

PALM BEACH COUNTY
BOARD OF COUNTY COMMISSIONERS

AGENDA ITEM SUMMARY

Meeting Date: June 13, 2023 Consent Regular
Public Hearing

Department: Water Utilities Department

I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: Work Order (WO) No. 4 to the Pipeline Wet Tapping and Line Stops Continuing Construction Contract (Continuing Contract) with Rangeline Tapping Services, Inc. (Contractor), for the Line Stop Fittings for Emergency Services (Project) in the amount of \$224,490.

Summary: On January 12, 2021, the Board of County Commissioners approved the Palm Beach County Water Utilities Department (PBCWUD) Contract (R2021-0062) with Contractor. WO No. 4 provides for the furnishment of all the material necessary for future emergency installation of line stops on pressurized pipes within the PBCWUD service area. The Project includes the supply of epoxy coated line stop fittings with 304 Stainless Steel (SS) hardware and epoxy coated Ductile Iron (DI) carbon steel blow down saddles with 304 SS dual straps/hardware for 24-inch through 54-inch DI Pipe (DIP) and Prestressed Concrete Pressure Pipe (PCPP).

The Continuing Contract was procured under the requirements of the Equal Business Opportunity Ordinance. On April 15, 2020, the Goal Setting Committee applied an Affirmative Procurement Initiative (API) of a Small Business Enterprise (SBE) Price Preference. The Continuing Contract provides for 100% SBE participation. The Contract provides for 100% SBE participation. WO No. 4 includes 0.00% SBE participation. The cumulative SBE participation including WO No. 4 is 00%. At the time of award, the Contract provided for 100% SBE participation. The Contractor has since graduated from the SBE program. Contractor is a Palm Beach County based company. The Project is included in the PBCWUD FY23 budget. (PBCWUD Project No. 23-032) Countywide (MWJ)

Background and Justification: The PBCWUD owns and operates large diameter potable water mains, sewer force mains, and reclaimed water mains as part of the pressurized piping system. PBCWUD performs emergency repairs on these pipelines throughout its service area. The Project will reduce the time needed for specialized installation of line stops needed to complete the utility repairs during an emergency due to a pipe break. Line stops allow connection to or shutdown of flow in a piping system without taking the piping system out of service. This increases reliability and reduces the time for necessary emergency repairs.
