I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: First Amendment (First Amendment) to Term Contract for the Maintenance of Airport Facilities and Systems, Contract No. 24-059/DJ (Contract) at the Palm Beach International Airport (PBI) with JSM Airport Services, LLC (JSM), increasing the total contract amount by \$3,732,000 for completion of renewal and replacement projects to airport facilities and systems serving the commercial service airlines at PBI, including replacement of three (3) passenger boarding bridges (PBBs).

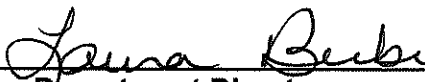

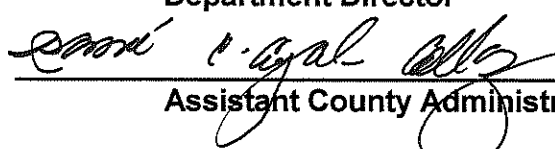

Summary: On September 17, 2024, the Board of County Commissioners (BCC) approved the Contract (R2024-1268) with JSM for the maintenance, repair, renewal and replacement of airport facilities and systems serving the commercial service airlines at PBI, which include, but are not limited to, fixed and mobile PBBs, 400-Hertz and cabin air systems, potable water cabinets, bag lifts and belt loaders, aircraft waste triturator for disposal of airline lavatory waste, and portable wheelchair lift(s). The original contract amount for the period commencing September 30, 2024, and ending on September 30, 2026, was \$6,620,728. Approval of this Amendment will provide funding in the amount of \$3,732,000 for a total contract amount of \$10,352,728 and provide for the completion of necessary projects associated with airport facilities and systems, including the replacement of three (3) PBBs that are in need of refurbishment. The existing PBBs at PBI are nearing the end of their useful life and are scheduled to be fully replaced in fiscal years 2027 and 2028. The estimated cost of refurbishing the three (3) PBBs is approximately \$150,000 per PBB. The cost of purchasing a new PBB is approximately \$750,000. Taking into consideration the age and condition of the PBBs as well as the cost and time required to complete the refurbishment, the Department of Airports is recommending purchasing three (3) new PBBs rather than repairing the existing equipment. Airlines utilizing the airport facilities and systems at PBI pay for the full cost of this Contract through rates and charges established annually in accordance with the Signatory Airline Agreement (R2019-1155). JSM's principal place of business is Apopka, Florida. This Contract was presented to the Goal Setting Committee (Committee) on December 20, 2023, and the Committee established an Affirmative Procurement Initiative (API) of Small Business Enterprise (SBE) Evaluation Preference for SBE Participation. JSM committed to 0.62% SBE participation. To date, the overall SBE participation achieved on the Contract is 0%. Pursuant to changes to Chapter 332, Florida Statutes, effective as of July 1, 2023, a governing body of a medium hub commercial service airport may not approve purchases of contractual services in excess of \$1,000,000 on a consent agenda. This Amendment exceeds the threshold amount and must be approved on the regular agenda. Countywide (AH)

Background and Policy Issues: Approval of this item will provide for the purchase of new PBBs in lieu of refurbishment of the PBBs, which are nearing the end of their useful life. Fixed PBBs are elevated walkways that connect an airport terminal gate to an aircraft, allowing passengers to board and disembark without going outside. The cabin air system provides air circulation and cooling for PBBs and aircraft parked at the gate, and 400-Hertz frequency converters provide power to an aircraft while parked at a gate. During the Pre-Conditioned Air Point of Use Replacement Project (R2023-1485), it was determined that four (4) PBBs were in need of refurbishment prior to being returned to service. Based on the long lead time for delivery of a new PBB, one (1) PBB is being recommended for refurbishment in Item 3F13 on this Agenda since it is scheduled to be reinstalled this year. The three (3) remaining PBBs are scheduled to be reinstalled in 2026, which provides sufficient time for delivery of the equipment.
