**ATTACHMENT 3-A
REVISED GRANT WORK PLAN**

PROJECT TITLE: South Lake Worth IMP Implementation

PROJECT LOCATION: The Project is located between Department of Environmental Protection (Department or DEP) reference monuments R151 and R152 along the Atlantic Ocean in Palm Beach County, Florida.

PROJECT BACKGROUND: The South Lake Worth Inlet Management Plan (IMP) was adopted in March 1999, establishing an annual bypassing objective of 88,000 cubic yards of sand with 60,000 cubic yards to be bypassed by the sand transfer plant. A new sediment budget study is currently being finalized and will be a component of an updated IMP. The interior deposition basin (sand trap) was expanded in 2002 and 2015 and the next dredging project is proposed for winter 2020/21. Proposed activities include ongoing sea turtle monitoring and installation of a new 30" diameter steel pipe casing under state road A1A, which is currently in the permitting stage. Additional design funds were added in FY22-23.

PROJECT DESCRIPTION: The Project consists of design, construction, and monitoring.

PROJECT ELIGIBILITY: The Department has determined that 100 percent of the non-federal Project costs are eligible for state cost sharing. Therefore, the Department's financial obligation shall not exceed the total sum of \$1,362,500.00 for this Project or up to 75 percent of the non-federal Project cost sharing of \$1,275,000.00 for Design and Construction and up to 50 percent of the non-federal Project cost sharing of \$87,500.00 for applicable Design and Monitoring tasks, if applicable, for the specific eligible Project items listed, whichever is less. Any indicated federal cost sharing percentage is an estimate and shall not affect the cost sharing percentages of the non-federal share. The parties agree that eligibility for cost sharing purposes will be maintained pursuant to 62B-36, Florida Administrative Code (F.A.C.).

The Local Sponsor will be responsible for auditing all travel reimbursement expenses based on the travel limits established in Section 112.061, Florida Statute (F.S.).

Pursuant to Sections 161.091 - 161.161, F.S., the Department provides financial assistance to eligible governmental entities for beach erosion control and inlet management activities under the Florida Beach Management Funding Assistance Program.

Pursuant to 62B-36.005(2)(d), F.A.C., the Local Sponsor has resolved to support and serve as local sponsor, has demonstrated a financial commitment, and has demonstrated the ability to perform the tasks associated with the beach erosion control project as described herein.

The Project shall be conducted in accordance with the terms and conditions set forth under this Agreement, all applicable Department permits and the eligible Project task items established below. All data collection and processing, and the resulting product deliverables, shall comply with the standards and technical specifications contained in the Department's Monitoring Standards for Beach Erosion Control Projects (2014) and all associated state and federal permits, unless otherwise specified in the approved scope of work for an eligible Project item. The monitoring standards may be found at:

Environmental monitoring includes hardbottom, seagrass, and mangrove resources. Department approval of the consultant's mitigation plan will be required prior to execution of this Agreement. If at any time the Local Sponsor and/or its engineering consultant fails to comply with this provision, the Local Sponsor agrees to reimburse the Department all funds provided by the Department associated with environmental monitoring for the Project listed.
