I. EXECUTIVE BRIEF

Motion and Title: **Staff recommends motion to:**

**A) ratify** the signature of the Mayor on a Waterways Assistance Program (WAP) grant application submitted to the Florida Inland Navigation District (FIND) on March, 10, 2023, requesting \$800,000 to fund 50% of the construction costs associated with the redevelopment of the southern portion of Bert Winters Park;

**B) adopt** a Resolution for Assistance under the FIND WAP for grant funding for the redevelopment of the southern portion of Bert Winters Park in the amount of \$800,000;

**C) authorize** the County Administrator or designee to execute the Grant Project Agreement, as well as task assignments, certifications, standard forms, or amendments to the Agreement that do not change the scope of work or terms and conditions of the Agreement;

**D) authorize** the Director of the Parks and Recreation Department to serve as the Project Director; and

**E) authorize** the Director of the Parks and Recreation Department to serve as the Project Liaison.

**Summary:** The total cost of the project identified in the FIND WAP grant application is \$1,600,000. This grant application requests \$800,000 to fund up to (50%) of the redevelopment of the southern portion of Bert Winters Park. Grant project elements include renovation of the existing day use docks, parking and construction of new picnic facilities, canoe/kayak launch, parking, lighting, landscaping and associated infrastructure. **If the FIND grant is awarded, the County will provide matching funds using Infrastructure Sales Tax (IST) funding.** Due to grant-related items requiring timely execution by the County, staff is requesting Board of County Commissioners (BCC) approval for the County Administrator or designee to approve grant documents and for the Parks and Recreation Director to act as the Project Director and Liaison Agent for this project. The grant requires a Restrictive Covenant be recorded in public records dedicated to public boating for a period of thirty (30) years from date of completion. District 1 (AH)

**Background and Justification:** Bert Winters Park is 16.5 acre park located along the Intracoastal Waterway in northern Palm Beach County. The park is being redeveloped in three phases. Phase One was completed in 2018 and included the construction of a second entrance road along the northern portion of the park to improve traffic flow and circulation; construction of 45 new boat trailer parking spaces; a new restroom; three new floating staging docks; and renovation of the existing boat ramps. Phase Two, which is the current phase, includes a playground, a canoe/kayak launch, picnic facilities, parking, lighting, landscaping and associated infrastructure. Phase Three is expected to include the renovation and reconfiguration of the athletic fields.

FIND's timeframe for this application did not allow for prior approval by the BCC. In order to meet the grant application deadline, Mayor Weiss signed the application on behalf of the BCC as authorized by Palm Beach County Administrative Code, Section 309.00. The code requires the grant application be presented to the BCC for approval at their next available meeting after signature by the Mayor.

**RE:** Authorization to Submit Grant Application

Pursuant to Section 309 of the Administrative Code, your signature is requested for a Florida Inland Navigation District – Waterways Assistance Program grant. If awarded this grant will help fund the construction costs associated with the redevelopment of southern portion of Bert Winters Park. The Parks and Recreation Department is requesting \$800,000 which will be matched with \$800,000 from Infrastructure Sales Tax proceeds. If awarded, the two year grant contract will run from the fall of 2023 until the fall of 2025, with a possible one year time extension.

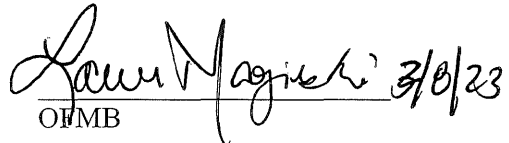

The emergency signature process is being utilized because there is not sufficient time to submit this funding request through the regular Board of County Commissioners' agenda process before the application due date on March 27, 2023. Staff will submit the application for the Board's review at the next available meeting scheduled for May 16, 2023.

The Phase Two of the Bert Winters Park Redevelopment project includes a new playground, a canoe/kayak launch, and picnic facilities. Additional project elements include the construction of new parking, lighting, landscaping and associated infrastructure as well as the renovation of the existing vehicle parking and boat dock.

If you have any questions regarding this grant application, please contact Jean Matthews, Senior Planner with the Parks and Recreation Department at 561-966-6652.

**1) PRIORITY LIST:**

- a) **Denote the priority list category of this project from Attachment C in the application.**  
(The application may only be of **one** type based upon the predominant cost of the project elements.)

7. Acquisition, dredging, shoreline stabilization and development of public boat docking and mooring facilities.

- b) **Explain how the project fits this priority category.**

The Bert Winters Park Redevelopment project fits into priority category #7, because the project will be expanding parking and redeveloping a public boat docking facility and constructing a new canoe/kayak launch.

*(For reviewer only)*

*Max. Available Score for application* \_\_\_\_\_

*Question 1. Range of Score (1 to \_\_\_\_\_ points)*

---

---

## 2) WATERWAY RELATIONSHIP:

- a) Explain how the project relates to the ICW and the mission of the Navigation District.

Bert Winters Park is located directly on the Intracoastal Waterway with three boat ramps and boat trailer parking. The project includes two onsite dry retention areas, designed to keep water onsite during storm events. The onsite water retention reduces sheet flow, thereby reducing sediment into the ICW.

- b) What public access or navigational benefit to the ICW or adjoining waterway will result from this project?

Bert Winters Park with over eight hundred feet on the Intracoastal Waterway serves not only as a boat launching facility, but also as a boater destination. The renovated day use docks will provide a location for boaters to tie up and enjoy the park. In addition, the new canoe/kayak launch provide non-motorized vessels access to the Intracoastal.

*(For reviewer only)*  
*(1-6 points)*

---

## 3) PUBLIC USAGE & BENEFITS:

- a) Describe how the project increases/improves boater/public access.  
Estimate the amount of total public use.

It is difficult to quantify public usage, Bert Winters Park boat/trailer parking is full most nice weekends and holidays. Expansion of the waterfront facilities will provide the public with a venue to recreate and enjoy the Intracoastal Waterway.

- b) Discuss the regional and local public benefits provided by the project.  
Can residents from other counties of the District reasonably access and use the project? Explain.

The project is located less than 8 miles from the Martin/Palm Beach County line and it is reasonable for residents from other counties to both launch at the park and to use it as a boater destination.

- c) Has the local Sponsor implemented or plans to implement any boating access, speed zone, commercial access or other restrictive use of this site?

Bert Winters Park is deed restricted limiting the use to a public park for recreation purposes. The County sometimes allows commercial dock/sea wall construction companies to use the boat ramps for loading material with a use permit, no other commercial activity is allowed on this site.

*(For reviewer only)*  
*(1-8 points)*

---

---

#### 4) TIMELINESS:

- a) **Describe current status of the project and present a reasonable and effective timeline for the completion of the project consistent with Attachment E-6.**

The planning, design and permitting for this project are underway. The design is scheduled to be complete by October 2023. If funding is awarded the County will execute the grant contract in October 2023 and establish budget by January 2024. A construction RFP will be issued in January 2024, with the construction contract awarded in April 2024 with project completion April 2025.

- b) **Briefly explain any unique aspects of this project that could influence the timeline.**

Once environmental permits are issued, this is a straight forward construction project, with the majority of the work occurring on the uplands. While supply chain issues are generally improving, it is possible difficulty in obtaining materials and/or labor could slow down this project.

*(For reviewer only)*  
*(1-3 points)*

---

#### 5) COSTS & EFFICIENCY:

- a) **List funding sources and the status and amount of the corresponding funding that will be utilized to complete this project including any cash match or matching grant funds.**

If grant funding is awarded it will be matched with Palm Beach County Infrastructure Sales Tax.

- b) **Identify and describe any project costs that may be increased because of the materials utilized or specific site conditions.**

The is a straight forward project, however the project includes 18 new car parking spaces, renovation of existing car parking spaces, and construction of four family picnic shelters. The price of oil based products and wood continue to increase and prices are unpredictable.

- c) **Are there any fees associated with the use of this facility? If so, please list or attach fee sheet.**

The County charges for boat/trailer parking, an annual permit is available to all boaters regardless of residency for \$37.50 or boaters can pay \$10 per day to park.

- d) **If there are any fees, please explain where these fees go and what they are used for. In addition, please provide a listing of the fees charged by similar facilities, public and private, in the project area.**

The fees generate by the boat/trailer parking go into the Palm Beach County General Fund.

*(For reviewer only)*  
*(1-6 points)*

---

---

**6) PROJECT VIABILITY:**

**a) Why is the project necessary and what need will it fill? Why are existing facilities insufficient to meet demand?**

Paddle boarding, canoe and kayaking have taken off in popularity in the last several years. The area from the Donald Ross Road Bridge south to past the PGA Road Bridge is in a regulatory slow speed zone. Having a non-motorized vessels launching at this park provides boaters over three miles of quiet water to paddle and enjoy the environment. This project will provide an additional access point on the Intracoastal Waterway to help meet the growing demand for these sports. Once the project is complete the renovated day use docks will allow boaters to tie up and use the park as a boater destination.

**b) Clearly demonstrate how the project will continue to be maintained and funded after funding is completed.**

The Palm Beach County Parks and Recreation Department has a full time maintenance division with 302 employees and a \$36,647,486 operating budget.

**c) Is this project referenced or incorporated in an existing maritime management, public assess or comp plan?**

The Palm Beach County Comprehensive Plan's Coastal Management Element seeks to balance the provision of water-related recreational activities and preservation of coastal and natural resources.

Objective 1.5 Protection of Commercial and Recreational Marine Waterfronts.

Policy 1.5a; The County shall implement strategies to protect working commercial and recreational marine waterfronts by pursuing the following actions:

10. *Securing pedestrian access to waterfronts and enhancing existing waterfront parks to develop public marinas where feasible.*

The development of waterfront picnic facilities on the Intracoastal Waterway help fulfill this Objective.

**7) PERMITTING:**

- a) Have all required environmental permits been applied for? (USACE, DEP and WMD)  
If permits are NOT required, explain why not.**

Architecture Green has been hired to complete the planning, design and permitting for this project. The consultant has applied for a Florida Department of Environmental Protection (DEP) and an Army Corp of Engineers permits. A SFWMD permit is not required.

- b) If the project is a Phase I project, please provide a general cost estimate for the future Phase II work.**

This is a Phase Two project and construction costs are estimated at \$1,600,000.

- c) Detail any significant impediments that may have been identified that would potentially delay the timely issuance of the required permits.**

There are no known impediments that would potentially delay issuance of environmental permits.

*(For reviewer only)*  
*(1-4 points)*

---

---

## 8) PROJECT DESIGN:

- a) **Has the design work been completed?  
If this is a Phase I project, has a preliminary design been developed?**

The preliminary design work has been completed and a master plan has been developed. Architecture Green is under contract to complete the planning, design and permitting for this project, the design and permitting are expected to be complete by August 2022.

- b) **Are there unique beneficial aspects to the proposed design that enhance public usage or access, minimize environmental impacts, improve water quality or reduce costs?**

Improvements to the uplands will address stormwater and drainage issues, thereby reducing or eliminating runoff into the Intracoastal. The new canoe/kayak launch and renovated dock will be ADA compliant, providing water access to park patrons with mobility issues.

*(For reviewer only)  
(1-2 points)*

---

## 9) CONSTRUCTION TECHNIQUES:

- a) **Briefly explain the construction techniques and materials to be utilized for this project. Identify any unique construction materials that may significantly alter the project costs. If a Phase 1, elaborate on potential techniques.**

The consultant is still determining if floating or fixed docks will be more appropriate at this site. If the consultant recommends using floating docks they will be ADA accessible via an aluminum gangway, and the docks will be a fiber reinforced concrete shell with a polystyrene foam core, anchored with 18" pre-stressed concrete piles. The floating docks will be designed to a 25-year storm conditions and have an expected life of 25 years.

- b) **What is the design life of the proposed materials compared to other available materials?**

All materials will be the highest grade marine quality and approved by the Florida Department of Transportation. Overall design takes into consideration sea level rise.

*(For reviewer only)  
(1-3 points)*

---

---

**10) ENVIRONMENTAL COMPONENTS:**

- a) How has the facility where the project is located demonstrated commitment to environmental compliance, sustainability, and stewardship?**

The redevelopment of the southern portion of Bert Winters Park will address drainage and stormwater issues and will be designed to prevent runoff into the Intracoastal Waterway, thereby improving water quality.

- b) What considerations, if any, have been made for sea level rise impacts in the design and life span of this project?**

If floating docks are selected they will readily adopt to sea level rise and extreme tidal changes. If fixed docks are selected or a combination of fixed and floating docks, sea level rise projections over the next 25 years (estimated life of docks) will be taken into consideration in the design.

**RATING POINT TOTAL** \_\_\_\_\_

**Note:**

The total maximum score possible is dependent upon the project priority category but cannot exceed 50 points unless the project qualifies as an emergency-related project. The minimum score possible is 10 points. A score of 35 points or more is required to be considered for funding.

NOW THEREFORE, be it resolved by the Palm Beach County Board of County Commissioners that the project described above be authorized,

AND, be it further resolved that said Palm Beach County Board of County Commissioners make application to the Florida Inland Navigation District in the amount of \$800,000 or 50% of the actual cost of the project in behalf of said Palm Beach County Board of County Commissioners

AND, be it further resolved by the Palm Beach County Board of County Commissioners that it certifies to the following:

1. That it will accept the terms and conditions set forth in FIND Rule 66B-2 F.A.C. and which will be a part of the Project Agreement for any assistance awarded under the attached proposal.
2. That it is in complete accord with the attached proposal and that it will carry out the Program in the manner described in the proposal and any plans and specifications attached thereto unless prior approval for any change has been received from the District.

3. That it has the ability and intention to finance its share of the cost of the project and that the project will be operated and maintained at the expense of said Palm Beach County Board of County Commissioners for public use.

4. That it will not discriminate against any person on the basis of race, color or national origin in the use of any property or facility acquired or developed pursuant to this proposal, and shall comply with the terms and intent of the Title VI of the Civil Rights Act of 1964, P. L. 88-352 (1964) and design and construct all facilities to comply fully with statutes relating to accessibility by handicapped persons as well as other federal, state and local laws, rules and requirements.

5. That it will maintain adequate financial records on the proposed project to substantiate claims for reimbursement.

6. That it will make available to FIND if requested, a post-audit of expenses incurred on the project prior to, or in conjunction with, request for the final 10% of the funding agreed to by FIND.
