Summary: The purpose of this annual contract is to pre-qualify contractors to provide IAQ remediation services on an as-needed basis. The specific requirements of the work shall be determined by individual work orders issued against this annual IAQ remediation contract. These contracts are five (5) year indefinite-quantity contracts with a maximum cumulative value of \$3,000,000 across all prequalified contractors. Work will be awarded as work orders on a lump-sum, competitively bid basis across all prequalified contractors. Contractors may qualify at any time and be added to this annual IAQ remediation contract before the term ends. Projects \$100,000 or greater are advertised on the vendor self-service (VSS) website and are bid among the pool of certified Small Business Enterprise (SBE) contractors, when three (3) or more small businesses are qualified under the contract. Projects \$200,000 or greater are advertised on the VSS website and additionally advertised in the newspaper, further expanding the bidding pool to include additional bidders responding to the specific project advertisement that submit a qualification application at least ten (10) calendar days before the bid due date. The annual IAQ remediation contract was presented to the Goal Setting Committee on March 15, 2023 and the Committee established Affirmative Procurement Initiatives (APIs) of sheltered market for projects less than \$100,000 (when three (3) or more small businesses are qualified under the annual contract) or a SBE contractor will be given a price preference if its bid is within 10% of the lowest non-small business bid. Actual Small/Minority/Women Owned Business Enterprise (S/M/WBE) participation will be identified on each work order, and will be tracked cumulatively for all work orders issued.
