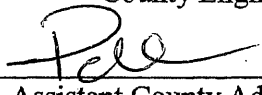

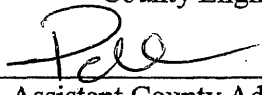

Background and Justification: On August 5, 2020, the Consultant's Competitive Negotiations Act Selection Committee selected KFG and, in accordance with PPM No. CW-O-048, the Board of County Commissioners (BCC) was notified of the selection on August 11, 2020. The County is now contracting with KFG to provide professional services necessary for the Project. The fee, as detailed in **Exhibit B** of the attached contract, has been negotiated as just and reasonable compensation as follows:

Basic Services (Lump Sum)	\$190,344.33	(Roadway Alignment Study).
Reimbursable Services (Not to Exceed)	\$ 0.00	
Optional Services (Not to Exceed)	\$ 0.00	
Total:	\$190,344.33	

After reviewing the attached contract and finding it in proper order, the Engineering Department recommends BCC approval.

Survey tasks will only be performed in the Design Phase after an alignment has been selected for design. Initial study phase survey data that will be based on information to be provided by the County. The information shall include (1) PBC LIDAR (xyz coordinates) in ASCII format, (2) PBC Tax Map in Microstation dgn format showing property lines and R/W lines including the recently dedicated 100-ft R/W west of 140th Avenue N from Minto Development, (3) a Microstation dgn file showing recent County TOPO survey along the north side of Golden Grove Elementary School along with the xyz file in ASCII format.

• **ROADWAY / DRAINAGE ANALYSIS:**

Information used for the roadway alignment study will be based on existing available corridor data provided by the County. The level of accuracy of the alignment analysis is dependent upon the precision of LIDAR information and County Tax Map. Roadway / Drainage analysis will be prepared to include the following improvements:

1. 60th Street N will begin at the western boundary line of Golden Grove Elementary School. The end limit of the project will match into PBC Project No. 2017515 just east of Avocado Boulevard at Station 653+50. Stationing will be set up based on continuation of the stationing of the project to the east.
2. **West** of 140th Avenue N (approximately 2,150 feet)
 - a. There is a Seminole Improvement District (SID) canal along the south side and M-Canal with encroachment along the north side.
 - b. Study phase typical section will be based on 3-lane undivided as well as 4-lane divided roadway. The 3-lane undivided typical section will be mono-pitched, and will consist of 3-11' lanes with 4' bicycle lanes and 2' curb and gutter on the outside, 6' concrete sidewalk on the south side only next to the curb, guardrail with 2' high berm and 10' maintenance tract along the north side. The 4-lane typical section will have crowned cross slope, and will consist of 4-11' lanes and a 20' median (edge of pavement to edge of pavement). The outside bike lanes, curb and gutter, sidewalk, guardrail, 2' high berm, and 10' maintenance tract will be set up similar to the 3-lane undivided typical section.

- c. Typical section analysis will be based on four (4) different alternatives.
 - i. Option 1W: M-Canal Relocation Option for 3-lane undivided section
 - ii. Option 2W: M-Canal Relocation Option for 4-lane divided section
 - iii. Option 3W: SID Canal Alignment Shift Option for 3-lane undivided section
 - iv. Option 4W: SID Canal Alignment Shift Option for 4-lane divided section
 - d. Barrier wall option will be discussed in the alignment study engineering report but will not be analyzed in details.
 - e. Typical section analysis will be based on 100' R/W width.
 - f. M-Canal 10' Maintenance Tract will be located outside the 100' R/W for Options 1W and 2W.
 - g. M-Canal 10' Maintenance Tract will be located inside the 100' R/W for Options 3W and 4W.
 - h. A horizontal geometry layout will be prepared for each typical section option. A total of four horizontal geometry layout plans are anticipated.
 - i. Potential relocation of school entrance to Golden Grove Elementary at 60th Street will be analyzed. Coordination with school will be handled by PBC through courtesy copy to PBC School District for review.
 - j. Water quality treatment and quantity attenuation for this segment of roadway will assume to be provided and accommodated by Minto Development. Assumptions are also made that Minto will provide flowage easement to convey storm water runoff into their master water management system.
 - k. Conveyance pipe sizes will also be included in Phase 1 study.
3. **East** of 140th Avenue N (approximately 2,550 feet)
- a. There are residential homes along the south side and M-Canal with encroachment along the north side.
 - b. Study phase typical section will be based on 3-lane mono-pitched undivided typical section.
 - c. Typical section analysis will be based on 4 different alternatives.
 - i. Option 1E: M-Canal Relocation Option with 10' Maintenance Tract on the north side to minimize or avoid impact on houses to the south.
 - ii. Option 2E: Concrete Barrier Wall Option Without 10' Maintenance Tract on the north side. No M-Canal relocation, and no roadway alignment shift. The goal is to minimize or avoid impact on houses to the south and M-Canal.
 - iii. Option 3E: Roadway Alignment Shift South Without 10' Maintenance Tract on the north side. This option will avoid direct impact to M-Canal, but may have some impacts to house setbacks along the south side.
 - iv. Option 4E: Roadway Alignment Shift With 10' Maintenance Tract on the north side. This option will avoid direct impact to M-Canal, and at the same time provide a continuous maintenance path for M-Canal. However, there will be more impacts to house setbacks along the south side.
 - d. Typical section analysis will be based on 80' R/W width
 - e. M-Canal 10' Maintenance Tract will be located outside the 80' R/W for Option 1E
 - f. M-Canal 10' Maintenance Tract will be located inside the 80' R/W for Option 4E
 - g. Analysis will be based on total re-construction of roadway pavement in this segment
 - h. Reverse curves will be upgraded to meet FDOT Greenbook Standards. Design speed through curves at 40 mph with reverse crown ($e = 0.02$) and a minimum curve length of 400'. Tighter horizontal radius with higher superelevation will also be evaluated for feasibility and impact comparison.
 - i. Impacts to building setback will be evaluated with each analyzed option

- j. Drainage analysis will be performed in the Design Phase for this segment of roadway, and will not be included in this Study Phase proposal.
 - k. Impacts to underground and above ground utilities will be evaluated and identified with each analyzed option
4. **Intersection** at 140th Avenue N
- a. Intersection analysis at 140th Avenue N will be based on 2 different alternatives
 - i. Option 1T: T-Intersection Option
 - ii. Option 2R: Roundabout Option
 - b. Both intersection options will include combinations of 4 typical section alternatives west of 140th Avenue N and 2 typical section alternatives east of 140th Avenue N. The 2 alternatives from the east are M-Canal relocation (Option 1E) and alignment shift without 10' maintenance tract (Option 3E). Eight (8) horizontal geometric layout combinations for each intersection option is anticipated. A total of 16 horizontal geometric layout combinations are anticipated under this task.
 - c. Impacts to adjacent SID canal and residential homes will be evaluated
 - d. 59th Ct N access management and sight distance will be analyzed
5. Preliminary cost estimates will be prepared for the T-intersection option as well as the roundabout intersection option. Each intersection option will have eight (8) cost estimates that will include combinations of 4 typical section alternatives west of 140th Avenue N and 2 typical section alternatives east of 140th Avenue N. A total of 16 cost estimates are anticipated.
6. Public Information Meeting Support (Optional Services): K-F Group shall assist PBC in developing and preparing drawings / exhibits to be used during public information meeting.
- **SOIL EXPLORATIONS**
Geotechnical services and soil exploration will be performed in the Design Phase, and will not be included in this Study Phase proposal.
 - **ENVIRONMENTAL SERVICES**
Environmental assessment of the project corridor will be performed in the Design Phase, and will not be included in this Study Phase proposal.
 - **PROJECT SCHEDULE**
K-F GROUP, INC. shall perform the required services for review and approval by the COUNTY and complete the required services as specified in Exhibit "A".
 - **DELIVERABLES**
K-F GROUP, INC. shall prepare engineering plans on CADD using Microstation V8i and Geopak softwares. Plans will be printed on 11"x17" papers and submitted along with an analysis/study report and a CD that contains plans in pdf format.

The COUNTY shall furnish the following:

- All information in COUNTY records required to complete the study, including LIDAR information, County Tax Map, and County TOPO.

SBE Evaluation Preference for SBE Participation (Contracts \$500,000 or greater) (EBO Ordinance Section 2-80.27(3)(d) option 2)

15 Points (0 to 15%) total evaluation points shall be awarded based on the level of SBE dollar participation committed to on the prime respondent/bidder's team.

Evaluation Preference points shall be awarded on a sliding scale from zero up to 15 percent (15%) of the total available evaluation points for scoring of proposals to those firms responding to Professional Services Solicitations valued at \$500,000 or greater. The sliding scale shall be based upon the relative level of SBE dollar participation that has been committed to on the prime respondent/bidder's team (e.g., zero SBE participation on a prime respondent/bidder's team shall yield zero evaluation points, whereas the maximum SBE participation among all prime bidders, at the prime Contract and subcontract levels combined, shall yield award of fifteen Evaluation Preference points out of 100; and a prime respondent/bidder's team that achieves only half as many dollars in SBE participation as the firm with the greatest SBE dollar participation at the prime Contract and subcontract levels combined shall be awarded 7.5 evaluation points out of 100.

SBE Subcontracting Goals for Professional Services (EBO Ordinance Section 2-80.27(3)(e))

A **20% SBE subcontracting** participation goal is established for this CONTRACT.

The CONSULTANT has agreed to provide **75% SBE Participation**.

A minimum mandatory goal of 20% of the total estimated dollar value of the CONTRACT shall be subcontracted to SBEs, however the EBO Office shall reduce or waive this goal when there is inadequate availability of SBE prime and / or subcontractor firms.
