

## Appendix J: Repetitive Loss Properties

In accordance with the following FEMA requirement, the Palm Beach County LMS includes repetitive flood loss properties in its risk assessments:

**Requirement §201.6(c)(2)(ii):** The risk assessment **must** also address National Flood Insurance Program (NFIP) insured structures that have been repetitively damaged floods.

In addition, Palm Beach County's LMS and Community Rating System programs monitor the number and locations of flood prone properties countywide. At this writing, there were an estimated 279 FEMA-registered repetitive flood loss properties in the combined jurisdictions of incorporated and unincorporated Palm Beach County.

The table below lists the number of repetitive loss properties by jurisdiction. A map of repetitive loss property locations is presented in Appendix C.

A major mitigation goal of the LMS and CRS programs is the reduction in the number of repetitive loss properties county-wide through a combination of local and grant assisted projects and initiatives. These efforts will draw heavily from established funding programs such as the Flood Mitigation Assistance (FMA), Pre Disaster Mitigation (PDM), and Hazard Mitigation Grant Program (HMGP) programs.

Additional information on repetitive loss properties is contained in Section 4.1.4 of the plan, in the flood hazard section and in the built environment section of the Palm Beach County Hazard Environment profile.

A list of repetitive loss properties with detailed loss, property description and owner information is maintained by the LMS Working Group and the Community Rating System committee and kept on file at the county Emergency Operations Center. For privacy reasons, this information is not included in publicly distributed copies of the LMS plan. The repetitive loss property list is updated periodically as properties are mitigated or otherwise removed from the list, and/or new structures are designated as repetitive loss properties by FEMA.

Repetitive Flood Loss Properties

Although a significant portion of the county falls within FEMA designated Special Flood Hazard Areas, flooding can and does occur anywhere in the county. Because of elevated slabs and effective drainage systems, structural flooding is not widespread. Nevertheless, the county has 279 structures listed by FEMA as repetitive flood loss properties. These are properties that have had three or more “insured” flood losses of more than \$1000 during a running 10 year period since 1978. At this writing, 24 of the county’s 38 municipalities and the unincorporated county have at least one repetitive flood loss property on the books. Undoubtedly there are additional properties that flood regularly but technically do not qualify under FEMA’s guidelines. The table below summarizes the number of listed by the Insurance Services Office as repetitive flood loss properties within Community Rating System communities as of the end of 2008. The Town of Palm Beach County and the unincorporated area of the county have by far the highest incidence of repetitively flooded properties, 77 and 70 respectively (52.7% of the county total). West Palm Beach, Delray Beach, Ocean Ridge and Boynton Beach have significant numbers as well. Surprisingly, Jupiter and Boca Raton which the Flood Insurance Rate Maps, show has having significant special flood hazard areas only have 7 and 3 repetitive flood loss properties respectively. As of June 2006 there were 3 Severe Repetitive Loss Properties in the county. These are properties that had at least four NFIP claim payments (including building and contents) over

\$5,000 each, and the cumulative amount of such claims payments exceeds \$20,000; or at least two separate claims payments (building payments only) have been made with the cumulative amount of the building portion of such claims exceeding the market value of the building, occurring within any ten-year period, but greater than 10 days apart. All three properties in Palm Beach County are in the Town of Palm Beach.

Number of Addresses in Special Flood Hazard Areas

A total of 109,151 addresses in 24 municipalities and unincorporated Palm Beach County are located with Special Flood Hazard Areas (A Zones). These addresses are widely scattered throughout the County.

NFIP Flood Insurance Policies

According to the Insurance Services Organization (ISO), as of November 30, 2008, there were 166,719 National Flood Insurance policies in force countywide, with annual premiums totaling \$55,446,224 annually. This figure includes premium discounts earned by the County and communities participating in the county's Community Rating System.

## NFIP Policies in Force in Palm Beach County

Countywide, 166,719 National Flood Insurance Policies were in force as of December 2008. The table below provides a breakdown of policies in force by jurisdiction and premium dollars written.

<b>Jurisdiction</b>	<b>No. NFIP Policies In-Force</b>	<b>\$ Written Premiums In-Force</b>
