

PALM BEACH COUNTY
BOARD OF COUNTY COMMISSIONERS

AGENDA ITEM SUMMARY

Meeting Date:	October 20, 2026	☒ Consent	☐ Regular
Department:	Fire Rescue	☐ Workshop	☐ Public Hearing

I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to:

A) ratify a Fiscal Year (FY) 2026-2027 Florida Firefighter Assistance Grant Program (FFAGP) Application electronically submitted to the State of Florida State Fire Marshal (State) on August 19, 2026, requesting \$154,541 to fund the purchase of two (2) handheld gas identification monitors, for a period of July 1, 2026 through June 30, 2027;

B) ratify the designation of the County Administrator, or designee, who in this case was Fire Rescue Administrator, who acted as the County's representative for the purpose of electronically signing and submitting the FY 2026-2027 FFAGP Grant Application, via email which was submitted on August 19, 2026; and

C) delegate authority to the County Administrator, or designee, to accept, approve, execute and submit, electronically or otherwise, on County's behalf the grant award, contract, representations, certifications, acknowledgments, assurances, standard forms and documents, reimbursement requests, amendments, time frame changes, and other necessary documents, that do not substantially change the general scope of terms and conditions of the Grant.

Summary: This Grant Application requests \$154,541 from the State for the purchase of two (2) handheld gas identification monitors. **There is no required match for this grant.**

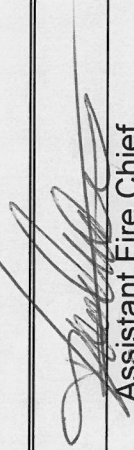

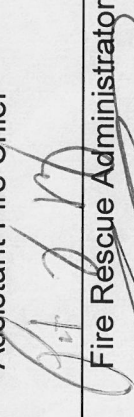

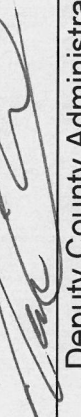

If awarded, the Grant (CSFA 43.006) will provide funding for the cost of two (2) handheld gas identification monitors, which will be placed on both of Fire Rescue's Special Operation units and will be used to rapidly identify unknown gases and chemical hazards. This investment will allow the crews the ability to obtain critical information more quickly and support informed decisions regarding PPE, isolation zones and other critical incident management actions. Due to the preparation time, submittal deadlines, and Board of County Commissioner (BCC) meeting dates, the Grant Application had to be submitted prior to full BCC approval. Countywide (SB)

Background and Justification: The FY 2026-2027 FFAGP is a competitive grant program designed to improve the emergency response capability of volunteer fire departments and combination fire departments and provide financial assistance to improve firefighter safety and enable such fire departments to provide firefighting, emergency medical, and rescue services to their communities.

The FFAGP requires submission of grant applications by electronic format in order to assure an efficient review and competitive scoring of all funding requests submitted under this program. The deadline for submission of this Grant Application to the grantor agency was 5:00 p.m. on August 20, 2026. Pursuant to Section 309.00 of the Palm Beach County Administrative Code, the Mayor of the BCC approved this Grant Application, which now must be ratified by the BCC. The Grant Application includes certifications of compliance with required assurances and certifications, as stated in the application and related program guidance.

APPLICATION FOR FIREFIGHTER ASSISTANCE GRANT PROGRAM

FIRE DEPARTMENT INFORMATION		
Name of Fire Department: Palm Beach County Fire Rescue		
Name of Person Completing Form: Jill Gregory		
Physical Address:	405 Pike Rd (Street)	West Palm Beach, FL 33415 (City) (Zip)
Mailing Address:	405 Pike Rd (Street)	West Palm Beach, FL 33415 (City) (Zip)
EMAIL Address: jgregory@pbc.gov		
County: Palm Beach		
Fire Department Telephone Number: 561-616-7001 or 561-616-7027		
Fire Department FAX Number:		
Fire Department Identification Number (FDID#): 06301 or FD12099702		
Federal Tax Identification Number: 596000785		
What Year was Fire Department Established: 1984		
STAFFING INFORMATION		
(A)	Total Number of Certified Volunteer Firefighters:	33
(B)	Total Number of Firefighters with a Certificate of Compliance:	1,639
(C)	Total Number of Other Members: (Not Certified as Volunteer or Career Firefighters)	303
(A + B + C)	Total Number of Persons in Your Fire Department:	1,975
RESPONSE AREA INFORMATION		
What are the Square Miles of Your Response Area?: 1,769 (Do Not Include Mutual Aid Response Area)		
What is the Population of Your Response Area?: 976,900 (Do Not Include Mutual Aid Response Area)		

FUNDING INFORMATION

Directions: List the total funding received from ANY taxing authority in your current FISCAL YEAR, or in your current CALENDAR YEAR.
Include any funds and grants received from any local governing authority, County, Town, City, Municipality, Independent Special District, Dependent Special District, Special District, Municipal Service Taxing Unit (MSTU), or Municipal Service Benefit Unit (MSBU).

DO NOT INCLUDE DONATIONS OF ANY TYPE.

Total Funds Received: \$797,781,429

Total Grants Received \$ 4,417,658

REQUESTED ASSISTANCE

Which of the following items are you requesting? (Please select ALL that apply)

☐ I AM REQUESTING A GRANT TO TRAIN PERSONS TO BECOME VOLUNTEER FIREFIGHTERS

Please provide the following information in the **narrative section**:

- The NUMBER of proposed students to be trained.
- The proposed DATES that the volunteer firefighter practical skill training will be conducted.
- The NAME of each instructor(s) that will be conducting the training.
- The INSTRUCTOR ID number of each instructor(s) that will be conducting the training.
- The LOCATION where the training will occur.
- The LOCATION where the live fire training will occur.

☐ I AM REQUESTING A GRANT TO RECEIVE PERSONAL PROTECTIVE EQUIPMENT (PPE)

Please provide the following information in the **narrative section**:

- The NAME of each person(s) who will be assigned the PPE.
- The FCDICE number of each person(s) who will be assigned the PPE.
- The INVENTORY of all PPE currently in use by your fire department to include:
 - Manufacturer of PPE.
 - Date each set of PPE was made, or age of each PPE set.

What percentage of your firefighters are equipped with personal protective equipment (PPE)?

☐ 0% ☐ 1–25% ☐ 26–50% ☐ 51–75% ☐ 76–99% ☐ 100%

What percentage of your firefighters personal protective equipment (PPE) is at least ten (10) years old?

☐ 0% ☐ 1–25% ☐ 26–50% ☐ 51–75% ☐ 76–99% ☐ 100%

☐	I AM REQUESTING A GRANT TO RECEIVE SELF-CONTAINED BREATHING APPARATUS (SCBA) Please provide the following information in the <u>narrative section</u> : - List each fire apparatus in your department. - Include the type, year, and model of each fire apparatus. - Include the number of seated riding positions for <u>each</u> fire apparatus. - The INVENTORY of all SCBA currently in use by your fire department to include: - Manufacturer of SCBA. - Date each SCBA unit was made, or age of SCBA unit.									
What percentage of your firefighters on an emergency response can be equipped with SCBA?										
☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
	0%	1-25%	26-50%	51-75%	76-99%	100%				
What percentage of your SCBA are at least ten (10) years old?										
☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐
	0%	1-25%	26-50%	51-75%	76-99%	100%				
☐	I AM REQUESTING A GRANT TO SUBSIDIZE THE COST SHARE OF AN ASSISTANCE TO FIREFIGHTERS GRANT (AFG) TO OBTAIN A NEW PUMPER FIRE APPARATUS Please provide the following information from your <u>FEMA AFG Summary Award Notification</u> in the <u>narrative section</u> : - Name of grantee. - Amount awarded. - Description of award and type of vehicle. - Grantee share of cost. - Period of grant performance.									
☐	I AM REQUESTING A GRANT TO PURCHASE A NEW OR REFURBISHED PUMPER FIRE APPARATUS Please attach an inventory list of ALL apparatus owned and available for use by your department. For each fire apparatus list the following information in the <u>narrative section</u> : - Manufacturer and model of each apparatus. - Year each apparatus was manufactured. - Number of miles on each apparatus. - Current engine hours on each apparatus if equipped with an engine hour meter. Please attach photos (four sides) of all apparatus owned and available for use by your department. Enter the <u>number</u> of each type of apparatus that is owned and available for use by your fire department?

DFS-K4-2174 Revised 07/22 Rule 69A-37.502, F.A.C.										

☒	I AM REQUESTING A GRANT TO RECEIVE AN ENVIRONMENTAL MONITOR ☐ Stand-alone Thermal Imager; or ☒ Gas Monitor Please provide the following information in the narrative section: • List each fire apparatus in your department. • Include the type, year, and model of each fire apparatus. • Include the number of seated riding positions for <u>each</u> fire apparatus. Does your department currently have a thermal imager or gas monitor? ☒ YES ☐ NO If yes, please provide the following information in narrative section: • List of each environmental monitor in inventory. • Include manufacturer, model, and year of each environmental monitor.
☐	I AM REQUESTING A GRANT TO RECEIVE A POWERED RESCUE TOOL Please provide the following information in the narrative section: • List each fire apparatus in your department. • Include the type, year, and model, of each fire apparatus. • Include the number of seated riding positions for <u>each</u> fire apparatus. Does your department currently have a powered rescue tool? ☐ YES ☐ NO If yes, please provide the following information in the narrative section: • List of each type of powered rescue tool in inventory. • Include manufacturer, model, and year of each type of powered rescue tool.
☐	I AM REQUESTING A GRANT TO RECEIVE WILDLAND FIRE FIGHTING AND URBAN INTERFACE FIRE FIGHTING (WFUIF) PROTECTIVE CLOTHING AND EQUIPMENT Please provide the following information in the narrative section: • The NAME of each person(s) who will be assigned the WFUIF Protective Clothing and Equipment. • The FCDICE number of each person(s) who will be assigned WFUIF Protective Clothing and Equipment. • The INVENTORY of all WFUIF Protective Clothing and Equipment currently in use by your fire department to include: ◦ Manufacturer of WFUIF Protective Clothing and Equipment. ◦ Date each set of WFUIF Protective Clothing and Equipment was made, or age of each WFUIF Protective Clothing and Equipment set. What percentage of your firefighters are equipped with WFUIF Protective Clothing and Equipment? ☐ 0% ☐ 1-25% ☐ 26-50% ☐ 51-75% ☐ 76-99% ☐ 100% What percentage of your firefighters WFUIF Protective Clothing and Equipment is at least ten (10) years old? ☐ 0% ☐ 1-25% ☐ 26-50% ☐ 51-75% ☐ 76-99% ☐ 100%

GRANT NARRATIVE (Use additional sheets if necessary)

Directions:

Please contact the State Fire Marshal if you have any questions: firegrantquestion@myfloridacfo.com

Please provide required information for your grant request here. Include any additional information you feel is important to your grant request. This narrative **must** demonstrate the financial need of the department.

For additional guidance, please refer to Grant Narrative Self-Evaluation Guide at https://www.myfloridacfo.com/docs-sf/state-fire-marshal-libraries/sfm-documents/vol1ff/firefighter-assistance-grant-program-self-evaluation-guide.pdf?sfvrsn=a1fc98e7_2.

Requested Equipment: 2 XplorlR handheld gas identification monitors made by 908 Devices:

Palm Beach County Fire Rescue (PBCFR) is requesting grant funding to purchase two 908 Devices XplorlR handheld gas identification monitors to improve the department's ability to rapidly identify unknown gases and chemical hazards during hazardous materials incidents. The project objective is to provide each of PBCFR's two HazMat teams with dedicated, portable gas identification capability that can be deployed directly to the source of a hazard. One XplorlR unit would be assigned to Station 34 in central Palm Beach County, and one unit to Station 19 in northern Palm Beach County.

PBCFR currently has limited gas identification capability. The department has one Gas ID unit that is shared between both HazMat teams and two Gemini units with gas identification capability. Because the existing Gas ID unit is shared between the two teams, the department cannot provide dedicated gas identification capability to both teams when they are deployed simultaneously. Two XplorlR units would eliminate this limitation by providing each team with its own dedicated instrument. Additionally, the current equipment and operating process generally requires responders to obtain a sample from the hazard area and transport the sample to a safer location for analysis. This process takes additional time, requires obtaining an adequate sample, and can require a higher level of operator familiarity with instrument settings and testing procedures.

The proposed 908 Devices XplorlR monitors would address this operational gap by providing each HazMat team with a dedicated handheld gas identification instrument that can be taken directly to the source of an unknown gas. The ability to identify an unknown substance at or near the source of the hazard would allow HazMat personnel to obtain critical information more rapidly while reducing the need to collect, transport, and separately process samples. Faster identification supports more informed decisions regarding personal protective equipment, isolation zones, defensive or offensive tactics, decontamination considerations, evacuation or sheltering, and other incident-management actions.

Rapid identification of an unknown substance is directly related to responder safety. When the identity and characteristics of a substance are unknown, HazMat personnel must make critical decisions with limited information regarding the appropriate level of respiratory and protective equipment, isolation distances, tactical approach, and potential exposure hazards. Providing each team with dedicated point-of-hazard identification capability would reduce this uncertainty and support safer, more informed operational decisions.

The project directly supports PBCFR's mission to protect life, property, and the environment and is consistent with the department's responsibility to provide specialized emergency response capabilities for hazardous materials incidents. The equipment would support operations involving unknown gases, industrial and commercial incidents, suspicious odors, chemical releases, transportation-related incidents, potential criminal or intentional releases, and special operations and dignitary support activities.

The requested equipment is also consistent with PBCFR's operational risk profile. PBCFR serves a population of 976,900 and encompasses approximately 1,769 square miles which includes urban, suburban, rural, agricultural, coastal, industrial, transportation, healthcare, educational, and other high-risk environments. The County's population and emergency service demands continue to increase, resulting in more frequent utilization of specialized HazMat and Special Operations resources. In addition to serving its own jurisdiction, PBCFR's HazMat teams provide

countywide specialized response and support to 13 other fire departments operating within Palm Beach County, representing an additional population of approximately 569,000. PBCFR also serves a county that receives approximately 10.7 million visitors annually. PBCFR's HazMat teams also support federal partners during dignitary-related events, including events associated with the President of the United States, who maintains a residence in Palm Beach County. These conditions increase the importance of maintaining readily available and appropriately distributed gas identification capabilities.

The proposed project fills a specific equipment and deployment gap. The two XplorIR monitors would provide dedicated, point-of-hazard gas identification capability to both HazMat teams, allowing either team to operate independently or both teams to respond simultaneously without relying on a single shared Gas ID unit.

The requested XplorIR monitors would be incorporated into existing HazMat operations and maintained by PBCFR's Special Operations Division. Personnel would receive appropriate training on the equipment, its operational limitations, interpretation of results, and applicable safety procedures. The equipment would become part of PBCFR's existing specialized HazMat response capability and would be available for recurring emergency operations throughout its service life.

Environmental Monitor Inventory:

PBCFR's current environmental/gas identification monitor inventory includes the following equipment:

- 1 – Gas ID Unit – FLIR Griffin G510, Serial # SN 510-00315, March 2022
- 1 – Thermo Scientific Gemini, Model TFCMNM100, Serial# GM3443, March 2019 – Special Ops 34
- 1 – Thermo Scientific Gemini, Model TFCMNM100, Serial# GM6321, September 2023 – Special Ops 19

Fire Apparatus Inventory:

Attached is a complete list of PBCFR's 150 frontline apparatus, which includes type, year, model and seated riding positions for each. The inventory is summarized below.

- 54 ALS pumpers including volunteer units
- 6 ALS aerial units (Ladder/Trucks)
- 64 ALS Rescues/Ambulance
- 4 Tenders
- 22 Brush Trucks

Financial Need:

Palm Beach County Fire Rescue (PBCFR) is requesting grant funding because local financial resources are insufficient to purchase additional specialized gas identification equipment without diverting funds from essential emergency services. Although PBCFR's FY2026 budget is \$797.8 million, approximately \$207 million consists of internal transfers between Fire-Rescue funds and reserve balance forward, which is set aside to cover expenses until current fiscal year revenues are received. These amounts are not part of PBCFR's day to day operating budget. This leaves \$590.8 million available for ongoing operations, of which approximately 73.1% (\$431.8 million) is dedicated to salaries and benefits. The remaining funds support largely non-discretionary expenses, including medical supplies and PPE (\$21.9 million), communications, facilities, and utilities (\$24.3 million), capital equipment and apparatus (\$69.1 million), training (\$2.8 million), and contingency reserves (\$17 million). Only 0.7% of PBCFR's annual revenue comes from grants, limiting the department's ability to fund specialized equipment through external sources.

PBCFR is a Municipal Service Taxing Unit funded primarily through property taxes (85.6%), with additional revenue from EMS transport fees (7.3%), service fees (2.3%), grants (0.7%), and other revenues (4.1%). Local funding must be prioritized among staffing, emergency operations, apparatus replacement, station construction and renovation, medical resources, and other critical public safety needs. The department must also maintain reserves to sustain emergency operations during hurricanes, flooding, public health emergencies, and other large-scale disasters.

PBCFR's financial constraints are driven largely by factors outside the department's control. The Board of County Commissioners has maintained the same millage rate for 18 years despite significant population growth, inflation, and increasing service demands, limiting PBCFR's ability to generate additional property-tax revenue to address growing operational and capital needs.

PBCFR's financial flexibility is expected to decrease further. Beginning in FY2027, the department will lose its contract to provide fire-rescue services to the Town of Jupiter, resulting in more than \$30 million in annual lost revenue while staffing must remain in the area to serve unincorporated residents. A property tax relief plan approved during Florida's 2026 Special Session could further reduce PBCFR revenues by an estimated \$59.4 million in FY2028 and \$46.1 million in FY2029 if approved by voters.

At the same time, Palm Beach County's population has increased approximately 28% since 2009, from 760,578 to approximately 976,900 residents. PBCFR has opened two stations since 2024 and expects to open another within the year. Over the past 15 years, PBCFR collected only \$10.6 million in impact fees, while a single fire station now costs approximately \$18–20 million to construct. Construction costs have also increased from approximately \$405 per square foot in 2018 to \$920 per square foot in 2025, further limiting available capital funding.

The cost of the two XplorlR monitors is \$154,541. While this represents a relatively small investment compared with PBCFR's overall budget, specialized equipment purchases must compete with significant ongoing operational, capital, staffing, and emergency preparedness needs. Grant funding would allow PBCFR to address this specific HazMat equipment gap while preserving local funds for essential services.

Provide an itemized list and costs of requested items:

2 – 908 Devices XplorlR handheld gas identification monitors
Quote is attached

Product Code: XIR-R-04-1-0-03-01

Product Description: XplorlR Bundle – which includes: Red handheld gas FTIR Spectrometer, 2 Li-ion batteries with charger, 1 line cord shoulder strap, 2 flexible sampling wands, 40 particulate filters, quick start guide, pelican case for storage and shipping, USB with Wi-Fi setup and manuals, blank USB for data transfer, USB cord for PC connection, quantification module that provides ppm levels to over 5,000 library material, loaner during limited warranty period, 4 year warranty, type B plug, on-site operator training

Price per unit: \$77,950 x 2 = \$155,900

Less: 1% discount of \$1,559

Total: \$154,341

Plus shipping: \$200

Total: \$154,541

AUTHORIZATION TO SUBMIT GRANT REQUEST

To be completed by the **Fire Chief or Fire Service Agency Head** of the municipality or county, the state, or any political subdivision of the state, including authorities and special districts, employing firefighters or utilizing volunteer firefighters to provide fire extinguishment or fire prevention services for the protection of life and property. The term “fire service provider” includes any organization under contract or other agreement with such entity to provide such services.
Note: Administration of resources awarded by the Department to the recipient may be subject to audits and/or monitoring by the Department.

Department of Financial Services
Division of State Fire Marshal
Notice of Funding Opportunity

FY2026-2027 Florida Firefighter Assistance Grant Program

A. Program Description

Catalog of State Financial Assistance (CSFA) Project Number
43006

CSFA Title
Florida Firefighter Assistance Grant Program

Notice of Funding Opportunity Title
FY2026-2027 Florida Firefighter Assistance Grant Program

Program Overview and Priorities

Project Overview

The Florida Firefighter Assistance Grant Program (FFAGP) was established by Florida Statute 633.135 and F.A.C 69A-37.502 to improve the emergency response capability of volunteer fire departments and combination fire departments and provide financial assistance to improve firefighter safety and enable such fire departments to provide firefighting, emergency medical, and rescue services to their communities.

Project Priorities

Grant funding is only available for instructor reimbursement for Firefighter I Skills Sign-offs, PPE, SCBA's, fire safety and fire rescue related equipment and tools, wildland fire fighting and urban interface protective equipment, pumper fire apparatus, and cost share subsidy for AFG apparatus awards.

For specific information on program priorities and objectives for the FY2026-2027 FFAGP, refer to Florida Administrative Code 69A-37.501 and 69A-37.502.

B. Award Information

Award Amount and Important Dates

Total Available Funding for the Notice of Funding Opportunity: TBD
Period of Performance Start Date: July 1, 2026
Period of Performance End Date: June 30, 2027

C. Eligibility Information

Eligible Applicants and Criteria

Department of Financial Services
Division of State Fire Marshal
Notice of Funding Opportunity

FY2026-2027 Florida Firefighter Assistance Grant Program

Eligible applicants are fire service providers organized and operating in the state of Florida as a volunteer or combination fire department and meeting all the following requirements:

1. A fire service provider,
2. Organized as a fire department for a consecutive period of not less than five (5) years,
3. Recorded as a fire department in the Division's online electronic database,
4. Has a Florida fire department identification (FDID) number,
5. Will submit fire incident data for a period of twelve months following the date of grant award,
6. Compliant with the Florida Firefighters Occupational Health and Safety Act, and
7. Submitted the Florida Fire Service Needs Assessment Survey.

Cost Share or Match

There are no cost share or matching funds required by the eligible applicant for the Florida Firefighter Assistance Grant Program.

D. Application and Submission Information

Key Dates and Times

Opening Date for Submitting Applications: July 7, 2026; 8 am EDT
Closing Date for Submitting Applications: August 20, 2026; 5 pm EDT

Application Submission

In addition to meeting the eligibility requirements, applicants for the Florida Firefighter Assistance Grant Program must complete the following items and submit the Grant Application to: FirefighterGrant@MyFloridaCFO.com

- Grant Application (DFS-K4-2174) [PDF FORMAT](#) or [MSWORD FORMAT](#)
- Florida Fire Service Needs Assessment (DFS-K4-2191) [CLICK FOR LINK TO ELECTRONIC SURVEY](#)
- Request a Fire Department Safety Compliance Inspection from the Bureau of Fire Standards and Training, Safety Section by sending an email to: FireFighterSafety@MyFloridaCFO.com

E. Application Review Information

The Bureau of Fire Standards and Training (BFST) will rank all complete and submitted applications based on how well they match the program priorities. Answers to the application's activity specific questions and Florida Fire Service Needs Assessment Survey provide information used to determine each application's ranking relative to the stated program priorities.

Department of Financial Services
Division of State Fire Marshal
Notice of Funding Opportunity

FY2026-2027 Florida Firefighter Assistance Grant Program
Review and Selection Process

Applications are scored competitively by (no less than three) peer reviewers. These reviewers will assess each application's merits with respect to the details provided in the Narrative Statement on the activity, including the evaluation elements listed in the Narrative Evaluation Criteria below. The panel will independently score each project within the application, discuss the merits and/or shortcomings of the application, and document the findings. A consensus is not required.

Narrative Evaluation Criteria

1. Financial Need

Applicants must describe their financial need and how consistent it is with the intent of the Program. This statement(s) should include details describing the applicant's financial distress, summarizing budget constraints, unsuccessful attempts to secure other funding, annual budget with revenues and expenditures, and proving the financial distress is out of their control.

2. Project Description and Budget

The statement(s) should clearly explain the applicant's project objectives and its relationship to the applicant's budget and risk analysis. The applicant should describe the various activities applied for with respect to any program priority or facility modifications, making sure they are consistent with project objectives, the applicant's mission and national, state, and/or local requirements.

Applicants should link the proposed expenses to operations and safety, as well as the completion of the project goals.

Turndown Notifications

All applicants who do not receive an FY2026-2027 Grant award will receive a notification letter by email from BFST within 90 days of grant application closing date.

F. Award Administration Information

Award Notification

All applicants who are awarded a FY2026-2027 Grant award will receive a notification award letter by email from BFST within 90 days of grant application closing date. The recipient will have 45 calendar days from notification to email BFST whether to accept or decline the award.

Department of Financial Services
Division of State Fire Marshal
Notice of Funding Opportunity

FY2026-2027 Florida Firefighter Assistance Grant Program

Award Agreement Information

If the recipient decides to accept the grant award, they will be required to sign a grant agreement between Department of Financial Services and the recipient within 90 days of the announcement. The Contract provides the requirements for services and performance as outlined in the Scope of Work including deliverables, Specific Grant Award, Audit Requirements, and Public Records Requirements.

Supplemental Grant Award

Department of Financial Services will issue supplemental grant awards to eligible grantees to replace applicants who did not respond to the notification of the grant award or did not execute an agreement.

FROM: Patrick J. Kennedy, Fire Rescue Administrator
Palm Beach County Fire Rescue

DATE: August 14, 2026

RE: FY 2026-2027 Florida Firefighter Assistance Grant

Pursuant to Section 309.00 of the Palm Beach County Administrative Code and PPM#CW-F-003, your signature is required for Fire Rescue’s grant application to the FY2026-2027 Florida Firefighter Assistance Grant Program (grant application attached). The application is due to the State no later than August 20, 2026 and the required method for grant submission is electronically through email. The grant’s program guidelines are also attached for your review.

As part of your authorization on this grant application, Fire Rescue is requesting that you designate the County Administrator or designee (Fire Rescue Administrator or Fire Rescue Finance Director), to act as the County’s representative for the purpose of electronically emailing the grant application.

Palm Beach County Fire Rescue is requesting \$154,541 grant funding with no match. This grant will provide funding for the purchase of 2 handheld gas identification monitors. These monitors will be placed on both of our Special Operation units and will be used to rapidly identify unknown gases and chemical hazards. This investment will allow the crews the ability to obtain critical information more quickly and support informed decisions regarding PPE, isolation zones and other critical incident management actions. Staff will submit this item for ratification on the Board’s next available County Commission Agenda.
