ARTICLE 6
PARKING, LOADING, AND CIRCULATION

CHAPTER A  GENERAL

Section 1  General

A.  Purpose and Intent
The purpose and intent of this Article is to ensure the design and function, provisions of parking, loading, queuing, vehicular and pedestrian circulation, driveways, and access are in proportion to the demand created by each use and are efficient and safe. [Ord. 2020-001]

B.  Applicability
The standards of this Article shall apply to all development in unincorporated PBC, or existing development that is modified to the extent that it includes uses or site design features that were not specifically shown on previously approved plans. All parking areas established by this Section shall be continuously maintained in accordance with this Article. Parking and loading spaces shall be provided in accordance with Table 6.B.1.B, Minimum Parking and Loading Requirements, unless stated otherwise below. [Ord. 2020-001]

1.  Prohibitions
Parking and loading spaces are prohibited in the following: [Ord. 2020-001]
   a.  Landscape buffers; and [Ord. 2020-001]
   b.  Drainage District R-O-W or Easements, except additional parking in excess of the minimum required may be located in these areas with an agreement with the applicable district and subject to approval by the Zoning Director. [Ord. 2011-011] [Ord. 2020-001]

2.  Exemptions
The following exemptions shall apply, unless the parcel is vacant. [Ord. 2007-013] [Ord. 2020-001]
   a.  Commercial Vehicle
      One commercial vehicle of not over one ton rated capacity may be parked per dwelling unit, providing all of the following conditions are met:
      1)  vehicle is registered or licensed;
      2)  used by a resident of the premises;
      3)  gross vehicle weight rating (GVWR) does not exceed 12,500 pounds;
      4)  height does not exceed nine feet, including any load, bed, or box; and,
      5)  total vehicle length does not exceed 26 feet. [Ord. 2005-041]
   b.  Construction Vehicles
      Temporary parking of construction vehicles or equipment engaged in work on private land where construction is underway, for which a current and valid Building Permit has been issued by the Building Director and the Building Permit is displayed on the premises. [Ord. 2007-013]
   c.  Delivery and Service Vehicles
      The routine deliveries by tradesmen, or the use of trucks in making service calls. [Ord. 2007-013]
   d.  Emergency Repairs
      A situation where a motor vehicle becomes disabled and, as a result of such emergency, is required to be parked in a residential district longer than two hours. Any prohibited motor vehicle shall be removed from the residential district within 24 hours, regardless of the nature of the emergency.

3.  Deviations for the PO Zoning District
Deviation(s) from the provisions of this Article may be permitted for development supporting government facilities within the PO Zoning District, subject to Art. 2 Application Processes and Procedures and PPM #ZO-O-063, as applicable and as amended. [Ord. 2007-013] [Ord. 2019-005]

C.  Prior Approvals and Nonconformities

D.  Definitions
CHAPTER B  PARKING AND LOADING

Section 1  Calculation

A. Computing Parking Standards
   1. Multiple Uses
      On lots containing more than one use, the total number of required parking spaces shall be equal to
      the sum of the required parking for each use as if provided separately, unless shared parking is
      approved pursuant to Art. 6.C.1.B, Shared Parking or is allowed pursuant to Art. 3.B, Overlays. [Ord.
      2020-001]
   2. Fractions
      When calculation of the number of required parking spaces results in a fractional number, a fraction of
      less than one-half shall be disregarded and a fraction of one-half or more shall be rounded to the next
      highest whole number. [Ord. 2020-001]
   3. Floor Area
      Parking requirements that are based on square footage shall be computed using gross floor area
      (GFA), unless another measurement is specifically called for in this Section. [Ord. 2020-001]
   4. Occupants
      When the calculation of required parking spaces is based on the number of occupants, the calculation
      shall be based on the maximum number of persons legally residing on the premises at any one time.
   5. Bench Seating
      When the calculation of required parking spaces is based on the number of seats, each 22 linear inches
      of bench, pew, or similar bench seating facility shall be considered one seat.
   6. Gross Lot Area
      When the calculation of required parking spaces is based on gross lot area (GLA), the amount of lot
      area dedicated to parking shall not be included in the calculation. [Ord. 2020-001]
   7. Unlisted Land Uses
      In the event that parking requirements for a particular use are not listed in this Section, the requirements
      for the most similar use shall be applied. In making the determination, any evidence of actual parking
      demand for similar uses shall be considered as well as other reliable traffic engineering and planning
      information that is available. [Ord. 2020-001]
   8. Government Services and Government Facilities
      May be allowed alternative calculations based on evidence of actual parking demand for similar uses
      or reliable traffic engineering and planning information. [Ord. 2019-005] [Ord. 2020-001]
   9. Landscaping
      The landscape requirements for parking and interior vehicular use areas shall be calculated in
      accordance with Art. 7, Landscaping. [Ord. 2020-001]
  10. Reduction
      Refer to Art. 6.C.1, Requirements to Reduce or Increase Parking. [Ord. 2020-001]

(1) A Special Event shall provide on-site parking unless off-site parking is approved.

**Notes:**
1. In addition to the parking requirements of this Table, uses with company vehicles shall provide one space per company vehicle. [Ord. 2020-001]
3. Nurseries requiring fewer than 20 parking spaces may construct surface parking lots with shell rock or other similar materials or grassed subject to Art. 6.B.3.B.2, Grass, except for the required handicapped parking space(s). [Ord. 2020-001]
4. Nurseries requiring 20 or more parking spaces may construct surface parking lots with 50 percent of the required spaces as shell rock or other similar materials subject to Art. 6.B.3.B.1.a, Shell Rock, or grassed subject to Art. 6.B.3.B.2, Grass. [Ord. 2007-001] [Ord. 2020-001]
5. Nonprofit Assembly institutional uses in the Redevelopment and Revitalization Overlay may calculate parking at a rate of one space per employee.
6. Limited access Self-Service Storage facilities must provide a minimum of two loading spaces at each entry into the building, excluding office access not utilized by customers for accessing storage units. [Ord. 2005-004] [Ord. 2017-007] [Ord. 2020-001]
7. Parking shall not be required for Recreation Pods or facilities that are located on less than one acre. Golf cart parking may be used pursuant to Art. 6.B.3.A.1.d.2), Golf Cart Parking. [Ord. 2007-001] [Ord. 2013-001] [Ord. 2020-001]
8. The loading zone may be waived for a Type 2 or 3 Commercial Kennel operated as an accessory use to general retail sales. [Ord. 2006-036]
9. Each walk-up Freestanding ATM shall require a minimum of one parking space for persons with disabilities. [Ord. 2013-021]
10. Parking may not be required for a Community Vegetable Garden subject to submittal of parking demand study and approval of a Type I Waiver. [Ord. 2015-031]
11. Freestanding Unmanned Retail Structures shall require a minimum of one parking space for persons with disabilities.
12. A Type 3 CLF with more than 20 beds or a Nursing Home or Convalescent Facility with more than 20 beds shall provide at least one loading space per building unless approved as a Type I Waiver. [Ord. 2017-025]
13. A maximum of 20 percent of the required queuing spaces, pursuant to Table 6.B.3.A, Minimum Queueing Standards, may count toward the parking requirements pursuant to this Table. [Ord. 2020-001]
14. Parking for that portion of the park where there are proposed use(s), which may include but are not limited to: structures, activities of that use shall be calculated based on that use. Acreage associated with each use(s) shall be deducted from the overall park acreage. Parking calculation of the remainder of the park shall be based on the net acreage [Ord. 2020-001]
C. Parking Spaces for Persons Who Have Disabilities

Pursuant to F.S. § 553.513, the provision of parking spaces and passenger loading areas for persons who have disabilities is governed by F.S. § 553.511, § 5041, and the current effective version of the Florida Building Code, Accessibility. [Ord. 2005-002] [Ord. 2011-016] [Ord. 2020-001]

Section 2 Location

A. On-Site Parking

1. Required Parking

All required parking, shall be provided on the same lot or project as the principal use(s), or as allowed pursuant to Art. 6.B.2.C, Off-Site Parking. The location of required parking spaces shall not interfere with normal traffic flow or with the operation of queuing and backup areas. Loading areas shall not obstruct pedestrian pathways. [Ord. 2020-001]

a. Distance from Building or Use

Unless otherwise provided in this Section, all required parking spaces shall not be located more than 600 linear feet from the nearest building or use it is intended to serve. This standard shall not apply to parking spaces provided for auditoriums, stadiums, assembly halls, gymnasiums, and other places of assembly, nor shall it apply to hospitals, large-scale retail, wholesale, and consumer services uses over 500,000 square feet or industrial, wholesaling, or manufacturing establishments. [Ord. 2020-001]
b. Location of Front, Side, and Rear Parking
A minimum of ten percent of the required parking spaces shall be located at the side or rear of each building it is intended to serve; however, development requiring 50 or less parking spaces shall be exempt. A public pedestrian walk shall connect the parking areas to a store entrance. Such pedestrian access way shall be a minimum of four feet in width, clearly marked, well lighted, and unobstructed. [Ord. 2005-041]

1) Large Scale Commercial Development
Developments with single tenants occupying 65,000 gross square feet or more shall locate parking in accordance with Figure 6.B.2.A, Location of Front, Side, and Rear Parking, as follows: [Ord. 2020-001]

a) A maximum of 75 percent of required parking shall be located at the front.

b) A minimum of 15 percent of required parking shall be located immediately fronting a side or secondary entrance. [Ord. 2020-001]

c) A minimum of 25 percent of the required parking spaces at the side or rear, as indicated in Figure 6.B.2.A, Location of Front, Side, and Rear Parking. [Ord. 2020-001]

d) Type 2 Waiver
The BCC may waive these requirements as a Type 2 Waiver if the Applicant demonstrates there is an unusual site configuration or unique circumstances, and the alternative site design clearly meets the intent of this provision, by increasing the proximity of parking spaces to public entrances, reducing the visual blight of large expanses of surface parking areas, and improving pedestrian connectivity. [Ord. 2005-002] [Ord. 2012-027]

Figure 6.B.2.A – Location of Front, Side, and Rear Parking

[Ord. 2005-002] [Ord. 2020-001]

1. A minimum of 15 percent of required parking shall be located immediately fronting a side or secondary entrance. [Ord. 2020-001]

2. A minimum of 25 percent of required parking shall be located on the side or rear. [Ord. 2005-002]

c. Garages and Carports
Space within a carport or garage may be used to satisfy residential parking requirements, provided that no Building Permit shall be issued to convert a carport or garage to a living area without a provision to provide the required parking spaces in the driveway or in a common parking lot. [Ord. 2020-001]
d. Parking Fees
   Except as provided in Art. 6.B.3.A.1.d.3), Valet Parking, a fee or other form of compensation shall not be charged for the use of required parking spaces. Fees may be charged for the use of parking spaces that have been provided in excess of minimum standards. [Ord. 2020-001]

2. Guest Parking
   Guest parking spaces shall be located within 300 feet of the use they are intended to serve. Guest parking may be grassed, as provided in Art. 6.B.3.B.2, Grass. All guest parking shall be prominently identified with an above-grade sign or marking on the wheel stop or curb.

B. On-Street Parking
   On-street parking is prohibited unless stated below. [Ord. 2019-034]
   1. Residential
      On-street parking may be allowed as determined by the Land Development Division in subdivisions located in Standard Residential Zoning Districts or Residential Pods of a PDD when the following requirements are met: [Ord. 2019-034]
      a. parking spaces are located on an internal private street; [Ord. 2019-034]
      c. parking spaces shall not reduce the minimum fire department access width of 20 feet, pursuant to the Florida Fire Prevention Code, NFPA 1; [Ord. 2019-034]
      d. shall not be used to satisfy required parking; and, [Ord. 2019-034]
      e. not required to be shown on an approved Zoning Site Plan. [Ord. 2019-034]
   2. Developments located in the WCR AO, IRO, URAO, or TDD Zoning Districts in accordance with the specific provisions in Art. 3, Overlays and Zoning Districts that allow on-street parking. [Ord. 2019-034]

C. Off-Site Parking
   1. Permanent
      The DRO may permit all or a portion of the required parking spaces to be located on a lot separate from the lot on which the principal use is located. Off-site parking shall be subject to the following standards: [Ord. 2020-001]
      a. Necessity
         The Applicant shall demonstrate that it is not feasible to locate all of the required parking on the same lot as the principal use.
      b. Ineligible Activities
         Off-site parking shall not be used to satisfy the minimum parking requirements for restaurants, lounges, Convenience Stores, and other high turnover-oriented uses. Required handicap parking spaces shall not be located off site. [Ord. 2020-001]
      c. Location
         Off-site parking shall not be located more than 600 linear feet from the building or use it is intended to serve. Off-site parking shall not be separated from the principal use by a street with a width of more than 80 feet. [Ord. 2005-002]
      d. Zoning
         Off-site parking areas shall require the same or a more intensive zoning classification than that required for the building or use served.
      e. Signs
         One sign shall be located at the off-site parking lot indicating the use that it serves, and one sign shall be located on the site of the use served, indicating the location of the off-site parking lot.
      f. Agreement for Off-Site Parking
         In the event that an off-site parking area is not under the same ownership as the principal use served, a written agreement or unity of control shall be required. A copy of the agreement among the owners of record shall be submitted to the DRO and reviewed and approved by the County Attorney. The agreement shall be filed in the deed records of PBC by the owner of record. Proof of recordation of the agreement shall be presented to the DRO prior to approval. The agreement shall:
         1) list the names and ownership interest of all parties to the agreement and contain the signatures of those parties;
         2) provide a legal description of the land;
         3) include a Site Plan showing the area of the use and parking parcel;
         4) expressly declare the intent for the covenant to run with the land and bind all parties and all successors in interest to the covenant;
         5) assure the continued availability of the spaces and provide assurance that all spaces will be usable without charge;
6) describe the obligations of each party, including the maintenance responsibility;
7) require that the Zoning Director be notified prior to the expiration or termination of an off-site parking area lease agreement;
8) be made part of the Site Plan/Final Subdivision Plan; and,
9) describe the method by which the covenant shall, if necessary, be revised.

2. Temporary
The Zoning Director may consider a ZAR process for temporary off-site parking. [Ord. 2017-007] [Ord. 2018-002] [Ord. 2020-001]
a. Off-site parking shall not be located more than 600 feet from the temporary use site, measured from access point to access point. The Zoning Director may approve a distance greater than 600 feet when the Applicant either demonstrates that the attendees or temporary use participants are transported to the site by other means or has contracted with law enforcement for traffic management and pedestrian crossing. [Ord. 2017-007] [Ord. 2020-001]
b. Parcels used for off-site parking shall include access for vehicles to enter and exit the site in a forward motion. [Ord. 2017-007]
c. Off-site parking shall not be separated by a street with a width of more than 80 feet, unless traffic assistance is provided to guide pedestrians or measures are in place to assist pedestrian safety. [Ord. 2017-007]
d. Required accessible parking spaces shall not be located off site. [Ord. 2017-007]
e. Pedestrian sidewalks shall be provided from the off-site parking to the temporary use site. [Ord. 2017-007]
f. The duration and dates of the temporary off-site parking shall be the same as the time allowed for the temporary use it is intended to serve. [Ord. 2017-007]
g. In the event an off-site parking area is not under the same ownership as the site of the temporary use site, a written agreement between the Applicant and all owners of record of the parking area shall be required prior to permit approval. A copy of the agreement shall be subject to review and approval of the Zoning Division, and at a minimum shall contain the following: [Ord. 2017-007] [Ord. 2018-002]
   1) A list of names and ownership interest of all owners of the subject property; [Ord. 2017-007]
   2) A legal description of the land to be used for off-site parking; [Ord. 2017-007]
   3) Assurance by the owners of the subject property that all required off-site spaces will be available to the Applicant for the uses described in the Temporary Use application; [Ord. 2017-007] [Ord. 2020-001]
   4) A statement of maintenance obligations of each party for the duration of the permit; and, [Ord. 2017-007]
   5) A requirement that the Zoning Director receive notification in the event the off-site parking agreement is terminated prior to the termination of the Temporary Use Permit. [Ord. 2017-007]
h. Refer to Art. 6.B.3.B, Materials for parking surface types allowed. [Ord. 2020-001]

D. Commercial Parking Lot
1. General
   A commercial parking lot shall not be contiguous to lands used or zoned for residential purposes. Parking spaces may be rented for parking. No other business of any kind shall be conducted on the lot, including repair, service, washing, display, or storage of vehicles or other goods. Review of parking lots and structures shall consider the proposed operation of the lot. The standards of this Article, including signage, maneuvering, and backup distances may be varied, based on the proposed operation.

2. Design Standards
   The Site Plans for a commercial parking lot shall depict the layout of the street connection and access ways, drainage provisions, signs, surfacing, curbs or barriers, street connections and access ways of lands located contiguous and directly across the street, and the location and type of landscaping. [Ord. 2020-001]

3. Access
   Ingress and egress shall be located to present the least interference with traffic and the least nuisance on any adjacent street. The location, size, and number of entrances and exits shall be subject to approval by the DRO.
E. Parking Structures

1. General
   A parking structure may be constructed as a garage with or without a parking lift, and may be used to meet parking requirements for any use or combination of uses. Such structures shall be considered accessory to the principal use and shall be designed to meet or exceed the following standards. [Ord. 2020-001]

   a. Parking Garage
      Shall comply with the standards for surface parking lots with regard to marking, signage, striping, and minimum number of spaces to be provided. [Ord. 2020-001]

         1) Design Layout
            The Applicant shall submit a Site Plan that shows interior traffic circulation, access use of ramps, parking space and aisle dimensions, traffic control signs and pavement marking, safe and efficient vehicular and pedestrian operation, location of entrances and exits, sight distances at entrances and exits, and screening of the cars located in or on the parking structure from adjoining lands and from public streets. [Ord. 2020-001]

            a) Floor Width
               The unobstructed distance between columns or walls measured at any point between the ends of the parking aisle shall be as indicated in Table 6.B.2.E, Minimum Floor Width. [Ord. 2020-001]

               Table 6.B.2.E – Minimum Floor Width
               \[
               \begin{array}{|c|c|c|}
               \hline
               \text{Angle} & \text{Parking on Both Sides of Aisle} & \text{Parking on One Side of Aisle} \\
               \hline
               90^\circ & 60’ – One-or-two-way aisle & 43’ – One-or-two-way aisle \\
               75^\circ & 59’ – One-way aisle (1) & 40’ – One-way aisle \\
               60^\circ & 53’ – One-way aisle (1) & 34’ – One-way aisle \\
               \hline
               \end{array}
               \]

               Notes:
               1. Requests for reductions of unobstructed distances will be considered if aisle and sight parking dimensions are met, and the columns are not located at the rear of the parking spaces, or interfere with the opening of doors.

            b) Minimum Space Width
               The minimum parking space width shall be nine feet.

         2) Parking Lifts
            a) May be used to stack two or three vehicles vertically in each parking space and shall be located within a parking garage or structure for the use they serve. [Ord. 2020-001]
            b) Shall not be subject to the minimum parking length and width dimensions. [Ord. 2020-001]
            c) Queuing is prohibited within any R-O-W. [Ord. 2020-001]
            d) Maximum sound levels shall not exceed applicable thresholds as stipulated in Table 5.E.4.B, Maximum Sound Levels. [Ord. 2020-001]
            e) Details of the interior traffic circulation, parking space, and aisle dimensions hall be shown on the Site Plan. [Ord. 2020-001]

Section 3  Design and Materials

A. Dimensions and Layout

1. Dimensions
   The dimensions and geometrics of parking areas shall conform to the following minimum standards. [Ord. 2020-001]
   a. Residential
      1) Individual Parking Space
         Each parking space for dwelling units that do not share a common parking lot shall be a minimum of eight feet wide and 20 feet long. Parking spaces may be side to side, end to end, or not contiguous to each other.

   2) Common Parking Lots
     For dwelling units that share a common parking lot, parking spaces and aisles shall be subject to Table 6.B.3.A, Minimum Parking Dimensions for Non-Residential Uses and Residential Uses with Shared Parking Lots. [Ord. 2020-001]
b. Non-Residential

All non-residential uses and residential uses with shared parking lots shall provide parking spaces that comply with Table 6.B.3.A, Minimum Parking Dimensions for Non-Residential Uses and Residential Uses with Shared Parking Lots, and Figure 6.B.3.A, Typical Example of General Parking Schematic. Parking angles that are not illustrated in Table 6.B.3.A, Minimum Parking Dimensions for Non-Residential Uses and Residential Uses with Shared Parking Lots, or Figure 6.B.3.A, Typical Example of General Parking Schematic shall be interpolated from the Tables and approved by the DRO. For the purpose of applying the “Use” column in Table 6.B.3.A, Minimum Parking Dimensions for Non-Residential Uses and Residential Uses with Shared Parking Lots, the following rules shall apply: [Ord. 2020-001]

1) General

The term “general” applies to parking spaces designated to serve non-residential uses and residential uses with shared parking lots. [Ord. 2016-042]

2) Queuing Distance

In a parking lot a minimum queuing distance of 25 feet is required between the property line and the first parking space.

3) Exception for Low Speed Electric Vehicles (LSEVs)

Where drive aisles in LSEV parking areas are not intended solely for use by LSEVs, the overall width and minimum aisle width may be increased to allow the aisle width permitted for standard-sized vehicles. [Ord. 2005-002]

Notes:
2. Where drive aisles in LSEV parking areas are not intended solely for use by LSEVs, the overall width and minimum aisle width may be increased to allow the aisle width permitted for standard-sized vehicles.
3. Angled parking with two-way traffic movement shall be a minimum of 24 feet wide except for some parking lots with 90-degree parking stalls, or unless stated otherwise herein. [Ord. 2012-027]
4. For a Retail Gas and Fuel Sales use, the drive aisles perpendicular to the fueling positions under the canopy shall have a minimum aisle width of 30 feet (see Figure 6.B.3.A, Retail Gas and Fuel Canopy). [Ord. 2019-005] [Ord. 2020-001]

Notes:

1. All angled parking with two-way traffic movement shall be a minimum of 24 feet wide except for some parking lots with 90-degree parking spaces, or unless stated otherwise herein.

2. Where drive aisles in LSEV parking areas are not intended solely for use by LSEVs, the overall width and minimum aisle width may be increased to allow the aisle width permitted for standard-sized vehicles.
c. **Parallel Parking**

Parallel parking spaces shall have a minimum length of 23 feet and a minimum width of ten feet.

*Figure 6.B.3.A – Parallel Parking*

**Figure 6.B.3.A – Parallel Parking Dimensional Standard**

Marking Option - 1

Marking Option - 2
d. Alternative Vehicle Parking

1) Motorcycle Parking

For any non-residential use providing 50 or more spaces, a maximum of three required on-site parking spaces per 50 spaces, may be reduced in size and redesigned to a minimum of four feet wide by nine feet long to accommodate parking of motorcycles. When provided, these parking spaces shall be identified by a sign. [Ord. 2020-001]

Figure 6.B.3.A – Motorcycle Parking

[Ord. 2020-001]

2) Golf Cart Parking

Residential developments with recreation areas such as Recreation Pods, Golf Courses, or recreational facilities designed and intended for use by occupants of residential developments or subdivisions, owned and operated by a POA, may accommodate golf carts or LSEVs subject to the following: [Ord. 2013-001]

a) Utilize a maximum of 30 percent of recreational uses required parking spaces. [Ord. 2013-001] [Ord. 2020-001]

b) Parking dimension may be reduced consistent with Low Speed Electric Vehicle (LSEV) minimum dimensions as indicated in Table 6.B.3.A, Minimum Parking Dimensions for Non-Residential Uses and Residential Uses with Shared Parking Lots. [Ord. 2013-001]
3) **Valet Parking**

The DRO may approve the use of valet parking to satisfy required parking. Valet parking shall not cause customers or patrons who do not use the valet service to park off site or in the R-O-W, or cause queuing in a street, driveway, or drive aisle. The following additional standards shall apply to valet parking: [Ord. 2020-001]

a) **Maximum Number**

The maximum number of spaces reserved for valet parking shall not exceed 25 percent of the minimum number of required parking spaces for commercial uses over 20,000 square feet and 50 percent for all other uses. [Ord. 2020-001]

b) **Location**

Valet parking for commercial uses shall not be located within 200 feet of a public entrance to a building. Areas designated for valet parking shall not interfere with vehicular circulation or emergency access.

![Figure 6.B.3.A – Valet Parking Illustration](image)

4) **Electric Vehicle Charging Parking Space (EVCPS)**

A parking space that provides infrastructure that supplies electric energy for the charging of electric vehicles, without a fee, is associated with the principal use, and is part of the required number of parking spaces, shall be considered an EVCPS. Any parking space that requires a fee is subject to Art. 4.B.2.C.10, Electric Vehicle Charging Station Facility, [Ord. 2019-034] [Ord. 2020-001]

a) **Non-Residential Uses**

Shall not exceed a maximum of 20 spaces or ten percent of the total required parking spaces for the use or uses in the development, whichever is less. [Ord. 2019-034]

b) **Residential Uses**

An EVCPS is Permitted by Right. [Ord. 2019-034]

c) **Design and Construction Standards**

1. Each EV space shall be marked by a sign designating the parking space as an electric vehicle parking space, in accordance with Art. 8.B.2, Small Signs and the Manual on Uniform Traffic Control Devices (MUTCD) of the Federal Highway Administration. Each sign shall include the information pursuant to Art. 4.B.2.C.10.c.(a), (c), and (d). Vehicles that are not capable of using the Electrical Vehicle Charging Station are prohibited from parking in this space; and [Ord. 2019-034]

2. EV spaces shall be painted green, or shall be marked by green painted lines or curbs. [Ord. 2019-034]
2. Layout
   a. Access
      1) Ingress and Egress
         Each parking space shall have appropriate access to a street or alley. Legally platted lots that
         accommodate one or two units shall be allowed backward egress from a driveway onto a street.
         In all other cases, maneuvering and access aisle area shall be sufficient to permit vehicles to
         enter and leave the parking lot in a forward motion. [Ord. 2007-001]

      2) Dimensions
         Access ways, except those associated with a Single Family residential use, shall be subject to
         the following dimensional standards.

         Table 6.B.3.A – Dimensions of Access Ways
         | Minimum Width at Street | Feet (1) |
         |-------------------------|----------|
         | One-Way                 | 15       |
         | Two-Way                 | 25       |
         | Two-Way with Median     | 40 (2)   |
         | Two-Way without Median  | 35       |
         | Right-Turn Radius       |          |
         | Minimum                 | 25       |
         | Maximum                 | 30       |

         Notes:
         1. Widths exceeding these standards may be approved by the Zoning Director, the
            County Engineer, depending on the use or Fire-Rescue official, as necessary.
            [Ord. 2020-001]
         2. Width excludes median, 20-foot unobstructed pavement required on both sides of
            median, excluding guard houses, and landscape islands.
         3. Measured on side of driveway exposed to entry or exit by right-turning vehicles.

      3) Driveways and Access
         a) Access Connections
            For the purposes of this Section, an access connection means the point or points at which
            a proposed development’s traffic meets the existing right-of-way system. Access
            connections shall be subject to the following standards: [Ord. 2007-013]

            (1) Spacing
                (a) Local or Residential Access Streets
                    Access connections for lots located on local or residential access streets shall
                    maintain a minimum setback from a side or rear lot line as follows: [Ord. 2007-013]
                    1) Single Family or Multifamily: 2 feet
                    2) Zero Lot Line:                  1 foot
                    3) Townhouse:                     1 foot

                (b) Arterial and Collector Streets
                    Access connection locations and spacing shall be in accordance with the PBC
                    Access Management Standards. Provided, however, that access connections to
                    any street which is part of the State Highway System, as defined in F.S. § 334.03,
                    shall meet the permit requirements of FDOT for street connections, pursuant to
                    F.S. ch. 335. [Ord. 2007-013]

            (2) Construction
                Access connections to streets under the jurisdiction of PBC shall be constructed in
                accordance with the standards established by the DEPW. [Ord. 2007-013]

            (3) Number of Access Connections
                (a) Local or Residential Access Streets
                    Lots located on local or residential access streets shall have a maximum of two
                    access connections. [Ord. 2007-013]
(b) **Arterial and Collector Streets**

The number of access connections to serve a site shall be kept to a minimum. The County Engineer may restrict the number of access points or require construction of an additional access point(s) based upon the following criteria: [Ord. 2007-013]

1) Proposed development frontage on roadways shown on the Thoroughfare Right-of-Way Identification Map; [Ord. 2007-013]
2) The projected daily and Peak Hour Traffic impacts of the development; [Ord. 2007-013]
3) Proposed land use; [Ord. 2007-013]
4) Traffic operations and safety on the major roadway network; [Ord. 2007-013]
5) Existing or anticipated traffic volume along adjoining R-O-W; [Ord. 2007-013]
6) Access connections on contiguous land or land on the opposite side of the street; [Ord. 2007-013]
7) Median opening locations; and, [Ord. 2007-013]

b) **Double Frontage Lots and Corner Lots**

(1) **Double Frontage Lots**

Access to a double frontage lot shall be governed by provisions of Art. 11.E.2.A.4, Double Frontage Lots and Corner Lots and the number of access connections shall be governed by the following. When a double frontage residential lot is located adjacent to a Collector or an Arterial Road, it shall also be required to front and have access on a local or residential access street. A limited access easement shall be placed along the property line that abuts either the Collector or Arterial Road. [Ord. 2007-013] [Ord. 2020-001]

![Figure 6.B.3.A – Double Frontage Lots](image)

(2) **Corner Lots**

The number of access connections serving a corner lot shall be governed by the provisions of this Article, provided the regulations of Section 300 of the Land Development Design Standards Manual are met. [Ord. 2007-013] [Ord. 2020-001]

(c) **Exceptions**

The County Engineer shall have the authority to grant a permit for driveway and access plans with lesser or greater dimensions than designated in this Section, giving consideration to the following factors:

1) Lot size;
2) Lot configurations;
3) Proposed land use;
4) Traffic generation or anticipated traffic volume along adjoining R-O-W;
5) Driveway locations on contiguous land or land on the opposite side of the street;
6) Median opening locations; and,
7) Safe sight distance.

b. **Point of Service and Queuing Standards**

In addition to meeting the minimum parking and loading standards of this Article, all drive-through establishments shall meet the following standards. [Ord. 2019-005] [Ord. 2020-001]
Figure 6.B.3.A – Queuing and By-Pass Standards

Figure 6.B.3.A – Queuing and By-Pass Standards for Dual Drive-Through

[Ord. 2020-001]
1) A point of service space shall be provided for all drive-through establishments. The dimensions for the point of service space shall be a minimum of nine by 20 feet. [Ord. 2019-005]

2) Queuing shall be provided for drive-through establishments described in Table 6.B.3.A, Minimum Queuing Standards. Each queuing space shall be a minimum of ten feet by 20 feet, clearly defined and designed so as not to conflict or interfere with other traffic using the site. Unless otherwise indicated below, queuing shall be measured from the front of the stopped vehicle located at the point of service to the rear of the queuing lane. One additional queuing space shall also be provided after the point of service for all uses. [Ord. 2005-041] [Ord. 2019-005]

3) A by-pass lane a minimum of ten feet wide shall be provided before or around the point of service. Subject to the Zoning Director's approval, a by-pass lane may not be required if the queuing lane is adjacent to a vehicular use area which functions as a by-pass lane. The by-pass lane shall be clearly designated and distinct from the queuing area.

Notes:
1. All uses: a by-pass lane shall be required if more than five queuing spaces are provided.

4) The allowance for dual drive-through lanes converging to a single land with four spaces preceding each menu board is consistent with the ULDC queuing requirements. [Ord. 2020-001]

c. Circulation Standards

1) There shall be safe, adequate, and convenient arrangement of pedestrian pathways, bikeways, roads, driveways, and parking and loading spaces within parking areas. [Ord. 2020-001]

2) Streets, pedestrian walks, parking areas, and open space shall be designed as integral parts of an overall site design which shall be properly related to existing and proposed buildings, adjacent uses, and landscaped areas.

3) Parking lots shall be maintained in accordance with the paving and drainage permit issued authorizing construction.
d. Pedestrian Circulation
   1) Structures, vehicular circulation lanes, parking spaces, driveways, and open spaces shall be designed to provide logical, impediment-free pedestrian movement. The site shall be arranged so that pedestrians moving between buildings are not unnecessarily exposed to vehicular traffic.
   2) Paved, landscaped, or comfortably-graded pedestrian walks shall be provided along the lines of the most intense use, particularly from building entrances to streets, parking areas, and adjacent buildings.
   3) Where parking spaces directly face a structure, and are not separated by an access aisle from the structure, a paved pedestrian walkway shall be provided between the front of the parking space and the structure. The walkway shall be a minimum of four feet wide, exclusive of vehicle overhang, and shall be separated from the parking space by concrete wheel stops or continuous curbing. Single Family residential uses are exempt from this requirement. [Ord. 2020-001]
   4) For non-residential developments, subject to the requirements of Art. 5.C, Design Standards, a continuous internal pedestrian walkway shall be provided from each adjacent perimeter public sidewalk to all customer entrances. The design of the walkway shall include all of the following: [Ord. 2009-040] [Ord. 2020-001]
      a) one native Canopy tree for each 25 linear feet with a maximum spacing of 50 feet between trees; [Ord. 2009-040]
      b) one bench every 200 feet between the public sidewalk and building; and, [Ord. 2009-040]
      c) walkways traversing vehicular use areas shall be accented with special pavers, bricks, decorative concrete, stamped concrete, or similar decorative pavement treatment. [Ord. 2009-040]

e. Drainage
   1) Review and Approval by County Engineer
      The drainage design for all parking areas shall be reviewed and approved pursuant to Art. 11, Subdivision, Platting, and Required Improvements, prior to the issue of a Development Permit. [Ord. 2020-001]
   2) Impervious Surface
      All surface parking areas, grassed or otherwise, shall be considered an impervious paved surface for the purpose of determining tertiary drainage system flow capacity and secondary stormwater management system runoff treatment/control requirements.
   3) Runoff
      Runoff from vehicular use areas shall be controlled and treated in accordance with all applicable Agency standards in effect at the time an application is submitted.

f. Maintenance
   All parking lots shall be maintained in good condition to prevent any hazards, such as cracked asphalt or potholes.
g. **Striping Width Standards**

Except for parallel parking spaces, parking lots containing spaces for three or more vehicles shall delineate each space by single or double stripes on each side of the space. All stripes shall be painted in white paint except for handicapped spaces which shall have blue stripes. The width of the painted stripe shall be four inches. [Ord. 2020-001]

1) Single Striping parking space width shall be measured from the centerline of the stripe. [Ord. 2020-001]

2) Double striping separation from inside edge of stripe to inside edge of stripe shall be no less than eight inches and no more than 16 inches. The effective width of the double stripes shall range from 16 inches to 24 inches, measured from outside edge of stripe to outside edge of stripe. Parking space width shall be measured from the centerline of the set of stripes.

**Figure 6.B.3.A – Striping Standards**

[Diagram showing single and double stripe widths and separations]

[Ord. 2011-016]
h. Signs
Traffic control signs and other pavement markings shall be installed and maintained as necessary
to insure safe and efficient traffic operation in all vehicular use areas. Such signage and markings
shall conform with the Manual on Uniform Traffic Control Devices, Federal Highway Administration,
U.S. Department of Transportation, as adopted by the FDOT.

i. Landscaping
1) All new parking lots shall be landscaped in accordance with Art. 7, Landscaping.
2) Renovations to existing parking lots shall be landscaped in accordance with Art. 7, Landscaping.
   a) Exception
   Normal maintenance and repair, such as resurfacing, restriping, or the addition of curbing
   and wheel stops, to existing parking lots shall require landscaping in accordance with
   the original permit.

B. Materials
1. Paved
   Unless otherwise provided in this Article, all parking lots shall be improved with either: (1) a minimum
   of a six-inch shell rock or lime rock base with a one inch hot plant mix asphaltic concrete surface; or (2)
   a base and surface material of equivalent durability, as certified by an engineer.
   a. Shell Rock
   The uses listed below may construct surface parking lots with shell rock or similar material approved
   by the DRO, except for the required handicapped parking space(s). Parking areas connected to a
   public street, shall be paved. [Ord. 2019-039]
   1) Agricultural uses requiring less than 20 spaces.
   2) Communication towers.
   3) Accessory uses to a Bona Fide Agriculture use, such as Farm Workers Quarters.
   4) Wholesale Nursery, Retail Nursery, or Landscape Service collocated with a Nursery requiring
      less than 20 parking spaces, and the Outdoor Storage area of vehicles for the operation of the
      business. [Ord. 2019-039]
      a) Wholesale Nursery, Retail Nursery, or Landscape Service collocated with a Nursery
      requiring 20 or more parking spaces may contract surface parking lots with 50 percent of
      the required spaces as shell rock or other similar materials subject to Art. 6.B.3.B.1.a, Shell
      Rock, or grassed subject to Art. 6.B.3.B.2, Grass. [Ord. 2007-010] [Ord. 2019-039]
   5) Driveways in the RSA serving residential uses on unpaved roads.
   6) Uses in the C-51 Catch Basin when approved by the DRO.
   7) Government Facilities when limited to spaces that are not accessible to the general public.
      [Ord. 2020-001]
   8) Parks when provided to serve as overflow parking for event and/or peak parking. [Ord. 2020-
      001]
   b. Wheel Stops and Curbing
   Wheel stops or continuous curbing shall be placed two and one-half feet back from walls, poles,
   structures, pedestrian walkways, and landscaped areas.

2. Grass
   Grass parking is permitted, subject to approval by the DRO, pursuant to the following procedures and
   standards; [Ord. 2020-001]
   a. Application
   In addition to the application requirements for a Site Plan/Final Subdivision Plan, the Applicant shall
   submit the following:
   1) a Site Plan showing the area proposed for grass parking; [Ord. 2007-013]
   2) the proposed method of traffic control to direct vehicular flow and parking;
   3) description of the method to ensure that the grass parking surface will be maintained in its
      entirety with a viable turf cover; [Ord. 2007-013]
   4) a conceptual drainage plan for the entire parking area; and, [Ord. 2007-013]
   5) a written statement that the area proposed for grass parking shall be used for parking on an
      average of no more than three days or nights each week. [Ord. 2007-013]
b. Standards
   The following standards shall apply to grass parking:
   1) only parking spaces provided for peak demand may be allowed as grass parking; [Ord. 2007-013]
   2) paved parking shall be provided for average daily traffic, including weekday employees and visitors;
   3) a grass parking area shall not include any existing or proposed landscaped area, surface water management area, or easement, other than a utility easement;
   4) handicap parking shall not be located in a grass parking area;
   5) grass parking areas shall meet the landscape requirements in Art. 7, Landscaping. Grass parking areas shall not be counted toward meeting minimum landscape or open space standards; [Ord. 2007-013]
   6) all access aisles or lanes shall either: [Ord. 2007-013]
      a) be paved and meet the same substructural and surface standards required for paved parking surfaces; or
      b) be surfaced with paver block or other semi-pervious coverage approved by the DRO and County Engineer; or [Ord. 2007-013]
      c) be stabilized with sub-base underlayment subject to approval by Land Development. [Ord. 2007-013]
   7) grass parking shall be located a minimum of 100 feet from the overland flow prior to entering into a body of water or water systems; and, [Ord. 2007-013]
   8) materials utilized in the construction of grass parking shall be drought tolerant and subject to approval by Land Development. [Ord. 2007-013]

c. Permit
   If at any time it is determined that a grass parking area does not meet the standards established in this Section, the Zoning Director shall require the restoration of the grass surface or the paving of the grass for parking.

CHAPTER C ALTERNATIVE DESIGN OPTIONS

Section 1 Requirements to Reduce or Increase Parking

A. Type 1 Waiver
   1. Applicability
      a. Reduce Required Parking
         A Type 1 Waiver may be requested to reduce required parking no more than 15 percent, subject to the Standards as outlined in Art. 2.C.5.E, Type 1 Waiver and the following: [Ord. 2020-001]
         1) limited to uses that require 20 or more spaces; [Ord. 2020-001]
         2) submittal of a Parking Demand Statement that identifies the use or uses; and, [Ord. 2020-001]
         3) the Parking Demand Statement confirms the parking will not be negatively impacted if the Type 1 Waiver is granted. [Ord. 2020-001]

      b. PDD Parking Increase
         The Development Review Officer (DRO) may authorize an increase in the maximum allowed number of parking spaces in a PDD subject to a Type 1 Waiver. [Ord. 2020-001]
         1) Supplemental Application Requirements
            The Applicant shall submit a parking study and any additional documentation justifying the need for additional parking. The parking study shall include, the following:
            a) the location of the use(s) on the site requiring the additional parking;
            b) the size and type of use(s) and/or activity(s) requiring the additional parking; and,
            c) the rate of turnover and the anticipated peak parking demands.
         2) Maximum Increase
            a) Lots less than ten acres in size may apply for a 20-percent increase.
            b) Lots ten acres or greater in size may apply for a ten-percent increase.
B. Shared Parking
The DRO may authorize a reduction in the number of required parking spaces for multiple and mixed use projects and for uses that are in close proximity to one another that have different peak parking demands and operating hours. Shared parking shall be subject to the following standards: [Ord. 2020-001]

Figure 6.C.1.B – Shared Parking

1) Application
A shared parking study shall be submitted in a form established by the Zoning Director.

2) Location
All uses which participate in a shared parking plan shall be located on the same lot or on contiguous lots. The shared parking lot shall have access as though the uses were a single project.
3) **Shared Parking Study**
   The shared parking study, shall clearly establish the uses that will use the shared spaces at different times of the day, week, month, or year. The study shall:
   a) be based on the Urban Land Institute’s (ULI) methodology for determining shared parking, or other generally-accepted methodology;
   b) address the size and type of activities, the composition of tenants, the rate of turnover for proposed shared spaces, and the anticipated peak parking and traffic demands;
   c) provide for no reduction in the number of required handicapped spaces;
   d) provide a plan to convert reserved space to required parking spaces; and,
   e) be approved by the County Engineer prior to submittal, based on the feasibility of the uses to share parking due to their particular peak parking and trip generation characteristics.

4) **Reserved Space**
   The Applicant shall account for 100 percent of the reduction granted through one of the following alternatives: reserved area; future parking garage; future rooftop parking; off-site parking; limitation of uses to adhere to parking regulations; or, shared parking. *[Ord. 2011-001]*

5) **Shared Parking Agreement**
   A shared parking plan shall be enforced through written agreement or through a unity of control. A copy of the agreement between the Property Owner and PBC shall be submitted to the DRO and reviewed and approved by the County Attorney. The agreement shall be recorded with the Clerk of the Circuit Courts of PBC by the owner prior to issuance of a Certificate of Occupancy. Proof of recordation of the agreement shall be submitted prior to approval by the DRO. The agreement shall:
   a) list the names and ownership interest of all parties to the agreement and contain the signatures of those parties;
   b) provide a legal description of the land;
   c) include a Site Plan showing the parking area and reserved area which would provide for future parking; *[Ord. 2011-001]*
   d) describe the area of the parking parcel and designate and reserve it for shared parking unencumbered by any conditions which would interfere with its use;
   e) agree and expressly declare the intent for the covenant to run with the land and bind all parties and all successors in interest to the covenant;
   f) assure the continued availability of the spaces for joint use and provide assurance that all spaces will be usable without charge to all participating uses;
   g) describe the obligations of each party, including the maintenance responsibility to retain and develop reserved areas for additional parking spaces if the need arises; *[Ord. 2011-001]*
   h) incorporate the shared parking study by reference;
   i) be made part of the Site Plan/Final Subdivision Plan; and,
   j) describe the method by which the covenant shall, if necessary, be revised.

6) **Change in Use**
   Should any of the uses in the shared parking study change, or should the Zoning Director or County Engineer find that any of the conditions described in the approved shared parking study or agreement no longer exist, the owner of record shall have the option of submitting a revised shared parking study in accordance with the standards of this Section or of providing the number of spaces required for each use as if computed separately.
CHAPTER D RESIDENTIAL PARKING STORAGE

Section 1 Storage

A. Applicability

1. Outdoor Storage

A maximum of one recreational vehicle and any two or a maximum of three of the following, may be parked outdoors on a residential parcel with a residential unit: sports vehicle or marine vessel with accompanying trailers; and trailers may be parked outdoors in a residential district provided that the vehicles are: [Ord. 2007-013] [Ord. 2019-005] [Ord. 2020-001]

a. owned and used by a resident of the premises;

b. not parked in a required front setback or other area between the structure and the street, or on the street except for the purpose of loading or unloading during a period not to exceed two hours in any 24-hour period; [Ord. 2007-013]

c. located in the side or rear yard and are screened from surrounding property and streets with an opaque wall, fence, or hedge a minimum of six feet in height;

d. not used for living, sleeping, or housekeeping purposes;

e. operative and currently registered or licensed, as required by State or Federal law.

f. vehicles or marine vessels on navigable waterways are exempt; and,

[Ord. 2019-005]

Additionally, one vehicle which does not meet the requirements above may be approved through ZAR process upon demonstration that: [Ord. 2018-002]

1) The Property Owner, family member, or legal tenant has a physical disability which requires a vehicle which cannot meet these requirements.

2. Unregistered or Unlicensed Vehicles

One vehicle may be kept on site provided the vehicle is completely screened from view from adjacent roads and lots. [Ord. 2007-013] [Ord. 2020-001]

3. Indoor Storage

Vehicles, marine vessels, and related trailers used for non-commercial purposes, whether licensed and operational or not, located in a fully-enclosed garage or permitted roofed structure. [Ord. 2007-013] [Ord. 2019-005]

4. Parking of Equipment, Vehicles, or Marine Vessels and Trailers in Residential Districts

The following standards shall apply to the parking of equipment (including construction equipment), vehicles, recreational vehicles, sports vehicles, or marine vessels and trailers on residential parcels or adjacent streets in residential districts. For the purposes of this Section, legally established, non-residential uses in the AR district in lands designated Rural Residential in the Plan shall not be considered a residential district and is subject to Art. 5.B.1.A.3, Outdoor Storage and Activities, where allowed. [Ord. 2007-013] [Ord. 2019-005] [Ord. 2020-001]

a. General Prohibition

1) On-Street

No person shall park, store, or keep any equipment, commercial vehicle, recreational vehicle, marine vessel, trailer, or sports vehicle such as a dune buggy, jet skis, racing vehicle, off-road vehicle, air boat, canoe, or paddleboat, on any public street, or other thoroughfare or any R-O-W within a residential district for a period exceeding one hour in any 24-hour period, each such period commencing at the time of first stopping or parking. [Ord. 2007-013] [Ord. 2019-005] [Ord. 2019-034]

2) On-Site

a) It shall be unlawful for any owner of land in any residential district to park on, cause to be parked on, or allow to be parked on residentially-zoned land any unlicensed or unregistered vehicle or equipment, commercial vehicle, sports vehicle, recreational vehicle, marine vessel, or trailer for a period exceeding one hour in any 24-hour period, each such period commencing at the time of first stopping or parking, unless in compliance with Art. 6.D.1.A.2, Unregistered or Unlicensed Vehicles. [Ord. 2007-013] [Ord. 2019-005] [Ord. 2019-034] [Ord. 2020-001]

b) Vehicles shall only be parked on an improved surface in the Urban/Suburban Tier. [Ord. 2019-034]

3) Vacant Lot Prohibitions

Parking shall be prohibited on all vacant properties in residential districts. [Ord. 2007-013]
CHAPTER E  LOADING STANDARDS

Section 1  General

A. Prohibitions
   1. A street or driveway shall not be used for loading or unloading. [Ord. 2020-001]
   2. A loading space shall not be used to satisfy parking requirements. [Ord. 2020-001]
   3. The location of the loading area shall not interfere with the free circulation of vehicles in the parking lot. [Ord. 2020-001]
   4. Repair Activities
      Only emergency repair service shall be permitted in a loading space.

Section 2  Calculation

A. Loading Standards
   1. Multiple Uses
      On lots containing more than one use, the total floor area shall be used to determine the number of spaces which are required. [Ord. 2016-042]
   2. Fractions
      When calculation of the number of required off-street loading spaces results in a fractional number, a fraction of less than one-half shall be disregarded and a fraction of one-half or more shall be rounded to the next highest full number. [Ord. 2016-042]
   3. Floor Area
      Loading standards that are based on square footage shall be computed using GFA. [Ord. 2016-042]
   4. Unlisted Land Uses
      In the event that loading requirements for a particular use are not listed in this Article, the requirements for the most similar use shall be applied, in making the determination, any evidence of actual parking demand for similar uses shall be considered as well as other reliable traffic engineering and planning information that is available. [Ord. 2016-042]
   5. Government Services and Government Facilities
      May request alternative calculations based on evidence of actual loading demand for similar uses or reliable traffic engineering and planning information. [Ord. 2020-001]

B. Minimum Loading Requirements
   1. Standard “A”
      One space for GFA that is 10,000 square feet or greater, plus one space for each additional 40,000 square feet of GFA. [Ord. 2020-001]
   2. Standard “B”
      One space for GFA that is 10,000 square feet or greater, plus one space for each additional 50,000 square feet of GFA. [Ord. 2020-001]
   3. Type 1 Waiver – Reduction of Minimum Number of Required Loading Spaces
      An Applicant may apply for a Type 1 Waiver subject to submittal and approval of documentation such as: evidence of actual loading demand for the proposed use(s), as well as other available technical data, traffic engineering, and planning information. [Ord. 2007-001] [Ord. 2012-027] [Ord. 2016-042] [Ord. 2017-025] [Ord. 2020-001]

Section 3  Location

A. On Site
   Loading spaces shall be located adjacent to the building which it serves, and where required by Table 6.B.1.B, Minimum Parking and Loading Requirements, unless approved pursuant to Art. 6.E.3.C, Alternative Design Options. Loading spaces shall be proportionately distributed throughout the site. [Ord. 2008-037] [Ord. 2020-001]

B. Off Site or On Street
   Loading spaces shall be prohibited from being located off site or on street. [Ord. 2020-001]

C. Alternative Design Options
   Parking spaces and the drive aisle may be used in lieu of providing a designated loading space during non-business hours and shall be prohibited during the hours of operations. [Ord. 2020-001]
Section 4   Design and Construction Standards

A. Dimensions, Layout, and Screening
   1. Dimensions
      a. Loading Space

Table 6.E.4.A – Dimensions

<table>
<thead>
<tr>
<th>Standard “A”</th>
<th>Square Footage of Gross Floor Area</th>
<th>Number of Required Loading Spaces</th>
</tr>
</thead>
<tbody>

</table>

[Ord. 2020-001]

Notes:
1. The use of parking spaces and the drive aisle can be used in lieu of providing a designated loading space during off-business hours. [Ord. 2020-001]
2. Additional loading spaces adjacent to, and not separated from the first loading space may be reduced to a minimum of 12 feet in width. [Ord. 2005-041]

Figure 6.E.4.A – Dimensions for Width and Length

[Ord. 2020-001]
b. Maneuver Area
An area equal to the width and length of the berth shall be provided for vehicle maneuvering directly behind the loading space it is intended to serve.

Figure 6.E.4.A – Vertical Clearance

c. Vertical Clearance
A vertical clearance of at least 15 feet shall be provided over the space and maneuvering apron, unless reduced by the DRO.
d. Type 1 Waiver – Reduction of Loading Space Width or Length
The minimum required width and length may be reduced for uses that require limited loading, to not less than 12 feet and 18.5 feet, respectively, subject to submittal and approval of documentation such as: evidence of actual loading demand for the proposed use(s), as well as other available technical data, traffic engineering, and planning information. [Ord. 2007-001] [Ord. 2016-042]

2. Layout
   a. Distance from Intersection
      1) Distance
         No loading space shall be located within 40 feet of the nearest point of the edge of pavement or curb of any two intersecting streets. [Ord. 2020-001]
      2) Setback
         Loading spaces shall be set back at least 20 feet from all front or side street property lines. When located at the rear of a building, a minimum five-foot setback from the property line shall be required.

b. Access Marking
   Each loading space shall be provided with safe and convenient access to a street, without it being necessary to cross or enter any other required loading space. If any loading space is located contiguous to a street, ingress and egress to the street side shall be provided only through driveway openings. The dimension, location, and construction of these driveways shall be designed in accordance with this Article. In addition, loading spaces which have three or more berths shall have individual spaces marked, and spaces shall be so arranged that maneuvering to and from a loading space shall be on the same lot unless approved by the DRO. Maneuvering shall be permitted in an alley upon the approval of the DRO if surrounding uses are compatible with the subject use. [Ord. 2020-001]

3. Screening
   a. Bay Doors
      Bay doors shall be located and oriented away from residential property lines or set back a minimum of 50 feet and screened from view.
   b. Loading Area Screening
      Loading areas, which may include loading spaces, docks, and associated maneuvering areas, that are within 100 feet of a parcel with a residential FLU designation or use, or visible from a street R-O-W, shall be screened from view by buildings a minimum of 12 feet in height, or a wall in combination with landscape material, as follows: [Ord. 2008-037] [Ord. 2015-031]
      1) Options by Location
         a) In Between Loading Area and Property Line
            Unless located within a perimeter landscape buffer, the following shall be required: a 12-foot-high wall combined with foundation planting along the exterior side of the wall, in accordance with the façade standards of Table 7.C.3.B. Foundation Planting and Dimensional Requirements. [Ord. 2008-037] [Ord. 2015-031]
         b) Perimeter Buffers
            If located within a perimeter landscape buffer, minimum required wall or additional landscaping, shall be as follows: [Ord. 2015-031]
            (1) Within a Compatibility or Incompatibility Buffer: 12-foot wall; or [Ord. 2015-031]
            (2) Within a R-O-W Buffer: six-foot wall combined with an eight-foot-high hedge located on the exterior side of the wall. [Ord. 2015-031]
            (3) Minimum wall height required within perimeter buffers may be reduced when used in combination with a berm, provided that the total height does not exceed 12 feet. [Ord. 2015-031]
   c. Architectural Compatibility
      Walls shall be architecturally compatible with the adjacent structure. [Ord. 2015-031]
   d. Conflict with Other Applicable Regulations
      If a conflict exists between loading area screening and other Articles in this Code, the provisions above shall prevail except where superseded by State or Federal law. [Ord. 2015-031]
   e. Exemptions
      Loading area screening is not required if any of the following standards are satisfied: [Ord. 2015-031]
      1) the loading area is obstructed from view by an existing landscape buffer, a preserve, or a structure; [Ord. 2008-037]
      2) a structure or tenant consisting of 10,000 square feet or less; [Ord. 2008-037]
3) a single loading space; or, [Ord. 2008-037]
4) the WCRAO Executive Director may exempt a loading space from screening requirements for parcels located in the WCRAO, pursuant to Art. 3.B.14.I.2, Redevelopment Loading Option. [Ord. 2008-037]
