EXHIBIT A2

Provider: Palm Beach County Substance Abuse Coalition, Inc. dba Palm Beach County Behavioral Health Coalition (PBCBHC)
Program: County Recovery Community Organization (RCO) and allied Recovery Community Center (RCC) Network
Location: Palm Beach County - Countywide
Service: Recovery Supports
Funding: Opioid Response

Scope of Work:**A. Project Description**

For this Agreement, Palm Beach County Substance Abuse Coalition, Inc., dba Palm Beach County Behavioral Health Coalition (PBCBHC) will serve as the fiscal agent to the Countywide RCO and community-based RCO and allied RCC Network (Network). As the fiscal agent, the PBCBHC administers program funds external to their own and may, upon request of the Network and a signed Memorandum of Understanding, offer technical assistance to assist in sustainability planning, community engagement, building volunteers, and training. The Countywide RCO oversees two existing RCOs and allied RCCs in Delray Beach and Lake Worth Beach. It will initiate the development of two (2) additional RCOs and allied RCCs in Belle Glade and Riviera Beach. The Countywide RCO will support the RCOs' and RCCs' development and implementation of recovery supports in these respective communities. The Substance Abuse and Mental Health Services Administration (SAMHSA) and the American Society of Addiction Medicine (ASAM) recognized recovery supports as integral on the spectrum of recovery. There is a direct correlation between the amount of time spent at an RCC and an individual's sustained recovery (Kelly, J. 2015, "Characterization and Evaluation of Addiction Recovery Community Centers").

The RCOs and allied RCCs in Delray Beach and Lake Worth Beach are peer-run, independently led organizations governed by recovery representatives of local communities of recovery. They aim to provide recovery support services through certified peers and other non-clinical support services. The anticipated RCOs and allied RCCs will reflect the same principles as those already established and operational and become an integral part of the overall Network.

RCCs offer a safe space for individuals seeking recovery or who are in recovery to access resources, build positive relationships and a sense of community, and continue to work on their recovery journey. They facilitate a "one-stop-shop" modality to improve the recovery capital of individuals receiving support services. These services are expected to result in measurable enhancements in quality of life, functioning, and well-being to achieve long-term recovery as measured and monitored by the Recovery Capital Index (RCI).

B. Priority Population: Individuals, families, and others directly impacted by opioid and substance use disorder (Participants).

No individual shall be denied full access to, participation in and enjoyment of Network services or activities, available or offered to others, due to the use of legitimately prescribed medications.

C. Number of Clients Served: 1,200 unduplicated participants throughout the Network annually

D. Service Delivery

1. The Countywide RCO shall:

- a. Be responsible for administration and oversight of the RCO/RCC Network.
- b. Facilitate an RCO development process in identified geographic areas which include, but are not limited, to the following steps:
 1. Cultivate Recovery Champions, which involves identifying individuals in the community that support individuals in recovery and want to devote efforts to strengthen the recovery community. These champions may include, but are not limited to: people in recovery, family members and/or friends of people with a substance use disorder, professionals like law enforcement, physicians, local commissioners, and judges who understand the power of supporting recovery.
 2. Organize a listening session for individuals interested in supporting recovery.
 3. Develop a Symposium plan which involves a series of community meetings where the community comes together to get to know each other, learn to work together, and ensure that everyone that wants to be at the table is included.
 4. Plan a community symposium, which provides a venue for community discussion on its assets and opportunities for growth in developing supports for recovery.
 5. Organize an RCO Visioning and organizational development session, where the community builds the RCO structure including its mission, Board of Directors, Organization Bylaws, prepares and/or files papers as required by state and local regulations.
- c. Facilitate a development process for recovery community members who may desire to organize around shared interests that is aligned with established RCOs and consistent with RCO guiding principles and development processes.
- d. Establish a Recovery Coach School to train and certify individuals to become recovery coaches who promote recovery and assist individuals in removing obstacles to recovery and serve as a mentor for people seeking or already in recovery from a substance use disorder.
- e. Facilitate a County-wide leadership team comprised of representatives from each of the County's RCO's to educate on best practices; build recovery leadership capacity; and sustain the Network. Host, at a minimum, quarterly team meetings to conduct trainings and facilitate communication between the County's RCO / RCC Network.
- f. Review RCI reports monthly to assess whether services, trainings and events are addressing the needs of the RCC's participants.

- g. Collaborate with County officials, strategic partners and community members to plan for and develop affordable and supportive housing capacity for the target population.

2. Community-based RCOs/RCCs shall:

- a. Provide peer-to-peer recovery support services to promote sustained recovery and prevent recurrence of substance use disorder in a supportive substance-free environment, but shall not provide any services that require a facility license. A substance-free environment shall be defined as one in which all RCO/RCC staff, volunteers, and program participants agree to keep the Center free from prohibited substances at all times. Prohibited substances are defined to include alcohol, as well as illicit and illegal drugs and related paraphernalia.
- b. Provide educational classes, outreach services, information & referral, wellness recovery activities, harm reduction, and recovery support services informed by Recovery Capital Survey responses.
 - 1. Programming may include, but not be limited to services focused on wellness, nutrition and illness management, self-care, smoking cessation, stress management, financial management, literacy education, job and parenting skills, social events, and recreational activities.
 - 2. Provide housing assistance services such as finding sober living homes, apartments, roommates, as well as telephone support for the same.
- c. Allow individuals access to training, social, educational, and recreational opportunities as well as information about substance use disorder treatment, recovery support services, and information about other community resources.
- d. Ensure that all services and activities are led and driven by the recovery community (i.e. individuals who have experienced addiction and recovery, either directly or indirectly as a family member or friend) via the RCO.
- e. Provide services by appropriately trained, certified, and supervised individuals skilled in the constructs of recovery, peer support interventions, and recovery capital. Peers in process of obtaining certification shall be within 6-months of being certified to be considered for peer support positions.
- f. Provide services measured by use of RCI and certified by The Association of Recovery Community Organizations (ARCO).
- g. Track the RCO/RCCs' progress of being established and once established, provide number and types of activities (training, services), referrals, and individuals served on a monthly and quarterly basis.
- h. Review RCI reports monthly to develop RCO/RCC services, trainings and events that are addressing and are aligned with the needs of the RCC's participants.

E. Other Requirements:

1. RCO Boards, shall be comprised of representatives from the local recovery community and meet regularly. Board Meeting Minutes and sign-in sheets shall be provided with the monthly reports.
2. RCO Boards shall also acknowledge and agree that the services and activities are member-inspired, self-determined, and premised on peer support.
3. RCOs shall participate as needed in research conducted by the County or its designated agent(s), including but not limited to providing access to data with appropriate permissions, providing access to sites and facilitating access to participants who may volunteer for interviews.
4. The Network services shall comport with SAMHSA’s working definition of Recovery and its ten guiding principles;¹ Guiding Principles and Elements of Recovery-Oriented Systems of Care;² Ethical Guidelines for the Delivery of Peer-based Recovery Support Services;³ and Recovery Capital Indexing⁴.
5. The Countywide RCO shall attend the Palm Beach County Advisory Committee on Behavioral Health, Substance Use and Co-occurring Disorders meetings and ensure that all Network services and activities are aligned with the Palm Beach County Behavioral Health, Substance Use and Co-occurring Disorders Master Plan Update 2022.
6. PBCBHC will serve solely as a fiscal agent to administer Network funds external to their own and may, upon request of the Network and a signed Memorandum of Understanding, offer technical assistance to assist the Network in sustainability planning, community engagement, building volunteers, and training. The fiscal agent shall respect the Network’s role in assessing and responding to the evolving recovery support and recovery advocacy needs of the recovery community and shall not seek to influence the Network in its exercise of this role.
