Lock Out/Tag Out Procedures

**FACILITIES DEVELOPMENT & OPERATIONS DEPARTMENT
FLEET MANAGEMENT DIVISION**

STANDARD PROCEDURE NO: **FMO-015**
TITLE: **LOCKOUT/TAGOUT**
ISSUED TO: Fleet Management Division
WRITTEN BY: Fleet Management Division

Issue Date: 11/29/93 Effective Date: 11/29/93 Revised: 04/09/18
01/07/99, 12/01/08, 11/10/11

PURPOSE:

The Lock out/Tag out procedure is established to specify the guidelines which Fleet Management Division employees will follow for locking/tagging out vehicles/equipment in need of such for repair or safety reasons.

POLICY

It is the policy of Fleet Management to lock out/tag out (LOTO) any vehicle/equipment (asset) which is unsafe to operate or for which operation may compromise the integrity of the asset.

Annual training for this procedure will be held for all authorized employees.

PROCEDURE

- 1) For the purpose of this procedure, all Fleet Management shop employees are considered authorized employees.
- 2) Assets being serviced in a shop or in the field meeting the following criteria will be LOTO:
 - a) An asset that is not currently being worked on for any reason (i.e. shift over, waiting for parts, etc.) where the asset could be damaged.
 - b) An asset in for repair of safety related items but not currently being worked on (safety related items are any component that could cause damage or harm to people or property, i.e. brakes, steering, suspensions, fuel system, etc.).

State Attorney/ Interlocal Agreement

- c) An asset where damage could be done if started with any component or fluid missing or malfunctioning; i.e. low or no oil, no coolant, sentinel systems, equipment out of proper tolerance, etc.
 - d) If equipment/vehicle is physically in the shop and disassembled to the point of not being able to be operated, this would be considered locked out by this policy.
 - e) If an authorized employee is unsure whether an asset meets the criteria, the asset MUST be LOTO.
- 3) When an asset is determined to be in need of LOTO, an authorized employee will do the following:
- a) Motorized asset – Place a “DO NOT OPERATE” plastic tag as close as possible to the area where the asset is started or operated.
 - b) Non-motorized asset (trailer, mower, etc.) – Place a “DO NOT OPERATE” plastic tag at the hitch or tongue to prevent the asset from being towed or moved.
 - c) All assets –
 - 1) The “DO NOT OPERATE” tag is to be placed with a tightly wrapped plastic tie strap so that a tool must be used to remove it.
 - 2) The employee number of the authorized employee and the related shop telephone number must be written on the tag.
 - 3) The asset will be locked out by disabling it through the removal of the battery cable or other disablement and padlocking the effected areas with a hasp or lock box.
 - 4) Another tag will be placed with the related lock.
 - d) All locks used for the LOTO procedure will be the same type and will be restricted for LOTO only. The locks will all be re-settable combination locks and combinations will be kept in a locked box in designated area.
- 4) After an asset has been LOTO:
- a) Tags and lock out devices are never to be bypassed, ignored or otherwise defeated.

State Attorney/ Interlocal Agreement

b) If another authorized employee works on the same asset on a repair not related to the first LOTO, that employee would place a lock next to the first lock following the same LOTO procedures.

5) Removal

a) Each LOTO device shall be removed by the authorized employee who installed the device after repairs have been completed. In the event that the employee who installed the device is not available to remove it, the device may be removed by another authorized employee with the approval of the Fleet Operations Supervisor or Equipment Analyst.

b) If the combination must be given to another authorized employee, the employee assigned to the lock will change the combination of all his/her locks and report the change to the Fleet Operations Supervisor.

Palm Beach County
Vehicle Replacement Fund

TO: ALL DEPARTMENTS

FROM: SARA BURNAM
DIRECTOR, FLEET MANAGEMENT

PREPARED BY: Fleet Management Division

SUBJECT: Replacement Policy Program

PPM #: FMO-016

<u>ISSUE DATE</u>	<u>EFFECTIVE DATE</u>
10/1/91	12/30/20

PURPOSE:

This policy is established to define the vehicle/equipment replacement criteria, replacement schedule and Fleet Management's Policy Fee charges for all vehicles/equipment (assets) covered under Fleet's Replacement Policy Program (Program).

UPDATES:

Future updates to this PPM are the responsibility of the Director of the Fleet Management Division.

POLICY:

The Program is established to provide a funding source for the standardized replacement of assets for those County Departments and other agencies who choose to participate in the Program.

All assets participating in the Program will be purchased, replaced and maintained by Fleet Management. Replacement assets will be purchased according to criteria based upon useful life, mileage, usage, cost of repairs, life cycle costing and/or other extenuating circumstances (theft, extensive damage, corrosion, etc.).

PROCEDURE:

1) As part of the annual Budget process, Fleet Management will evaluate all assets which are part of the Program to determine which assets may exceed the following replacement criteria:

- A. Useful Life/Mileage/Hours *

Specialized Equipment (ATV's, turf equipment, etc.)	5 years/ N/A
Light Duty (cars, all vans, trucks less than 10,001 GVWR)	6 years/ 80,000miles
Medium Duty (trucks 10,001 GVWR or more)	7 years/ 90,000miles
Heavy Equipment (off-road vehicles/equipment)	up to 10 years/ 10,000 hours
<i>(Varies depending on Machine Class)</i>	
Trailers	10 years/ N/A

*Note: These criteria might vary dependent upon the department's utilization of the asset.

B. Economic Evaluation/Life Cycle Costing

Assets are also economically evaluated annually to determine if they may not be cost effective to maintain. Based upon the economic evaluation, it may be recommended that an asset be replaced in the upcoming Fiscal Year whether or not it meets the useful life/mileage/hours criteria.

- 2) Program assets stolen, suffering extensive damage or requiring repairs that are not cost effective may be replaced immediately either through reassignment from the loaner fleet or by purchase if funding is available.
- 3) Assets increasing the size of the Program can only be added by the following:
 - A. As part of the annual budget process at the request of the user department and upon approval of the Budget by the BCC
 - B. Non-budget additions require the submission of an approved Mid-Year Fleet Expansion Request Form (Attachment A) following the criteria in County PPM CW-0-035. A low utilization report must be completed and attached to the Mid-Year Fleet Expansion Request Form (Attachment A) submitted to administration.
