Public Hearing []

Department: Water Utilities Department

I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: Work Authorization (WA) No. 15 to the 2019 Pipeline Continuing Construction Contract (Continuing Contract) with Johnson-Davis Incorporated (Contractor) for the West Boca Force Main Interconnect Program (Project) in the amount of \$1,557,110.78.

Summary: On February 11, 2020, the Board of County Commissioners approved the Palm Beach County Water Utilities Department (PBCWUD) Contract (R2020-0160) with Contractor. WA No. 15 provides for the interconnection of the existing force main system at three (3) locations with the associated valves. These interconnections are located at the southeast corner of Lake Worth Drainage District (LWDD) E-1 Canal and LWDD Hidden Valley Canal, Delray Beach; southwest corner of West Palmetto Park Road and State Road 7 (SR 7), Boca Raton; and at the intersection of SW 3rd Street and SW 64th Terrace, Boca Raton. The Project includes the installation of approximately 130 linear feet of 16-inch, 30 linear feet of 18-inch, and 135 linear feet of 36-inch force main pipes including the associated valves, site restoration and appurtenances.

The Continuing Contract was procured under the requirements of the Equal Business Opportunity Ordinance. On April 3, 2019, the Goal Setting Committee applied an Affirmative Procurement Initiative (API) of a mandatory 20% Small Business Enterprise (SBE) subcontracting participation. The Continuing Contract provides for 20.07% SBE participation. WA No. 15 includes 37.06% SBE participation which includes 0.15% M/WBE, 0.15% MBE (B). The cumulative SBE participation including WA No. 15 is 23.63%, which includes 0.02% M/WBE, 0.02% MBE (B). Contractor is a Palm Beach County based company. The Project is included in the PBCWUD FY21 budget. (PBCWUD Project No. 20-027) District 5 (MJ)

Background and Justification: The SR 7 Corridor in the west area of the City of Boca Raton contains several parallel force main pipelines including parallel regional force mains. These independent force main systems generally convey wastewater north from the West Boca area to the Southern Region Water Reclamation Facility. PBCWUD desires to interconnect segments of the existing force main system at three (3) different locations to provide redundancy in case of a break in one of the pipelines. The Project will also improve the level of service, reliability and operability of PBCWUD's wastewater collection system.
