Instructions: County Government Application Form 2021-2022

The first application form page has five numbered items.

However, note that item 2 on the first application page is where the county's authorized person must provide his/her signature and date.

Item 4 describes the content of the current "resolution" that is required. However, if a previous resolution has continuing authority, include a signed message stating such and provide a copy of the previous resolution.

Item 5 of the first page of the application form asks for the name of the organization(s) to which you decide to allocate funds from your new county grant. The second page of the application form is the budget page. One of these budget pages is needed for each organization listed in item 5.

The county alone has the authority to use all of the grant funds itself or to provide some of the funds to other organizations within the county. However, the county remains responsible to the state for all funds.

The budget costs must total the exact amount of <u>new</u> funds for your grant. You can request budget changes and add to the new grant budget unexpended funds from the prior grant after the new grant begins.

<u>The Request for Grant Fund Distribution Form</u> is the last page herein and you must complete only the top part of the form. State EMS will complete the bottom part, as stated on the form.

You should copy all forms on your computer to use them. If you place them in restricted editing mode, you can use your keyboard Tab key to go from field to field.
