B. Recommended Sources of Funds/Summary of Fiscal Impact:

There is no fiscal impact until state funding is appropriated, and project agreements are executed. Potential fiscal impact to the County is \$14,048,278.69 over approximately three (3) years. The municipal, state, and federal share of each Project's cost would be allocated to the County on a reimbursement basis. If state funds are appropriated for the Projects and County funding is found to be insufficient to match the state-funded project, other funding sources could be considered, such as short-term borrowing, securing bonds, or delaying the design and construction of projects already funded.
