13. Title: [Unified Land Development Code \(ULDC\) Use Regulations Project Update-Utility Uses](#)

The Board was last updated on September 24, 2015, on Residential Use classification. At that briefing staff reminded the Board of the objectives of the ULDC Use Project which includes: identifying and eliminating redundancies or glitches; recognizing new industry trends; streamlining the approval processes where feasible; and, ensuring consistency with the Comprehensive Plan. The Board was also informed of the different opportunities for community engagement and participation in the Project. Zoning staff also clarified that Use Regulations that pertain to Agricultural Reserve (AGR) related Zoning Districts are not being modified as part of the Use Regulations Project, but may be addressed as a separate ordinance, pending additional feedback from the Board.
