I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to adopt: an Ordinance of the Board of County Commissioners of Palm Beach County, Florida, repealing and replacing Ordinance No. 07-003, as amended; providing for a schedule of rates, fees, and charges for potable water, wastewater, and reclaimed water services; providing for authorization of annual indexing; providing for inclusion in the Palm Beach County Water Utilities Department's (PBCWUD) Uniform Policies and Procedures Manual; providing for repeal of laws in conflict; providing for severability; providing for captions; and providing for an effective date.

Summary: This ordinance establishes uniform rates for potable water, wastewater and reclaimed water service that will be provided to customers. The recommended rates are set forth in EXHIBIT "A". EXHIBIT "A" sets forth replacement sections 6.1.1, 6.1.2, 6.3.1, 6.3.2, 6.5.3, 6.6.1, 6.6.2, and 6.6.3 of Chapter 6 of the PBCWUD's Uniform Policies and Procedures Manual and includes changes to connection fees, guaranteed revenue fees, and monthly customer fees, among other changes. The Western Region Fees contained in Section 6.6.3 are no longer effective as of May 1, 2021, at which time Western Region customers will be billed on the basis of rates, fees and charges set forth in sections 6.6.1 and 6.6.2.

Rates must be legally justifiable and each class (Single Family Residential, Multi-Family Residential and Non-Residential) must pay their fair share of costs. This rate study, conducted by Environmental Financial Group, is intended to be revenue neutral for base facility and commodity fees. Most Single Family Residential customers in the Eastern Region who utilize above 6,000 gallons per month can expect to see their bills decrease. All Single Family Residential customers in the Western Region can expect to see their bills decrease. Likewise, all Multi-Family Residential customers (condominiums, apartments, duplexes etc.) in the Eastern and Western Regions can expect to see their bills decrease. The analysis concluded that Non-Residential customers should be carrying more of the cost. Most low usage Non-Residential customers, regardless of meter size, are seeing an increase while some higher usage customers, particularly in the Western Region will see significant savings. Connection fees are increasing, these fees are not annually indexed and have not changed in over 10 years.

Guaranteed revenues, base facility and commodity fees will be indexed annually beginning October 1, 2021 based on three-fourths of the change in the U.S. Consumer Price Index, Water and Sewer Maintenance in accordance with the existing Ordinance. Countywide (MJ)

Background and Policy Issues: In order to maintain potable water, wastewater and reclaimed water rates that are aligned with the cost of providing service to customers, it is beneficial to the County to from time to time adjust such rates in accordance with an analysis that examines the costs of providing service and the demands for such service placed on the utility systems by its classes of customers.

ORDINANCE NO. 2021-_____

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF PALM BEACH COUNTY, FLORIDA, REPEALING AND REPLACING ORDINANCE NO. 07-003, AS AMENDED; PROVIDING FOR A SCHEDULE OF RATES, FEES, AND CHARGES FOR POTABLE WATER, WASTEWATER, AND RECLAIMED WATER SERVICES; PROVIDING FOR AUTHORIZATION OF ANNUAL INDEXING; PROVIDING FOR INCLUSION IN THE PALM BEACH COUNTY WATER UTILITIES DEPARTMENT'S UNIFORM POLICIES AND PROCEDURES MANUAL; PROVIDING FOR REPEAL OF LAWS IN CONFLICT; PROVIDING FOR SEVERABILITY; PROVIDING FOR CAPTIONS; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Board of County Commissioners, through its Water Utilities Department, provides potable water, wastewater, and reclaimed water services to approximately 594,000 citizens of Palm Beach County; and

WHEREAS, the Water Utilities Department operates as an enterprise fund of the County and therefore must recover the costs of operation through rates, fees, and charges for services rendered; and

WHEREAS, Section 153.11, Florida Statutes, requires that such rates, fees and charges shall be so fixed and revised as to provide funds, with other funds available for such purposes, sufficient at all times to pay the cost of maintaining, repairing and operating the system or systems including the reserves for such purposes and for replacements and depreciation and necessary extensions, to pay the principal of and the interest on the water revenue bonds and/or sewer revenue bonds as the same shall become due and the reserves therefor, and to provide a margin of safety for making such payments; and

WHEREAS, such rates, fees and charges shall be just and equitable and may be based or computed upon the quantity of water consumed and/or upon the number and size of sewer connections or upon the number and kind of plumbing fixtures in use in the premises connected with the sewer system or upon the number or average number of persons residing or working in or otherwise connected with such premises or upon any other factor affecting the use of the facilities furnished or upon any combination of the foregoing factors; and

WHEREAS, Water Utilities revenue bond covenants require the County to establish and maintain rates and collect such fees, rentals or other charges for services and facilities and to revise same from time to time whenever necessary, in order to meet debt service and debt service reserve requirements; and

WHEREAS, the Board of County Commissioners finds that the annual application of the Consumer Price Index, All Urban Consumers, Water and Sewerage Maintenance, published by the U.S. Department of Labor, Bureau of Labor Statistics, to certain rates, fees and charges is in the best interest of the Water Utilities Department and its customers; and

WHEREAS, the Water Utilities Department's rate consultants have completed a review of the Department's revenue requirements and have recommended changes to the schedule of rates, fees, and charges, including connection fees, guaranteed revenue fees, and monthly customer fees, in order to meet its operating, financing, and reserve requirements; and

WHEREAS, the Water Utilities Advisory Board has approved the proposed rates, fees, and charges.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF PALM BEACH COUNTY, FLORIDA, that:

Ordinance No. 07-003, as amended, is hereby repealed effective May 1, 2021 and replaced with the following:

SECTION 1. SCHEDULE OF RATES, FEES, AND CHARGES FOR POTABLE WATER, WASTEWATER, AND RECLAIMED WATER SERVICES.

The schedule of rates, fees, and charges shown at Exhibit "A", which is attached hereto and incorporated herein, is hereby adopted. The rates, fees, and charges set forth in Exhibit "A" shall become effective on May 1, 2021.

SECTION 2. AUTHORIZATION OF ANNUAL INDEXING.

Beginning on October 1, 2021, and annually thereafter, the Guaranteed Revenue Fees, Base Facility Fees, and Commodity Fees included in Exhibit "A" shall be adjusted by an amount equal to seventy-five percent (75%) of the prior year's (measured July to July) Consumer Price Index, All Urban Consumers, Water and Sewerage Maintenance, published by the U.S. Department of Labor, Bureau of Labor Statistics. The rates resulting from the application of said index shall be rounded to the nearest cent.

SECTION 3. INCLUSION IN THE WATER UTILITIES DEPARTMENT'S UNIFORM POLICIES AND PROCEDURES MANUAL.

The schedule of rates, fees, and charges in Exhibit "A" shall be incorporated into the Water Utilities Department's Uniform Policies and Procedures Manual (UPAP) and shall be made available for public inspection during normal business hours. The UPAP shall be revised annually by the Water Utilities Department to incorporate the changes due to application of the index set forth in Section 2. Said revision is ministerial and shall not require approval by the Board of County Commissioners.

SECTION 4. REPEAL OF LAWS IN CONFLICT.

All local laws and ordinances in conflict with any provisions of this Ordinance are hereby repealed to the extent of such conflict.

SECTION 5. SEVERABILITY.

If any section, paragraph, sentence, clause, phrase, or word of this Ordinance is for any reason held by a court of competent jurisdiction to be unconstitutional, inoperative, or void, such holding shall not affect the remainder of this Ordinance.

SECTION 6. CAPTIONS.

The captions, section headings, and section designations used in this Ordinance are for convenience only and shall have no effect on the interpretation of the provisions of this Ordinance.

SECTION 7. EFFECTIVE DATE.

Unless otherwise stated herein, the provisions of this Ordinance shall become effective upon filing with the Department of State.

APPROVED and ADOPTED by the Board of County Commissioners of Palm Beach County, Florida, on this the _____ day of _____, 2021.

6.2 PLAN REVIEW AND INSPECTION FEES

6.2.1 CONSTRUCTION PLAN REVIEW FEE

Payable at the time of plan submission for potable water, reclaimed water and/or wastewater projects.

- Residential - \$75.00 per dwelling unit for individual or combined service with a \$750.00 minimum.
- Non-Residential - \$75.00 per ERC based on meter size for individual or combined service with a \$750.00 minimum.

6.2.2 CONSTRUCTION INSPECTION FEE

Five percent (5%) of total estimated cost as provided by the developer and approved by the Department for all potable water, reclaimed water and/or wastewater construction improvements with a \$750.00 minimum for Residential and Non-Residential projects. The inspection fees for "Department required" oversized facilities shall be based on construction cost estimates for the "Development required" facilities, subject to minimum sizes as specified in Chapter 3 of the Uniform Policies and Procedures Manual. This fee is due prior to the pre-construction meeting. If the actual construction cost values stated on the "Attachment to the Bill of Sale" exceed the Engineer's cost estimate by \$25,000 or more, then additional construction inspection fees equal to five percent (5%) of the difference between the Engineer's cost estimate and the actual construction values must be paid to the Department prior to any water meters being released.

6.2.3 CONSTRUCTION REQUIRED FEES FOR WASTEWATER OR FIRE LINE CONNECTION

When adding a wastewater only connection to a property already having a potable water service from the Department the required Wastewater Connection and Guaranteed Revenue Fees must be paid prior to a WUD pre-construction meeting being scheduled. In addition, when adding a fire line to a property already having potable water service from the Department, the required Fire Line Connection Fees must be paid prior to a WUD pre-construction meeting being scheduled. The aforementioned fees are only required if the project property already has a water meter(s) that is remaining and/or being relocated as part of the project with no additional meters being added. If additional water meters are proposed for the project the Wastewater and Fire Line Connection and Guaranteed Revenue Fees only need to be paid prior to a new meter being released.

6.3 SERVICE INITIATION FEES

Service Initiation Fees shall include all applicable Guaranteed Revenue Fees, Connection Fees, Service Installation Fees, Fire Line Connection Fees and Franchise Fees.

Payment of Service Initiation Fees will only be accepted after all Plan Review approvals are set in the Development Tracking System, unless otherwise accepted at the discretion of the Department based on the imminent service connection.

6.3.1 GUARANTEED REVENUE FEES

An amount equal to sixty (60) months of Guaranteed Revenue Fees is due at the time of service initiation.

Mandatory Agreement Payment per ERC (equal to 12 months):

Potable Water	<u>\$274.68</u>
Reclaimed Water	\$0.00
Wastewater	<u>\$265.20</u>
Combined Potable Water & Wastewater	<u>\$539.88</u>

* Installation of compound meters requires an additional \$150.00-meter drop fee.

** All services 3" and larger are to be provided and installed by the Customer at the Customer's sole expense; however, the Department will assess a Meter Drop Fee and install the meter.

***A road crossing fee of \$600 per improved travel lane will be assessed in addition to the above fees for service lines 2" and smaller (may be applicable to all installations).

Wastewater Service Installation Fees: At Cost

If a Property Owner requests to have a water meter installed, and the site is not ready for meter installation, the work area will be tagged and the reason for not installing the meter shall be indicated. The Department will return a second time for installation at no charge. If the site still is not ready, a trip fee must be paid prior to each subsequent visit to the site.

6.3.4 FIRE SPRINKLER SYSTEM CONNECTION FEES

6.5 PRETREATMENT FEES

6.5.1 INDUSTRIAL WASTEWATER DISCHARGE PERMIT FEE

Significant Industrial Users (SIU) will be billed \$300 on an annual basis for an Industrial Wastewater Discharge Permit Fee. Other Industrial Users (IUs) requiring an Industrial Wastewater Discharge Permit will be billed \$300 on an annual basis.

6.5.2 OGI FEE

All facilities having an OGI (Oil/Grease Interceptor) will be billed \$300 per account on an annual basis.

6.5.3 MONTHLY INDUSTRIAL WASTEWATER SURCHARGE (IWS)

An IWS shall be billed to and paid by IUs and Oil/Grease Interceptor (OGIUs) exceeding discharge standards as calculated low. The IWS shall not exceed the total charge for water and wastewater base facility fees and commodity fees for the month in which the IWS is charged.

IWS CALCULATION

$$IWS = 8.34(V) [\$0.15^1 (B.O.D. - 480) + \$0.15^2 (SS - 480) + \$1.46^3(OG - 120)]$$

Industrial Wastewater Surcharge in dollars per month

- 8.34 = Conversion factor of 1 milligram per liter (mg/L) = 8.345 lbs./million gallons
V = Volume in million gallons per month based on metered water
B.O.D. = Biochemical Oxygen Demand - 5 days @ 20° Celsius (C), in mg/L
SS = Suspended Solids of industrial waste in mg/L
OG = Oil and Grease in mg/L

- ¹ = Capital and operating costs per mg/L per million gallons for B.O.D. greater than 480 mg/L which includes a 20% buffer on the surcharge standard of 400 mg/L
² = Capital and operating costs per mg/L per million gallons of suspended solids greater than 480 mg/L which includes a 20% buffer on the surcharge standard of 400 mg/L
³ = Capital and operating costs per mg/L per million gallons of oil and grease greater than 120 mg/L which includes a 20% buffer on the surcharge standard of 100 mg/L

6.6. MONTHLY CUSTOMER FEES

The Board of County Commissioners hereby authorizes the Department to update rates in UPAP Chapter 6 and other ministerial changes as necessary in accordance with annual index increases to be displayed on line for customer convenience.

The maximum allowable credit/reimbursement provided by the Department is the difference between the Department required oversized pipe and the pipe size required by the Property Owner (**or minimum pipe sizes identified in Section 3.3.2**), if applicable multiple by the factors listed below:

Oversized Potable and Reclaimed Water Mains:

12" and smaller:	\$3.50 per inch diameter per linear foot.
24":	\$4.50 per inch diameter per linear foot.
30"	\$5.00 per inch diameter per linear foot.
36" and larger:	\$5.50 per inch diameter per linear foot.

Oversized Wastewater Mains:

12" and smaller:	\$4.00 per inch diameter per linear foot.
18":	\$5.25 per inch diameter per linear foot.
20":	\$5.50 per inch diameter per linear foot.
24":	\$6.00 per inch diameter per linear foot.
30"	\$6.25 per inch diameter per linear foot.
36" and larger:	\$6.50 per inch diameter per linear foot.

CHAPTER 6–FEES

GENERAL

All fees identified herein may also be subject to a Franchise Fee, with said Franchise Fee to be added to the standard fees listed.

6.1 ERC AND ERIC EQUIVALENCIES

6.1.1 ERC EQUIVALENCIES

The number of ERCs for a project is determined using the following factors:

Type of Service	ERC Equivalency Factor
Residential – per meter	
Single-Family	
5/8" x 3/4"	1.00
1"	2.90 <u>2.30</u>
1-1/2"	4.50 <u>4.90</u>

6.2 PLAN REVIEW AND INSPECTION FEES

6.2.1 CONSTRUCTION PLAN REVIEW FEE

Payable at the time of plan submission for potable water, reclaimed water and/or wastewater projects.

- Residential - \$75.00 per dwelling unit for individual or combined service with a \$750.00 minimum.
- Non-Residential - \$75.00 per ERC based on meter size for individual or combined service with a \$750.00 minimum.

6.2.2 CONSTRUCTION INSPECTION FEE

Five percent (5%) of total estimated cost as provided by the developer and approved by the Department for all potable water, reclaimed water and/or wastewater construction improvements with a \$750.00 minimum for Residential and Non-Residential projects. The inspection fees for "Department required" oversized facilities shall be based on construction cost estimates for the "Development required" facilities, subject to minimum sizes as specified in Chapter 3 of the Uniform Policies and Procedures Manual. This fee is due prior to the pre-construction meeting. If the actual construction cost values stated on the "Attachment to the Bill of Sale" exceed the Engineer's cost estimate by \$25,000 or more, then additional construction inspection fees equal to five percent (5%) of the difference between the Engineer's cost estimate and the actual construction values must be paid to the Department prior to any water meters being released.

6.2.3 CONSTRUCTION REQUIRED FEES FOR WASTEWATER OR FIRE LINE CONNECTION

When adding a wastewater only connection to a property already having a potable water service from the Department the required Wastewater Connection and Guaranteed Revenue Fees must be paid prior to a WUD pre-construction meeting being scheduled. In addition, when adding a fire line to a property already having potable water service from the Department, the required Fire Line Connection Fees must be paid prior to a WUD pre-construction meeting being scheduled. The aforementioned fees are only required if the project property already has a water meter(s) that is remaining and/or being relocated as part of the project with no additional meters being added. If additional water meters are proposed for the project the Wastewater and Fire Line Connection and Guaranteed Revenue Fees only need to be paid prior to a new meter being released.

6.3 SERVICE INITIATION FEES

Service Initiation Fees shall include all applicable Guaranteed Revenue Fees, Connection Fees, Service Installation Fees, Fire Line Connection Fees and Franchise Fees.

Payment of Service Initiation Fees will only be accepted after all Plan Review approvals are set in the Development Tracking System, unless otherwise accepted at the discretion of the Department based on the imminent service connection.

6.3.1 GUARANTEED REVENUE FEES

An amount equal to sixty (60) months of Guaranteed Revenue Fees is due at the time of service initiation.

Mandatory Agreement Payment per ERC (equal to 12 months):

Potable Water	\$251.76 <u>\$274.68</u>
Reclaimed Water	\$0.00
Wastewater	\$353.40 <u>\$265.20</u>

* Installation of compound meters requires an additional \$150.00-meter drop fee.

** All services 3" and larger are to be provided and installed by the Customer at the Customer's sole expense; however, the Department will assess a Meter Drop Fee and install the meter.

***A road crossing fee of \$600 per improved travel lane will be assessed in addition to the above fees for service lines 2" and smaller (may be applicable to all installations).

Wastewater Service Installation Fees: At Cost

If a Property Owner requests to have a water meter installed, and the site is not ready for meter installation, the work area will be tagged and the reason for not installing the meter shall be indicated. The Department will return a second time for installation at no charge. If the site still is not ready, a trip fee must be paid prior to each subsequent visit to the site.

6.3.4 FIRE SPRINKLER SYSTEM CONNECTION FEES

6.5 PRETREATMENT FEES

6.5.1 INDUSTRIAL WASTEWATER DISCHARGE PERMIT FEE

Significant Industrial Users (SIU) will be billed \$300 on an annual basis for an Industrial Wastewater Discharge Permit Fee. Other Industrial Users (IUs) requiring an Industrial Wastewater Discharge Permit will be billed \$300 on an annual basis.

6.5.2 OGI FEE

All facilities having an OGI (Oil/Grease Interceptor) will be billed \$300 per account on an annual basis.

6.5.3 MONTHLY INDUSTRIAL WASTEWATER SURCHARGE (IWS)

An IWS shall be billed to and paid by IUs and Oil/Grease Interceptor (OGIUs) exceeding discharge standards as calculated low. The IWS shall not exceed the total charge for water and wastewater base facility fees and commodity fees for the month in which the IWS is charged.

IWS CALCULATION

$IWS = 8.34(V) \{ \cancel{\$0.45^1} \underline{\$0.15^1} (B.O.D. - 480) + \cancel{\$0.18^2} \underline{\$0.15^2} (SS - 480) + \$1.46^3(OG - 120) \}$ Industrial Wastewater Surcharge in dollars per month

- 8.34 = Conversion factor of 1 milligram per liter (mg/L) = 8.345 lbs./million gallons
- V = Volume in million gallons per month based on metered water
- B.O.D. = Biochemical Oxygen Demand - 5 days @ 20° Celsius (C), in mg/L
- SS = Suspended Solids of industrial waste in mg/L
- OG = Oil and Grease in mg/L

¹ = Capital and operating costs per mg/L per million gallons for B.O.D. greater than 480 mg/L which includes a 20% buffer on the surcharge standard of 400 mg/L

² = Capital and operating costs per mg/L per million gallons of suspended solids greater than 480 mg/L which includes a 20% buffer on the surcharge standard of 400 mg/L

³ = Capital and operating costs per mg/L per million gallons of oil and grease greater than 120 mg/L which includes a 20% buffer on the surcharge standard of 100 mg/L

6.6. MONTHLY CUSTOMER FEES

The Board of County Commissioners hereby authorizes the Department to update rates in UPAP Chapter 6 and other ministerial changes as necessary in accordance with annual index increases to be displayed on line for customer convenience.
