6.2 PLAN REVIEW AND INSPECTION FEES

6.2.1 CONSTRUCTION PLAN REVIEW FEE

Payable at the time of plan submission for potable water, reclaimed water and/or wastewater projects.

- Residential - \$75.00 per dwelling unit for individual or combined service with a \$750.00 minimum.
- Non-Residential - \$75.00 per ERC based on meter size for individual or combined service with a \$750.00 minimum.

6.2.2 CONSTRUCTION INSPECTION FEE

Five percent (5%) of total estimated cost as provided by the developer and approved by the Department for all potable water, reclaimed water and/or wastewater construction improvements with a \$750.00 minimum for Residential and Non-Residential projects. The inspection fees for “Department required” oversized facilities shall be based on construction cost estimates for the “Development required” facilities, subject to minimum sizes as specified in Chapter 3 of the Uniform Policies and Procedures Manual. This fee is due prior to the pre-construction meeting. If the actual construction cost values stated on the “Attachment to the Bill of Sale” exceed the Engineer’s cost estimate by \$25,000 or more, then additional construction inspection fees equal to five percent (5%) of the difference between the Engineer’s cost estimate and the actual construction values must be paid to the Department prior to any water meters being released.

6.2.3 CONSTRUCTION REQUIRED FEES FOR WASTEWATER OR FIRE LINE CONNECTION

When adding a wastewater only connection to a property already having a potable water service from the Department the required Wastewater Connection and Guaranteed Revenue Fees must be paid prior to a WUD pre-construction meeting being scheduled. In addition, when adding a fire line to a property already having potable water service from the Department, the required Fire Line Connection Fees must be paid prior to a WUD pre-construction meeting being scheduled. The aforementioned fees are only required if the project property already has a water meter(s) that is remaining and/or being relocated as part of the project with no additional meters being added. If additional water meters are proposed for the project the Wastewater and Fire Line Connection and Guaranteed Revenue Fees only need to be paid prior to a new meter being released.

6.3 SERVICE INITIATION FEES

Service Initiation Fees shall include all applicable Guaranteed Revenue Fees, Connection Fees, Service Installation Fees, Fire Line Connection Fees and Franchise Fees.

Payment of Service Initiation Fees will only be accepted after all Plan Review approvals are set in the Development Tracking System, unless otherwise accepted at the discretion of the Department based on the imminent service connection.

6.3.1 GUARANTEED REVENUE FEES

An amount equal to sixty (60) months of Guaranteed Revenue Fees is due at the time of service initiation.

Mandatory Agreement Payment per ERC (equal to 12 months):

Industrial Wastewater Surcharge in dollars per month

8.34 = Conversion factor of 1 milligram per liter (mg/L) = 8.345 lbs./million gallons

V = Volume in million gallons per month based on metered water

B.O.D. = Biochemical Oxygen Demand - 5 days @ 20° Celsius (C), in mg/L

SS = Suspended Solids of industrial waste in mg/L

OG = Oil and Grease in mg/L

¹ = Capital and operating costs per mg/L per million gallons for B.O.D. greater than 480 mg/L which includes a 20% buffer on the surcharge standard of 400 mg/L

² = Capital and operating costs per mg/L per million gallons of suspended solids greater than 480 mg/L which includes a 20% buffer on the surcharge standard of 400 mg/L

³ = Capital and operating costs per mg/L per million gallons of oil and grease greater than 120 mg/L which includes a 20% buffer on the surcharge standard of 100 mg/L
