#### I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: Change Order No. 6 in the amount of \$587,939.25 and a retroactive time extension of 538 days to the contract dated February 9, 2021 (R2021-0212) (Contract) with Ranger Construction Industries, Inc. (Ranger) for Palmetto Park Road, SW 7th Avenue to SW 5th Avenue (Project).

SUMMARY: In accordance with Contract General Provisions (GP) 4-3, 5-12.2.2, and 8-7.3.2, the approval of Change Order No. 6 will provide compensation to Ranger for additional time and costs resulting from multiple unforeseen circumstances as follows:

- Work was delayed for 11 days after the notice to proceed (NTP) on August 2, 2021, due to unresolved AT&T 1. utility relocations. Ranger could not begin work until August 13, 2021, leading to monetary compensation of \$2,182.24 for this delay.
- Pursuant to Contract GP 8-6.1, clearing and grubbing operations were temporarily suspended due to the 2. presence of mangroves, protected trees impacted by construction activities along the shoreline of the El Rio Canal. An additional specialized permit was required before work could continue on the north side of the proposed bridge. The necessary permit was submitted on August 30, 2021, and final approval was granted on October 15, 2021. As the suspension of operations was not due to Ranger's fault, GP 8-7.3.2 supports the 46-day time extension for the delay in obtaining the tree permit.
- 3. An existing 24-inch drainage pipe was found to be misaligned by 9 feet from its location outlined in the plans. This differing site condition required the procurement of additional pipe, the removal of the existing pipe, and the performance of connection work. These activities caused a 137-day delay from April 16, 2022, to August 31, 2022.
- 4. Compensation and a 46-calendar-day time extension are requested due to delays and additional work associated with paving operations. Specifically, asphalt overbuild was required to accommodate elevation modifications necessary to achieve Americans with Disabilities Act (ADA) compliance at the crosswalk located at the driveway entrance to St. Paul Lutheran Church. This claim amounts to \$76,008.61 and includes costs incurred by Ranger for the additional asphalt overbuild, delays related to overhead, supervision, surveying, labor, and equipment necessary for the removal and replacement of affected sidewalks, curbs, and traffic control devices.
- During Phase 3 of the proposed bridge construction, Ranger's subcontractor, Anzac, encountered 5. unforeseen underground obstructions that impeded the installation of concrete piles and precast sheet piles. These unexpected conditions were encountered multiple times and significantly disrupted Anzac's progress. Ranger requested additional compensation and a time extension due to the resulting schedule impacts. The total claim amount is \$470,476.74 and 142 additional days, encompassing Anzac's direct costs and Ranger's overhead, supervision, and traffic control devices expenses.
- 6. Concurrent utility issues with overhead electrical lines required a shift of pile locations, as well as pile cap and sheet pile wall redesign for construction, totaling \$39,271.66 for additional associated work.

#### SUMMARY (Continued from Page 1):

7. Between the NTP and substantial completion achieved on June 17, 2024, 85 days were affected by inclement weather, during which work could not proceed, and 71 holidays. Time extensions for holidays are in accordance with GP 8-6, and per GP 8-7.3.2 for weather-related delays.

Pursuant to GP 4-3.2 and 8-7.3.2, staff recommends approval for equitable adjustment of monetary compensation and Contract time for delay claims. Per PPM CW-F-050, the total amount of this Change Order exceeds the threshold of \$200,000 and allowable time extensions relating to staff approvals of change orders to contracts and requires the Board of County Commissioners (BCC) approval. The Contract was approved on February 9, 2021, in the amount of \$4,337.120.16. Previous change orders totaling \$110,266.09 plus this Change Order bring the total change order amount to \$698,205.34 for the Contract. The total Contract amount, including this Change Order and previous change orders, is \$5,035,325.50. With approval of the retroactive time extension associated with Change Order No. 6, the new revised completion date was June 23, 2024, with substantial completion on June 17, 2024.

This Contract was presented to the Goal Setting Committee on September 17, 2020, and the Committee established an Affirmative Procurement Initiative (API) of a 20% minimum mandatory Small Business Enterprise (SBE) participation. The proposed SBE participation for Change Order No. 6 is 0%. To date, the overall SBE participation achieved on this Contract is 18.51%. <u>District 4 (YBH)</u>

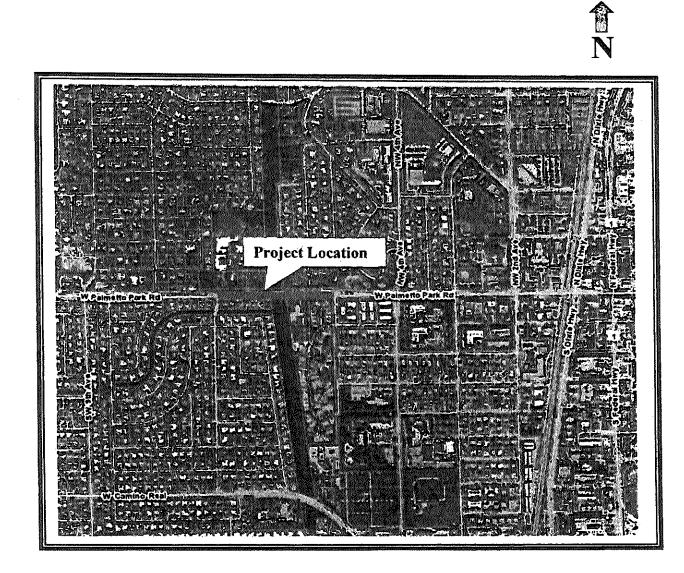

#### Background and Justification (Continued from Page 1):

After reviewing Change Order No. 6 and finding it to be in proper order, the Engineering and Public Works Department recommends approval by the BCC.

Re:	Unknown Structure Found	Date:	7/6/22

Ranger would like to request the following information regarding the unknown structure that was found on Palmetto Park Rd on July 1st:

١

The structure is 9.0 FT Southwest from where structure S-6 will be located to tie in to the existing 24" storm line. • This structure is not shown on the plans, nor is a "mirror" drain on the opposite corner. Please have the EOR advise on this situation. Attached are photos of the structure, thank you.

Attached are the plans marked-up to show the modifications to the drainage design.

S-6 will shift south over the existing 24" drainage pipe.

A new 24" pipe will be constructed between S-6 and S-10.

Structure S-6 can remain the same, (e.g., flowlines, pipe sizes, and direction) however, the top elevation will have to match the finished grade of the pavement.

John,

I see no issue with what ranger is proposing.

Regards, Brett

John,

Please forward to EOR and confirm this is acceptable.

Also, please confirm Ranger will get paid for removing and replacing the sidewalk to the west of the entrance. Do we send you a proposal or do we treat it as T&M?

Thanks

We are going to set new grades and disregard the walk on the west side school entrance per Ash. That walk is coming out; Once the walk is raised a few inches it should be damn close. Just keep in mind the PGL is still raising as the road goes east so the side slope may be a bit over 3% but the cross slope will be 3 if that makes sense to you. I had a lot of people bring up if they turn their smart level 45° it's over % and that is why.

John- do you have any thoughts on this?

Ray,

Are you working on calculating the new grades/slopes? If so, this needs to be approved by the EOR before we pave on Monday.

John,

See attached grades. We had to tweak one spot 25' east of station 109+0 to 6.78 elev. If we interpolated down to school installed ADA ramp el 5.21 58' LT we would have had to cut 6" of road out. In turn we went down 2% from new crown grade and sloped to the ADA ramp; from there and everything works. Long story short everything works in my opinion; we maintain ada standards within ada and we have a section at 4%. We held either, profile, section or spot grades to make SW school exit work but all 3 would not perfectly collate. Thanks,

3

Ray

John,

Plans seem to have conflicting information. Roadway Plan Sheet 14 shows median starting at ~STA 110+30, but Typical Section No. 2, plan sheet 5, shows median starting at ~STA 109+64. See screen shots below.

Patrick Ayala Palm Beach County 2300 N Jog Rd. West Palm Beach, FL 33411

Re: RCI Project: 300-3303
PBC: 2013531 - Palmetto Park Rd from SW 7th Ave to SW 5th Ave
Sub: NOI #10 - 16" FM Location Under Canal El Rio

Mr. Ayala,

Ranger Construction Industries, Inc. (RCI) is presenting this Notice of Intent to pursue claim(s) for Unforeseeable Work, Extra Work, Claims for Delay and Contract Time Extension.

On RFI #25 submitted on June 7, 2023, Ranger made Palm Beach County aware that the existing 16" FM was not embedded on the bridge as originally thought, but it actually goes subaqueous, under Canal El Rio. This line has been grouted for abandonment.

The RFI was answered on July 19, 2023, directing Ranger to follow up with City of Boca and request them to locate the line. Ranger requested City of Boca to locate the line that same day.

Pile driving is part of our schedule's Critical Path. Our Bridge contractor (Anzac) should begin pile installation by July 28<sup>th</sup>, 2023. Should City of Boca be able to locate the line before then, and the line be in conflict with the pile driving operation, Anzac will be forced to cease activities until PBC provides a solution. If the line is not located before July 28<sup>th</sup>, Anzac will not be able to continue either in fears of damage to the concrete piles or to the 16" FM to be abandoned.

This possible conflict should have been addressed at design stage of the project.

RCI reserves all rights under the Contract, including seeking an equitable adjustment to the Contract for all time and costs both realized and unrealized as it pertains to this issue.

All

Respectfully,

Alejandro Uribe, PE Project Manager Ranger Construction Industries, Inc.

#### Alejandro,

While attempting to jet down Pile #40 (IB 2) there was an obstruction encountered at approximately 8-9' below the canal bottom. According to the crew, it seems like it might be the existing subaqueous pipe.

We will proceed with driving the other 5 piles on Monday. We have held on to the rental jet pump and can let the County witness the issue by attempting to jet it again once we have finished the pile driving on Monday. At that time, we brainstorm a solution.

Thanks, Steve Sent from my iPhone

Thanks for your response. We have made PBC aware of it.

Ranger is yet to receive a response to the attached letter. We are on week 7 of bridge removal, which is 2 weeks longer than the approved CPM. Please provide a recovery schedule to bring the bridge activities back on schedule. This project cannot take any more delays.

Thanks.

Hi Alejandro,

Still catching up. Yes, we are ok with proceeding with the pile installation as per the comments below. if we encounter any issues or obstructions while installing the piles, we will notify Ranger and PBC immediately and work with the team on a resolution.

All the piles were removed in the canal as of the end of the day yesterday. Today we had the crew working on cutting the piles so we can load and dispose of them this coming week. We will be using the same crew to load the vibratory hammer and steel beams in our Homestead Yard early this coming week and then deliver these items to the job to begin building templates. This will be followed by prestressed concrete pile deliveries to the site and standing piles in the templates.

Thanks,

Steven R. McNamara President

#### Steve,

Please see below and confirm Anzac is comfortable driving piles following EOR's recommendation. Also, please provide a 2-week look ahead so we can all plan accordingly.

#### Alejandro,

Please see the response below from Chris LaForte of WGI regarding the abandoned subaqueous 16-inch force main and the proposed piles for the bridge. In the letter regarding NOI 10, it was mentioned that Anzac was supposed to start driving piles on July 28. However, they are still busy removing the existing piles and haven't begun building the pile template yet. Can you provide a 2-week look ahead?

This Message Is From an External Sender This message came from outside your organization.

Albert,

As we discussed yesterday, the presence of the existing 16 inch force main along the south side of the bridge was discussed during the utility coordination meetings throughout the design process. The plans call out for this force main to be grouted and placed out of service. WGI does not believe that damage to the prestressed piling is likely to occur due to a potential impact with this abandoned pipe. Contractor is to take normal care during pile driving and if an obstruction occurs during driving that results in a pile shifting out of location or needing to have an alternate pile depth or location that can be reviewed at that time. If there are any additional questions or anything else that we can help with, please let us know. Thank you.
