Summary: Palm Beach County (County) is authorized, pursuant to Section 316.2128 and 316.20655, as amended, Florida Statutes to adopt an ordinance governing the operation of micromobility devices, motorized scooters, and electric bicycles on streets, highways, sidewalks, and sidewalk areas under the County's jurisdiction. The proposed Ordinance provides definitions, applicability, and operations regulations. Section 316.008, Florida Statutes, provides for powers of local authorities with respect to streets and highways under their jurisdiction, consistent with Florida Law. The operations regulations include ensuring that use of non-human powered micromobility devices does not interfere with the safe movement of pedestrians, cyclists, or vehicles, or that causes or creates a risk of harm to persons or property; requiring operators to maintain contact with the ground while operating; a 15 mile-per-hour speed limit and a ten (10) mile-per-hour speed limit if within 50 feet of a pedestrian, on sidewalks, bicycle lanes, bicycle paths, or any areas designated for pedestrian use; and prohibiting operation on a sidewalk or bicycle path within a Prohibited Area, as designed by County Engineer. Additional regulations include a minimum operator age of 14 years old, a government-issued photographic identification requirement, enforcement and exemptions for law enforcement and authorized government operations, electronic assistance mobility devices, and operators in any municipal or county park, as well as a provision for a participating municipality to opt-out of the Ordinance. This ordinance would apply where the County has traffic control jurisdiction including over certain roads within municipal boundaries of participating municipalities that have transferred authority via an interlocal agreement. Within municipalities, the Ordinance does not apply where the County does not have traffic control. **Countywide (YBH)**

Background and Policy Issues: Section 125.66, Florida Statutes, authorizes the County Board of County Commissioners (BCC) to adopt ordinances pursuant to Article VIII, Section 1 of the Florida Constitution. Section 316.006(2)(a), Florida Statutes, authorizes municipalities to control traffic over all streets and highways located within their boundaries, except state roads.

Background and Policy Issues: Section 316.006(2)(c), Florida Statutes, provides that a municipality may, by interlocal agreement with the County, agree to transfer traffic regulatory authority over areas within the municipality to the County. Section 316.006(3)(a), Florida Statutes, vests the County with traffic control jurisdiction over all streets and highways located within County's boundaries, except state roads, and the streets and highways specified in Section 316.006(2), Florida Statutes. Pursuant to Section 316.006(2)(c), Florida Statutes, and those certain interlocal agreements, certain municipalities within the County transferred traffic regulatory authority to the County over designated roads and signalized intersections. An increased use of nonhuman-powered micromobility devices, including motorized scooters and electric bicycles on streets and highways presents safety risks to operators and all other users of the road rights-of-way, sidewalks, and bicycle paths throughout the County. Adopting the proposed Ordinance will protect the health, safety, and welfare of the County's citizens and promote safety on streets, highways, and sidewalks under the County's jurisdiction. The Criminal Justice Commission (CJC) recommends adoption by the Board of County Commissioners (BCC).
